

# The London Gazette.

Published by Authority.

From Thursday November 6. to Monday November 10. 1679.

Whitehall, Novemb. 6.

**H**IS Majesty has thought fit by His Royal Proclamation, bearing Date the 24 of September last past, with the advice of his Privy Council, to Declare, That His Majesty has by his Letters Patents, Dated the 9 of December 1678, appointed *Anthony Row*, *Nabanael Jolusohn*, *Conrad Bradshaw*, *Robert Noris*, and *Thomas Duke of London* Esquires, to be Collectors of His Majesties Revenue arising by Fire-Hearths and Stoves as shall become due at and after *Michelmas* 1679 for the term of 5 years to be computed from Lady-day 1679; And that therefore His Majesties Will and Pleasure is, that His said Revenue, due at and after *Michelmas* 1679, during the said Term of 5 years, shall be Collected by the Persons above mentioned, their Deputies, Agents, and Substitutes: And that all Arrears of the said Revenue due at or before Lady day last past be Collected by *John Pory* and *Edward Buckley* Esqrs; surviving Farmers of the said Revenue, pursuant to His Majesties Letters Patents to them. And His Majesty doth strictly require; all Justices of the Peace, chief Magistrates, Headboroughs, Constables, and all other Officers to be aiding and assisting to the persons abovementioned, their Deputies, Agents and Substitutes, in the Collecting the said Revenue and the Arrears thereof. And His Majesty doth command all his Subjects to permit and suffer his said Collectors, their Deputies, Agents or Substitutes, according to the Acts of Parliament in that behalf made, time to time to enter and make perfect surveys for the numbering all Fire-Hearths and Stoves within each County, City and Place in *England*, *Wales*, and *Berwick* upon *Tweed*, and in case of any refusal, His Majesties Officers abovementioned are required to be aiding and assisting to them, that such Views and Surveys may be duly and thoroughly made. And His Majesty doth farther require that all illegal and undue Certificates be forthwith Discharged, to the end no person may thereby pretend to be exempted from the said Duty, which he ought to pay by Law. And that all Persons that shall oppose or injure the said Collectors or any of their Officers in the due execution of the said Acts of Parliament, be punished according to Law.

*Warsaw*, Oct. 20. *Hanenko*, who designed to have betrayed our Army to the *Tartars*, has been tried by a Council of War here, and Sentenced to have a Stake run through his body, and so fixed to the Earth, and in that miserable condition he is to continue till he dye. Our Ambassadors continue still at *Moscow*, but we cannot say what success the Treaty they have in hand will have.

*Danzick*, Nov. 1. The Treaty between the Turks and the *Moscovites* is broken off, which without doubt will advance that depending between *Poland* and *Moscow*. The King of *Poland* has appointed a Dyet to be held the 8th of *January* at *Warsaw*, by which time the Ambassadors now at *Moscow* will be returned, and able to give an account of the Sentiments that Court is in with relation either to Peace or War. Here are great differences among the Inhabitants of this City, which give very much disturbance to Trade.

*Genoua*, Nov. 1. The *Centurion*, *Nonsuch*, and other Ships which are impatiently expected from *Cadiz* do not yet appear. The Senate has not yet resolved what Answer to return to the Demand

of the Most Christian King concerning his Galley Wintering here. The Spanish Gallies under the Command of Duke *Doria* are at *Barcelona* in their return from *Cadiz*, and are expected here.

*Marseilles* Nov. 7. The *Greenwich* Frigate, with several Merchant Ships under her Convoy, bound for *Genoua*, *Legborne*, *Venice*, and other parts of *Italy*, arrived two or three days since at the Isles of *Eris*, where it's supposed they are still detained by contrary Winds. The *Turkey Merchant*, Captain *Twaites* Commander, from *London*, and a small Vessel of *Bristol*, who came with this Convoy, arrived here yesterday Morning. The 8 French Gallies, designed for *Genoua*, put to Sea yesterday, but were the same day forced back again by the ill Weather. Six Men of War and two Fire-Ships are fitting out at *Theodon*, who are to go for *Tripoli* to make a Peace with those Corsairs, or else to commit what Hostilities they can upon them.

*Prague*, Oct. 28. The Emperor has sent young Count *Lobcowits* to the Elector of *Bavaria*, to propose, as is said, a Marriage between him and the Arch-Duchess, of *Austria* the Emperors Daughter. There is still a discourse of the Emperors going to reside at *Ratisbonne*.

*Ratisbonne*, Nov. 2. From *Bavaria* we have advice that that Elector is going to reduce his Forces to 7000 Foot and 1000 Horse.

*Stralsfond*, Nov. 3. We have just now advice that 6 Suedes Men of War are come in with 6 oldiers to Garison the places that are to be restored to that Crown.

*Stralsfond*, Nov. 7. Yesterday Count *Coxingmark* landed with two thousand Suedes on the Isle of *Rugen*, of which our Governor sent immediately an Express to *Berlin*, to give the Elector an account, and to desire his orders concerning the delivering thsi place to his Excellency.

*Codenhagen*, Nov. 4. On Tuesday last *Landf. roon* was delivered up to Lieutenant General *Sperling*, who was commissioned by the King of *Sueden* to receive the same. The same day *Elfenburg* was likewise evacuated. The Sieur *Eusckovius* is come hither on the part of the King of *Sueden* to adjust matters concerning the releasement of the Swedish Prisoners that are here.

*Hamburg*, Nov. 10. The last night was finally concluded and signed at the House of the Sieur *Bidal*, the French Resident, the agreement between the King of *Denmark* and this City, by which the latter promises to pay His Majesty 220000 Crowns at 4 Terms, in Consideration whereof the Ships Ropt at *Gluckstadt* are to be immediately releas'd, and the Subjects and Inhabitants of this City to be undisturbed in their Trade and Commerce for the future. To morrow our Deputies go to wait upon the King at his Quarters at *Pinaenburg*, to confirm the said agreement, to thank him for it, and to assure him of the Respects of this City:

In a day or two the Danish Army will decamp, and the King return to *Copenhagen*.

*Hamburg, Nov. 11.* At length, God be thanked, matters are agreed between the King of *Denmark* and this City, which latter is to pay his Majesty 20000 Crowns, 10000 to the Queen, and 10000 to Prince *George*, the Kings *Lieut.* This Accord is called an *Interims Reces*, because it leaves both Parties in the same Rights they had before. The Danish Army decamps to-morrow or next day, and is to march to *Hensburg*, where will be held a general Rendezvous, and several Troops will be disbanded and the rest sent into Winter Quarters.

*Cologne, Nov. 10.* It appears every day more and more that the French Troops intend to Winter in these parts. They have now again commanded the Inhabitants to send Straw, Hay, Oats, and Wood to the several places where they quarter; and we are told that the several Garrisons they have at present in this Diocesis and the Country of *Fuliers* will be reinforced.

*Brussels, Nov. 10.* The Duke de *Villa Hermosa*, having settled in the several Provinces the matter of the Subsidies to be paid by them for the maintaining the Army it's thought necessary to keep constantly on foot for the defence of these Countries; the Officers have now received orders to raise the men, which they are allowed a certain time to do. The Commissioners which his Excellency is to send to *Courtray*, to meet there with those of the French King, for the adjusting the Limits, are not as yet parted from hence, though it was said their first meeting ought to have been on the 8th instant. The Letters we receive from the *Rhine* give us an account that the French, who are now in the Diocesis of *Cologne*, the Duchy of *Fuliers*, &c. intend to Winter there, and that they are making provisions accordingly. Last night arrived here an Express with News that the Baron of *Ingelheim* was chosen Archbishop and Elector of *Mentz*, who having formerly received some disobligation from the Imperialists, will it's imagined by some, incline to the French Interest. We are here with great impatience expecting to know who is to be our present Governors Successor, for the time of his Government is near expiring; The Duke of *Newburg* and the Prince of *Parma* are most spoken of, and most people are of opinion it will be the latter, who is assisted in his pretention by the Queen Mother.

*Amsterdam, Nov. 10.* Here is much discourse of what happened some days since in *Zealand*, where an eminent Merchant was, while he was at Church, robbed by his three Sons of money and other things to a great value which having done they fled; but the Magistrates having sent in pursuit of them, the Eldest, being first much wounded, was taken, and the other two escaped. Our Letters from *Hamburg* give an account that that City has finally accommodated matters with the King of *Denmark* they paying him 220000 Crowns at 4 payments: As for the Kings pretention of Homage, this agreement leaves him the same Right to it he had before, which if he please he may pursue before the Imperial Chamber of *Spire*.

*Lague, Nov. 10.* The French Ambassador has presented a Memorial to the States General in which he demands the release of a Ship taken by the *Zealanders* a little after the conclusion of the Peace. The States have resolved to gratifie his

Excellency therein, and have sent orders to the Admiralty of *Zealand* to that purpose. The Resident of the Dukes of *Lunesburg* has represented to the States, That his Masters, in case they should be attacked for their adhering so firmly to the City of *Hamburg*, in this conjuncture, expects the States will assist them, pursuant to the Treaty between them. The Elector of *Brandenburg* we hear carries all the Cannon and Ammunition out of the places he is to restore to the *Suedes*, and the French it seems intend to do the like at *Wejel* and other places in those parts. The Chapter of *Mentz* has chosen the Baron of *Ingelheim* to be their Archbishop, a person very much esteemed by all.

*Paris, Nov. 11.* From *Brest* we have an account of the loss of two great Men of War, one Squadron commanded by the Chevalier de *Esfourville*, who were coming home from *Lisbon*; There were on Board them above 50 Gentlemen of Quality, and above 800 Seamen, who were all drowned; a third was in great danger, having sprung a leak, but she got into Port. The 8th instant the Deputies of the City of *Strasbourg* took their leave of the King, who assured them that he had not any Design to attack their City, but wished them to agree amicably the matters between them and their Bishop. Our Letters from *Hamburg* say, That it was not doubted but an agreement would be made in few days between the King of *Denmark* and that City, and that the French Minister had assured the latter of the protection of the King his Master. The 26th the Queen of *Spain* arrived at *Bayonne*, and on the twentieth the King her Husband parted from *Madrid*, intending to advance, with his whole Household, as far as *Vitoria*, in *Biscay*, and from thence to come privately, attended only with 4 or 5 Grantees, to Iron on the Frontiers, to see his Queen there.

*Plimouth, Nov. 4.* Yesterday came into this Port the *Adventure* Frigate, bound for the *Streights*; and the *Narwich*, for the *Canaries*, with part of the Fleet of Merchant Ships under their respective Convoys, the rest remaining as yet behind, the Wind at N. W.

*Doncaster, Nov. 5.* On Monday their Royal Highnesses came from *Newark* to *Welbeck*, where they were very kindly and splendidly treated by the Duke of *Newcastle*. On the Borders of this County their Royal Highnesses were met by the High Sheriff, several Noblemen and Gentlemen of Quality, making a Body of above 200 Horse. This night their Royal Highnesses lodge at *Pemford*, and to-morrow hope to reach *Tork*.

*Whitehal, Nov. 7.* This afternoon *Thomas Curtis*, *Margaret Jenkins* and *Neville alias Paice*, were examined before his Majesty in Council, upon those parts of *Mr. Dangerfields Information*, wherein they are named; They acknowledged several Circumstantial matters, which strengthen his Evidence. Then *Mr. Dangerfield* declaring he had no farther Information to give against any Person, and praying he might have the liberty of the Prison, his Majesty was pleased to Order *Capt. Richardson* to allow it him.

His Majesty has been graciously pleased to grant His Pardon to *Mr. Serejant a Secular Priest*, who by his Majesties Command came lately over from *Holland*.

*Whitehal, Nov. 9.* His Majesty has likewise been pleased to grant *Mr. Dangerfield* his Pardon.
