**Tangier, Aug. 16.**  
**W**E have placed our great Chest containing 4500 Tuns, to our satisfaction. This morning Vice-Admiral *Herbers* brought in a Dutch Ship, being a Prize taken by the Turks, who deserted her; she is laden with Deal Boards and Firr Timber. Yesterday we received advice from *Tetuan*, that our Frigats which are cruising within the Narrow had put ashore and burnt an *Algerine* of 26 Guns. The Moors are retired, part of them are encamped near *Alarache*, and the *Alcaide* is at *Alcazar*.

**Tangier, Aug. 28.** We have been visited by a Levant Storm, which has somewhat disturbed us in prosecuting the work of the great Chest, but no weather on that quarter we had secured can give us any apprehensions. The Dutch Vessel mentioned in our last, proves to have been deserted by her own men, upon her being chased by one of our Frigats. The news of the stranding an *Algerine* on the Coast of *Tetuan* is confirmed. The Turks escaped ashore, leaving a Train behind them for the blowing up of the Ship, which God be thanked took not effect till our men had left her.

**Madrid, Oct. 1.** The 27th past in the Evening the King, attended by many of the Grandees, went to *Aranguex*, and there met the Queen his Mother, who came from *Toledo*; and next day their Majesties arrived here. The *New Spain* Fleet, in all about 26 Sail, arrived the 24th past in the Bay of *Cadix*, in 47 days from the *Havana*; it is said, in general that they are very rich, and that they have brought three Millions of Pieces of Eight for the King.

Last night Sir *Henry Goodrick* Envoy Extraordinary from His Majesty of *Great Britain*, arrived here.

**Genova, Oct. 4.** The 2<sup>nd</sup> past arrived here 3 French Men of War, with a Fire-Ship, from *Cagliari*, of the Squadron of Monsieur *Tourville*; who is gone, with 5 or 6 of his biggest Ships, to *Brest*. The Commander of those arrived here pretends the Castle should answer him Gun for Gun, which the Senate will not consent to, so that hitherto the French Ships have not saluted the Castle. The 30th past arrived here this States Convoy, in 9 days from *Cadix*, by which we have advice, that the *Centurion* and *Nonisub* Frigats are coming hither.

**Copenhagen, Oct. 14.** The Ratifications of the Peace between this Crown and *Sueden* are exchanged; and it is said the Marriage of the King of *Sueden* with our Kings Sister is concluded, and will be speedily consummated.

**Hamburg, Oct. 17.** The King of *Denmark* having accepted the Mediation of the Princes of *Zunenburg*, they sent three Deputies to meet those of his Majesty at *Wilsaq*, and after several conferences,

the *Lunenburg* Ministers, came back and acquainted the Senate that the King of *Denmark* absolutely insisted upon this Cities doing him Homage, and upon their engaging never to act against his Interests; and this morning they returned gain to the King with the Answer of the Senate, which was, That they are resolved not to submit to the Homage required, but offer 3 or 400000 Crowns to satisfy that Kings pretensions, and secure them from all future disturbances on this account, which it is not believed the King will accept of; and therefore we must expect a Siege; our reliance is upon the resolution of the *Burgers*, and the assistance of the Princes of *Lunenburg* who are firm to us. Yesterday it was proclaimed in the Danish Camp (which we can see from our walls) that all Women and Children should presently leave it. The Danes endeavour to frighten us with their Artillery, with which they say they will in 8 days lay us in ashes. They have indeed 54 whole Cannon, and Mortar peeces each drawn by 24 horses. A Bridge of Boats is making over the *Elbe*, above this City, for our communication with the Princes of *Lunenburg*; one of their best Regiments of 2000 men came within this day, which makes our Garrison already 9000 men, and Monsieur *Ghanet*, General of the Duke of *Zell's* Forces, is here.

**Utrecht, Oct. 20.** This day the Duke of *York* went hence for *Amsterdam* and *North-Holland*, and will be back here in 10 or 12 days.

**Amsterdam, Oct. 20.** The French Consul here has not been wanting to apply himself to those that have any share in the Government of this City, to dispose them to favour the Interests of the King his Master, and to oppose the Alliance that is treating with *England*. When the States of *Holland* meet again, which will be on the 15th of the next Month, we may see what Issue things will have. Those States, before their peeces, ordered their Deputies to move in the Assembly of the States General, that a Succour of 300 men might be sent to *Surinam*, to put that Colony in a condition to secure it self from the *Indians*. The Treaty of Commerce between *Sueden* and this State has been sent to the several Provinces for their approbation. The States General have resolved to write to the Elector of *Brandenburg*, to let him know that they are willing to enter into Conferences with him, concerning his Electoral Highnesses pretensions upon them, and that their Ministers shall meet with his, either here or at *Berlin*.

**Hague, Oct. 20.** The Sieur *Van Beverning*, and the Sieur *Van Haren*, the Ambassadors of this State at *Nimeguen*, are returned hither, that Assembly being quite broken up. They have made their reports to the States General, of all that has been transacted there during their Embassy; after which they were likewise with the Prince of *Orange*. The Resident of *Hamburg* here has prevailed to have the

Sieur d' Amerongen go first to the King of Denmark, at his Quarters at *Pinnenburg*, to endeavour by his good Offices to adjust matters between his Majesty and the Town of *Hamburg*. The States have likewise sent Orders to their Minister at *Copenhague* to repair forthwith to the Danish Court, to assist the Sieur d' Amerongen in his Negotiation, who will be the more acceptable, as having been formerly Ambassador in *Denmark*, where he was honoured with the Order of the Elephant. This Morning the Prince of *Orange* went hence for *Soestdyck*, and to-morrow the Princess follows; and it is thought their Highnesses will not return till the 12th of the next Month.

*Hague*, Octob. 20. Here is much talk of a Letter, which was some days since, sent to the States General, by an unknown hand; representing at large the ill posture these Provinces are fallen into, which is the reason the neighbouring Princes have not the same regard for this Republick as formerly; witness the threatening Letters of *Spain*, *Denmark*, *Brandenburg*, and *Lunenburgh*; that the only way to restore the State into the Condition it was formerly in, is to enter into a strict Alliance with *France*, in pursuance of which the French King would maintain 150000 Men in Arms, and this State need not to keep above 10000 Foot and 6000 Horse and Dragoons; that by this means, these Provinces would be able to defend themselves against whomsoever it be; that this Alliance should be confirmed every year, by mutual Oaths, by the French Ambassador here and the Ambassador of this State at *Paris*; and this being done the Subjects of this Republick should have alone the Trade in that Kings Dominions, to the exclusion of all others. The French Ambassador, about the same time, presented a Memorial to the States concerning an Alliance, which the King his Master offers to enter into with this State; which seems disposed rather to close with *England*, as its true Interest.

*Paris*, Octob. 21. This day the President *Colbert* parts hence for *Bavaria*, where it's said he goes to conclude the Treaty of Marriage between the Dauphin and that Electors Sister, which done, the Duke de *Pilleroy* will be sent as Ambassador Extraordinary to conduct her hither. There is a discourse at Court that the King will take a journey to *Mets* toward the end of this year, or the beginning of the next. Prince *William of Furstemburg* goes hence in few days for *Padua*, where it's said he has some Affairs of his own to look after, but its believed, that's only a pretence, and that he goes for *Bavaria*, to treat there some private matters. The 10th the Count d' *Estree* arrived with the Ships under his command at *Brest*, from the *West Indies*, which he sent his Son, the Marquis d' *Estree*, to give the King advice of. And we are told, Orders are sent him to lay up the Ships that are come home with him. The 11th instant the Queen of *Spain* arrived at *Bordeaux*, where she would stay two or three days. The Spanish Ladies, who came to receive her, have passed the Frontiers, and will expect her Majesty at *Bayonne*, but the Grandees come on to meet her. It is said the King of *Spain* will come incognito, with five or six persons only, to *Fontarabie*, to see this Queen there, and then will return to *Burgis*, where he will publicly receive her, and consummate his Marriage. The 18th, the Princess of *Han-*

nover arrived here. The King of *Denmark* and the City of *Hamburg* have accepted the Mediation of the Duke of *Hanoer*, for the accommodating the differences between them; the King has likewise offered them his, The Marschal d' *Humieres* arrived three days since at Court; but the King has sent him back to *Lorraine* and *Alsace*.

*Plymouth*, Oct. 10. Yesterday came into this Port the *Ruby*, Captain *Allen* Commander, from cruising to the Westward; and the *Phoenix* Captain *Blage*, from *Bilboa*. The Weather is at present very Tempestuous.

*Bridgewater*, Octob. 11. The Tides of the last night and this morning were so violent, and rose to that excessive height, that they overflowed all our Banks and came into our Houses. All grounds are under water, which passes through the High Ways as a River. Many Hay Reeks are spoiled, and it's feared this Evening's Tide will do more mischief; the like was never known or heard of by any of the Inhabitants, to our great amazement and loss.

*Portsmouth*, Oct. 14. The *Bristol*, the *Wolwich*, and the *Kings-Fisher* are ordered to be fitted out with all speed.

*Deal*, Oct. 14. The Captain, the *Oxford*, the *Swallow*, the *Adventure*, the *Norwich*, the *Soldados*, and the *Greyhound* Frigates are now in the Downs, with about 20 Sail of Merchant Ships, bound for *Virginia*, as many for the *Canaries*, and 5 or 6 for the *Barbadaes*, besides those bound for other Ports.

*Whitehall*, Octob. 13. This afternoon Their Majesties, attended with several of the Nobility, and other Persons of Quality, returned hither from *Newmarket*.

*Whitehall*, Oct. 13. This day His Majesty, in Council, was pleased to Order a Commission to be prepared for the Proroguing the Parliament, which is to meet the 17th instant, till the 26th of January next.

His Majesty has likewise thought fit to remove the Earl of *Shaftsbury* from the Place of President of His Privy Council.
