Genova, Aug. 9.

NOT any Ships have arrived here this week, save an *Hamburger*, from *Legorn*, from whence we have an account, that the *Happy Return* sailed five days since for *Spain*. An Ambassador is daily expected here from *Poland*, to demand Succors against the *Turks*, being already arrived at *Turin*, from whence he comes hither. The French Gallies are past by *Corfica* for *Sardinia*, but it's said will go no farther Eastward than *Cagliari*, where the Chevalier *de Tourville* with the Men of War under his command, hath blocked up three Major-kins. The 5th instant our new Doge was Crowned with great solemnity.

Turin, Aug. 12. The 6th instant the Chevalier *Lubomirski*, Ambassador Extraordinary from *Poland*, had his first Audience of the Duke, and afterwards of the Dutchess Regent; his business was to demand assistance against the *Turks* in the War that Crown is going to engage in against them; and in the next place to desire the Dutchess would be Godmother to the Daughter of the King of *Poland*: As to the first the said Ambassador, was answered, that the Duke would raise a Regiment of Dragoons, which shall be called the *Royal Regiment of Savoy*, and will maintain the same for a year in the service of that Crown, and wished other Christian Princes would follow this example; and as to the other, the Dutchess received the Complement very kindly, and said she would desire the Marchioness of *Bethune*, Wife of the French Ambassador in *Poland*, to stand for her at the young Princesses Christning.

Copenhagen, Aug. 22. The 18 instant our Plenipotentiaries came hither from *Schonen*, to consult the Council here, concerning matters relating to the Treaty, and this morning they returned thither again, except Count *Anthony of Oldenburg*, who is gone for *Holstein*, to wait upon the King. The Swedes continue to besiege *Elsenburg*; three or four days since they endeavoured to post themselves on the Strand, to hinder the Besieged from receiving any succors from that side, but the Danish men of War that lay off there, did so ply the Swedes with their Cannon, that they were forced to retire. But yesterday they returned with better success, and having planted 27 pieces of Cannon on the Sea side, they did so gall our Ships, that they were forced to weigh their Anchors, and to quit their station. This day one Colonel *Leshley*, a Scotchman, was brought hither prisoner, having been taken two days since in a Sally they of *Elsenburg* made upon a party of Swedes, who came very near their Works to observe them. We expect our King here this week from *Holstein*.

Hamburg, Aug. 25. From *Holstein* we have an account, That the King of *Denmark* had given Audience to the *Moscovite* Ambassador, whose business,

it seems, was to demand his assistance against the *Turks*. We do not yet know whether his Majesty will come back hither, or return for *Copenhagen*. This City hath finally thought fit to accommodate matters with the Elector of *Brandenburg*, and to satisfy his pretensions; so that now we shall be pretty well at ease on that side. The like will be endeavoured with the King of *Denmark*, who pretends to the Homage of this City, as being situated in his Territories. Our Polish Letters tell us, that they had news, that the *Moscovites*, with the help of the *Cossacks*, had defeated 40000 *Turks*, of which, one half had been killed upon the place, which if true, will very much promote the Alliance that is now proposed against the Port.

Cologne, Aug. 22. The Country of *Fuliers* is totally ruined by the French Troops that still remain there, while the Marschal *de Crequi* is very sick at *Wesel*, and has sent to *France* for Doctors. Here is a report that the French Troops that were marching towards the *Meuse*, have received orders to come back this way, and that the pretence is, they are to march for *Lorain*, which very much alarms us here.

Aix, Aug. 22. Yesterday in the evening her Highness the Princess of *Orange* arrived here, attended with a noble Train, having been received some Miles out of Town by Lieutenant-General *Calvo*, and a great many other chief Officers, and four Troops of Horse; upon her Highnesses arrival here, all the Cannon upon the Walls were discharged, and the Troops in Garrison here made a Lane in the Streets, through which she passed to her Lodgings.

Liege, Aug. 22. The French Troops march daily by this place; their Cannon passed yesterday at *Chinay*. Several thousand of their men are at present encamped on the River *Roe*, and they will follow the others in few days. It is said there is appointed a general Rendezvous of their Forces at *Sedan*, and that there a great many will be disbanded. There are 16 French Companies still at *Verriers*, and at *Huy* they have still a Garrison, of which place they demand 30000 *Gilders*, which the Inhabitants are unable to raise. Yesterday the Princess of *Orange* parted from *Maestricht* for *Aix la Chapelle*.

Brussels, Aug. 25. The States General having by their Resolution of the 5th instant, communicated to *Don Emanuel de Lyra* the 9th, declared that they expected the Crown of *Spain* should satisfy the Debts, owing to the Prince of *Orange*, by virtue of several Agreements and Stipulations made in consequence of the Treaty of *Munster*; and to the Admiralties of these Provinces, for Monies disbursed during the War, before they parted with *Maestricht*; the said Minister two or three days before he left the *Hague*, gave in a very long Memorial, containing a Reply to the said Resolution. In which he sets

forth

forth the surprize he was in to receive after a sollicitation of ten months, and after so many Memorials by him given in, an Answer so little suitable to the great Advantages (even preceding the Treaty of 1673,) rendered the State by the Crown of Spain in the beginning of the late War; That the Offer of *Maeſtricht* was then made voluntarily by the States, as an acknowledgement of the same, which they ought therefore the rather to make good; That for what concerns the Prince of *Orange*, the Debt had never been denied, and great Sums had been paid on that account; and that the Millions which the Crown of *Spain* has expended in the late War in Subsidies and maintenance of foreign Troops, would have more then satisfied his Highnesses pretensions. That the Crown of *Spain* does readily acknowledge the great obligations they, the States, have to his Highness, for the eminent Services he hath rendered them in so many occasions; That in satisfaction of his Debt, the Crown of *Spain* had assigned him 100000 Crowns at each return of the Gallions, and 50000 Crowns of Annual Rents in the *Low Countries*; That as to what is owing to the Admiralties, all care will be taken to satisfy the same. Then he shews the great advantage *Maeſtricht* may be of to *Spain*, but of none to the States, lying so far from their Frontiers; and concludes, that he knows not how the King his Master will resent this their proceeding, or what he may resolve in return thereof, concerning the Dutch Effects, for that he is ignorant whether his Majesty will act therein according to his Royal Goodness, or according to the Justice and Right of the thing.

Hague, Aug. 25. The Council of State has made fresh instances that the Monies granted by the States for the Fortifications, may be paid, that so they may begin with those of *Campen*; The States of *Holland* have declared themselves ready to furnish their Quota, and that they will write to the other Provinces concerning it. The States have thought fit to give an Answer to the Memorial of *Don Emanuel de Lyra*, the Spanish Minister, which he gave in by way of Reply to their Resolution of the 5th instant concerning *Maeſtricht*. The news we have from *Surinam* is not very good, for our Letters give us an account, that the ill posture of things there, chiefly occasioned by the several Ringings of the Indians, had obliged a great many Families to leave the Colony, and to transport themselves to *Tobago*. There are Letters from *Italy*, which say, that the Chevalier de *Tourville* cruising on the Coast of *Sardinia*, had met with 3 or 4 Spanish Men of War, who, to avoid all occasions of dispute, put into *Cagliari*, of which the said Chevalier de *Tourville* had given notice to the Duke de *Vivonne*, who was thereupon sailing thither with his Gallies, with intention, as is believed, to execute his orders about making all Spanish Ships strike, though they are in their own Ports,

Falmouth, Aug. 18. The 14 instant arrived here the *Violet*, of *Yarmouth*, Philip Fowler Master, from *Zant* and *Venice*, she came in a Fleet of 30 sail, under the Convoy of the *Pearl* and *Diamond*. The 16 came in here the great *St. John*, and the little *St. John* of *Haut de Grace*, bound for *Rochelle*. The next day the *Constance* of *London*, Henry Bond Master, bound for *Norway* from *Spain*.

Plymouth, Aug. 19. On Sunday last arrived here

the *Bristol*, the *Swiftsure*, the *Ruby*, the *Dartmouth*, the *Swallow*, the *Kings Fisher*, and the *Oxford*, and it is said, that the *Bristol* and the *Kings Fisher* have Orders to sail with the *Pearl* and the *Diamond* for *Portsmouth*, and the rest to go and cruise in the Soundings.

Lin, Aug. 20. Yesterday Mr. *Furner* and Mr. *Taylor* were chosen Burgeſſes for this Corporation.

Yarmouth, Aug. 22. Yesterday Captain *Huntington* and Mr. *George England* were chosen to serve as Burgeſſes for this place in the next Parliament. On Monday next is the Election for the County.

Windsor, Aug. 24. His Majesty, who has been indisposed for some days, by a Cold He took, is, Thanks be to God, well again, his Distemper, as is hoped, having quite left Him.

These are to give Notice, to all Persons who have formerly been employed by the late Farmers for Collecting His Majesties Revenue of Fire Hearths, &c. in any County, City, or Town in England, or the Dominion of Wales, and have Discharged their Trust in that Affair, that they may apply themselves to the present Commissioners and Managers of the said Revenue at the new Hearth-Office, late the African-House in Throgmorton-street London.

Advertisements.

Whereas the Horse Fair at *Penkridge* in the County of *Stafford*, by an ancient Charter, ought every year to begin upon the 23 day of September, and to continue for the space of eight days; and notwithstanding of late years, Horse courtiers and others in the time of Harvest, many weeks before the said legal time, in and about the said Town, and Towns adjacent, have made their Markets of Horses intended for the said Fair, to the great prejudice thereof; for prevention whereof the Gentlemen of the Country have engaged themselves by subscription not to sell their Horses so near the time, but bring them to the said Fair. Therefore this is to give notice to all whatsoever of this their intention, to the end they may not be at the Charge of making unequal journeys thither.

Whereas *Robert Fenison* of *Grays Inn Esq;* hath lately made further Discovery of the Hellish and Damnable Popish Plot against the Life of His Sacred Majesty, and for Subverting the Government, and Extirpating the Protestant Religion, and hath also nominated the Four Russians that were to have Murdered the King at *Windsor*. These are to give notice, that a True and Perfect Narrative of the same Discovery, with the Reasons why the said Mr. *Fenison* did not Discover it before, will be shortly Printed and Published under the hand of the said Mr. *Fenison*, for *Francis Smith* and *Samuel Heyrick*, and their Assigns, and therefore whatever shall be Printed and Published of Mr. *Fenisons* said further Narrative, by any other Person or Persons, will not be owned by the said Mr. *Fenison*.

Also a bay Mare, with a hog rump, carries her nose out, has had a flesh hurt upon one of her thighs, which seems to be a Bunch, about 15 hands high, 8 years old, all her paces.
