Lisbon, July 12.

THE States of this Kingdom are appointed by the Prince Regent to meet the 15th of September next, to approve the Marriage between the Infanta and the Duke of Savoy, which our Letters from *Turin* say, was very much disliked by the generality of people there.

Genoua, Aug. 15. Not any Vessels are arrived here this week, except a French Petache from *Thoulon*, to find out the French Gallies which are put into *Porto Vecchio* in *Corsica*, in their way for *Cagliari*, where the Chevalier de *Tourville* with the French Men of War under his command, attends them, in order to the falling upon three Majorkins of good force, which he has blocked up in that Port. That *Cazal* will fall into the hands of the French, is now feared more then ever; for we are told from good hands that Monsieur *Gaumont* is negotiating that matter at the Court of *Mantoua*, with good hopes of success. From *Turin* we have an account, that the Polish Ambassador, the Chevalier *Lubomirski*, having obtained a promise that the Duke of *Savoy* will raise and maintain a Regiment of Dragoons for the service of that Crown, in case it enter into a War against the Turks, is on his departure from that Court. It is reported that the *Maltha* Gallies have had a Rencontre with four Turks Gallies (who with some other Vessels had landed in *Calabria*, and made many slaves there) and had taken some of them. There is a discourse of some disturbance at *Messina*.

Dantzicke, Aug. 27. We had some days since a warm report here of a great Victory obtained by the Moscovites against the Turks; but the Letters we have since received from *Poland* prove it to be a mistake; they say, that the Moscovite Army lay encamped under the Walls of *Kiovia*, expecting the conjunction of more Troops, before they marched towards the Enemy, while in the mean time the Cham of *Tartary* did use all his endeavors to make up a Peace between the Poles and the Turks, which on the other hand the Poles labor all they can to hinder, and the more, since the Resident of that Crown at *Constantinople* has in his late Letters to the King, told him, that the Grand signior was resolved to break with him, and would the next Spring take the Field in person, to attack him with all the force of his Empire, and that to that end endeavors, would be used to prolong the Peace with the Emperor for 20 years. This advice, as our Letters tell us, was lookt upon to be of that importance, that the King had summoned a Dyet to be held at *Warsaw* the beginning of *December*, and to continue for a fortnight only.

Vienna, Aug. 20. The Plague encreasing here very much, the Emperor has resolved to remove with the whole Court to *Prague*, for which all

things are accordingly preparing. The Ambassadors of *Poland* and *Moscovy* have received a final Answer to what they came to propose to this Court, which we cannot as yet give you any account of farther then that the said Ambassadors seem very well satisfied, and are preparing to return home. The advices from *Hungary* are so uncertain, that they deserve not any credit, and therefore we will not trouble you with them.

Copenhagen, Aug. 26. Yesterday in the evening our King returned hither from *Holstein*: According to the advice we receive this day from *Schoonen*, it seems the Suedes are going to raise the Siege of *Eisenburg*, they having already taken the Cannon from their Batteries. Two or three days since Colonel *Swanmedel*, who went out with a Party from *Landskroon*, meeting with a stronger party of Suedes, was forced to retire with some loss.

Copenhagen, Aug. 29. The Danish Plenipotentiaries returned the 27th instant again from *Lundun*, to give the King an account of the state the Treaty is in, and to receive his orders upon the Points which remain undetermined. It is believed they will in a day or two go back to *Lundun*, to try if things may be brought to a conclusion. We have this evening advice that 6000 Suedes, with 12 pieces of Cannon, are marched towards *Helmstadt*, with what design is not known.

Hamburg, Aug. 22. From *Berlin* they write, that the Electoral Prince of *Brandenburg*, was the last week privately married to the Princess of *Hesse Cassel*. The Sieur *Grauenthal* is arrived here from *Sueden*, and, as we are informed, has brought that Kings Ratifications of the Treaty concluded some time since by Monsieur *Rabenac* the French Minister with the Princes of *Lunenbourg*, with a Declaration thereupon, which it's believed will be accepted by the said Princes. This day the said Sieur *Rabenac* parts from hence for *Berlin*, where, it's believed he will reside.

Cologne, Aug. 28. The 26th instant the Bishop of *Osnabrug* arrived at *Mulheim*, in his journey to *Eems*; our Magistrates deputed two of their Body to go and compliment his Highness there, which they performed; and besides, made an Agreement with him, in the matter of the monies he demanded of this City, by which he contents himself with 15000 Crowns, instead of 20000, which the Emperor had assigned him upon this City, in lieu of Winter-quarters; in pursuance of this accord, 5000 have been already paid, and the other 10000 to be, upon demand, at *Francfort*. From *Vienna* they write, that many people dying there daily of the Plague, the Emperor had resolved to remove his Court to *Prague*.

Cologne, Sept. 1. On Tuesday last the Prince and Princess of *Newburg*, passed by this City in Barges, down the River, and lodged that night at *Mulheim*,

Milke'm, where they were complimented on the part of our Magistrates; the next day they arrived at *Duseldorp*, the place of their Residence, and were received there with all the solemnity the place is capable of.

Liege, Sept. 1. The French Troops are most of them passed by for *France*. And the *Marschal de Crequi*, who is indifferent well again, will follow in a day or two. The French assure us that the Garisons which they have at *Veruilers, Viser, Huy*, and other places in these parts, will very suddenly march from thence, which we can hardly think they will do, as long as the French Troops remain in the County of *Fuliers* and at *Aix la Chapelle*.

Amsterdam, Sept. 4. Our Letters from *Paris* of the 2d instant say, that the Treaty with *Denmark* was so far advanced, that it was believed it would be signed that day or the next. *Monsieur Hoeg* the Danish Ambassador at *Nimeguen*, has, as we are informed, orders to go for *France*, so soon as the said Peace is concluded, to reside there, for some short time at least.

Rague, Sept. 4. We are expecting our French Letters with some impatience, which it's believed, will give an account of the Peace being concluded between the two Northern Crowns; for our last Letters told us that the Treaty had within two or three days been much advanced; It seems the Articles concerning the re-establishment and satisfaction of the Duke of *Holstein Gottorp* (whose Country the King of *Denmark* possessed himself of upon his entering into this War) are the hardest to be adjusted. The Reply which *Don Emanuel de Lyra*, the Spanish Envoy made to the Answer he received from the States concerning *Maastricht*, the day before he went hence, has not obtained any change of their Resolution in that Affair: The Spaniards in the mean time seem to resent the States proceeding in this particular; and at present we hear nothing of *Don Fuen Mayor* (who is appointed to succeed *Don Emanuel de Lyra*, and did once intend to have been here the very day after his Predecessor parted hence) his coming hither from *Brussels*, where he now is. The Prince of *Orange* is at present at his house at *Dieren*, from whence he goes to morrow for *Breda*. From *Zealand* we have advice, that a Vessel arrived there the 30 past from the *West Indies*, who heard nothing of the Count *d'Estree*, though we have Advices from other parts, which say, that he was at the *Leeward Islands*.

Paris, Sept. 6. On Monday the Queen of *Spain* came hither, and received the Compliments of the several Companies; she will not stay here many days longer, but will return to *Fontainbleau*, in order to her journey for *Spain*, which she will begin about the middle of this month. The Danish Minister, after having had several Conferences with *Monsieur Pomponne*, to adjust the Terms of the Treaty to be made between the Crowns of *France* and *Sueden*, and the King his Matter, did several days since come so far as to agree all the Articles, except those which concerned the Duke of *Holstein*, these bred so great difficulties, that many thought they would break the whole Work; but it seems they were likewise at last overcome, for we are assured that the Treaty of Peace was signed on Sunday last in the evening by the Kings Commissioners, and the said Danish Minister, of which we as yet know not the Particulars. It said likewise, that there is an

Agreement made with the Emperor, by which the King, upon certain Conditions, to be performed by his Imperial Majesty, promises to restore to the Duke of *Lorraine* all his Countries, and even *Nancy* fortified, and *Marsal*, which we must leave to time to satisfy us of the truth of. The *Marschal de Crequi* parted several days since from *Wesel*, on his return hither.

Plimouth, Aug. 26. The 23 instant arrived here the *Olive Branch* of *Topham*, *John Traugmore* Master, bound for *Cadix* and *Malaga*; the *Thomas and Mary* of *Dartmouth*, bound for *Lubon*; the *Britannia* of *London*, *Richard Lurocke* Master, for *Zant*. The 24 the *Hopewell* of *Topham*, *John Griffin* Master for *Bilboa*; the 25th the *Thomas and Fane* of *London*, *Edward Ravens* for *Cadix*; and the *Thomas and Judith* of this place from *Gottenburg*.

Windsor, Aug. 28. Since Sunday last His Majesty has had two Fits of a Tertian Ague, but the last, (which begun about 9 a Clock on Tuesday night, and continued till next morning) was not so violent as the former, so that we hope it is going off.

Windsor, Aug. 29. His Majesty is much better this day than He has been since his illness, having both missed his Fit, and slept well, the last night; so that the Physicians hope His Distemper has left Him, to the great joy of all people.

Windsor, Aug. 30. His Majesty has, God be praised, been very well since his last Fit left Him on Wednesday, and the Physicians conclude His Majesty is quite rid of His Ague

On Thursday was the Election here of Burgeses to serve in the approaching Parliament, and Mr. *Doney* and Mr. *Cary* were chosen.
