Genova, Aug. 9.

**N**OT any Ships have arrived here this week, save an *Hamburger*, from *Legorn*, from whence we have an account, that the *Happy Return* sailed five days since for *Spain*. An Ambassador is daily expected here from *Poland*, to demand Succors against the *Turks*, being already arrived at *Turin*, from whence he comes hither. The French Gallies are past by *Corfica* for *Sardinia*, but it's said will go no farther Eastward than *Cagliari*, where the Chevalier *de Tourville* with the Men of War under his command, hath blocked up three Major-kins. The 5th instant our new Doge was Crowned with great solemnity.

*Turin*, Aug. 12. The 6th instant the Chevalier *Lubomirski*, Ambassador Extraordinary from *Poland*, had his first Audience of the Duke, and afterwards of the Dutchess Regent; his business was to demand assistance against the *Turks* in the War that Crown is going to engage in against them; and in the next place to desire the Dutchess would be Godmother to the Daughter of the King of *Poland*: As to the first the said Ambassador, was answered, that the Duke would raise a Regiment of Dragoons, which shall be called the *Royal Regiment of Savoy*, and will maintain the same for a year in the service of that Crown, and wished other Christian Princes would follow this example; and as to the other, the Dutchess received the Complement very kindly, and said she would desire the Marchioness of *Bethune*, Wife of the French Ambassador in *Poland*, to stand for her at the young Princesses Christning.

*Copenhagen*, Aug. 22. The 18 instant our Plenipotentiaries came hither from *Schonen*, to consult the Council here, concerning matters relating to the Treaty, and this morning they returned thither again, except Count *Anthony of Oldenburg*, who is gone for *Holstein*, to wait upon the King. The Swedes continue to besiege *Eisenburg*; three or four days since they endeavoured to post themselves on the Strand, to hinder the Besieged from receiving any succors from that side, but the Danish men of War that lay off there, did so ply the Swedes with their Cannon, that they were forced to retire. But yesterday they returned with better success, and having planted 27 pieces of Cannon on the Sea side, they did so gall our Ships, that they were forced to weigh their Anchors, and to quit their station. This day one Colonel *Leshley*, a Scotchman, was brought hither prisoner, having been taken two days since in a Sally they of *Eisenburg* made upon a party of Swedes, who came very near their Works to observe them. We expect our King here this week from *Holstein*.

*Hamburg*, Aug. 25. From *Holstein* we have an account, That the King of *Denmark* had given Audience to the *Moscovite* Ambassador, whose business,

it seems, was to demand his assistance against the *Turks*. We do not yet know whether his Majesty will come back hither, or return for *Copenhagen*. This City hath finally thought fit to accommodate matters with the Elector of *Brandenburg*, and to satisfy his pretensions; so that now we shall be pretty well at ease on that side. The like will be endeavoured with the King of *Denmark*, who pretends to the Homage of this City, as being situated in his Territories. Our Polish Letters tell us, that they had news, that the *Moscovites*, with the help of the *Cossacks*, had defeated 40000 *Turks*, of which, one half had been killed upon the place, which if true, will very much promote the Alliance that is now proposed against the Port.

*Cologne*, Aug. 22. The Country of *Fuliers* is totally ruined by the French Troops that still remain there, while the Marschal *de Crequi* is very sick at *Wesel*, and has sent to *France* for Doctors. Here is a report that the French Troops that were marching towards the *Meuse*, have received orders to come back this way, and that the pretence is, they are to march for *Lorain*, which very much alarms us here.

*Aix*, Aug. 22. Yesterday in the evening her Highness the Princess of *Orange* arrived here, attended with a noble Train, having been received some Miles out of Town by Lieutenant-General *Calvo*, and a great many other chief Officers, and four Troops of Horse; upon her Highnesses arrival here, all the Cannon upon the Walls were discharged, and the Troops in Garrison here made a Lane in the Streets, through which she passed to her Lodgings.

*Liege*, Aug. 22. The French Troops march daily by this place; their Cannon passed yesterday at *Chinay*. Several thousand of their men are at present encamped on the River *Roe*, and they will follow the others in few days. It is said there is appointed a general Rendezvous of their Forces at *Sedan*, and that there a great many will be disbanded. There are 16 French Companies still at *Verriers*, and at *Huy* they have still a Garrison, of which place they demand 30000 *Gilders*, which the Inhabitants are unable to raise. Yesterday the Princess of *Orange* parted from *Maeffricht* for *Aix la Chapelle*.

*Brussels*, Aug. 25. The States General having by their Resolution of the 5th instant, communicated to *Don Emanuel de Lyra* the 9th, declared that they expected the Crown of *Spain* should satisfy the Debts, owing to the Prince of *Orange*, by virtue of several Agreements and Stipulations made in consequence of the Treaty of *Munster*; and to the Admiralties of these Provinces, for Monies disbursed during the War, before they parted with *Maeffricht*; the said Minister two or three days before he left the *Hague*, gave in a very long Memorial, containing a Reply to the said Resolution. In which he sets forth
