Naples, Nov. 7.

Our Viceroy, the Marquis de los Velez, is continu'd in this Government for three years longer, and has thereupon been complimented by all the persons of Quality here. The City of Messina begins to flourish again, a great many Strangers of divers Trades, being come thither, and supplying the rooms of the Messineses, who have, some voluntarily, and some by constraint, left that City.

Genova, Nov. 11. This Senate has sent to the Duke of Turfs, to acquaint him, that several French Gallies are to winter here, and to desire his Squadron will not come hither, to avoid all dispute between them and the French, concerning Salutes.

Legora, Nov. 13. We have an account of an odd accident lately happened to a Privatier of 30 Guns, and 200 men, commanded by Captain *Criquelier* of Savoy; which was thus; A quarrel happening between the Captain and the Gunner of the vessel, and the former giving the other a box on the ear, he resolv'd to be revenged, and by means of a Train of Powder, and a piece of Match conveniently placed, to blow up the Ship, which he did accordingly, the Captain, Ship, and all his men being blown up; but the Author of this wickedness took care to escape himself.

Venice, Nov. 17. The Senate has ordered the Prayers of 48 hours, to be made in the great Church of *St. Mark*, to implore the Divine Goodness to divert the Plague, which has already infected the frontiers of *Italy*; and in the mean time, no person is permitted to come hither, without a Letter of Health.

Prague, Nov. 18. The Count of *Starenberg* is made Governor of *Philipsburg*. We have no further account than what we gave you in our last from *Munick*. The Plague continues very violent at *Vienna*, and in *Hungary*. At *Newstadt* there are very few Inhabitants left.

Hamburgh, Nov. 28. This City has made its first payment of 70000 Crowns to the King of *Denmark*. The Commissioners of *Sweden*, and the Princes of *Lunenburg* have had several meetings, and its said, things are in a fair way of being adjusted between them, and consequently, that *Bremen* will be suddenly restored to the Swedes. The Elector of *Brandenburg* goes on with his disbanding of his Troops, some Regiments of his Electoral Highness, are come into the Territories of the Duke of *Mecklenburg*, and have taken Quarters there. This day the Duke and Duchess of *Holstein*, who have had their Residence here for some years, parted hence to *Rhinebeck*, but whether they will continue there, or return hither is not known.

The Town of *Stralsend* is in much perplexity, Count *Coningsmark* having taken away their privileges, and caused several of their Magistrates to be Arrested, and the Deputies they sent to the King of *Sweden*, not having been admitted into his presence.

Strasburg, Nov. 22. It was said some time since, that there was great likelihood of accommodating matters between the most Christian King and the Duke of *Lorraine*, and that the latter would be speedily restored to his Countreys, but at present there is nothing spoken of it, and those that pretend to know best, tell us, that the Duke of *Lorraine* remains fixed in this resolution; never to return to his Countreys, unless it may be upon such conditions, as become a Sovereign Prince. It is the news of these parts, that the French King will be at *Metz* or *Nancy* before *Christmas*, though others think it is only the Dauphin that comes thither to meet his Bride the Princess of *Bavaria*; for it is certainly said, that that marriage is so far agreed, as to want only the approbation of the most Christian King, which some would doubt of, because the Elector of *Bavaria* has not embrac'd the Proposals made to him of a Marriage between him and *Madamoiselle de Valois*, the Duke of *Orleans* Daughter.

Cologne, Nov. 28. Prince *William* of *Furtemberg* remains still here, expecting the return of an Express which he sent, with Letters to the French Court. Three days since the Chapter of this Diocess being Assembled, he assured them, that the French would in 15 days, or three weeks at farthest, quit this Archbishoprick. But that they meant to keep *Wesel*, *Lingen*, and *Dueren*, till such time as they are satisfied for the arrears of Contributions due to them.

Our Letters from *Bavaria* give an account, that the Marriage between the Dauphin and that Princess, was as good as concluded.

Liege, Nov. 28. The French are now in good earnest going to quit these parts; the French Resident has taken his leave of our Magistrates, and assured them, that *Vifet*, *Verviers*, and *Huy* will be very suddenly evacuated; but as for *Dinant*, the French seem resolv'd not to quit it, till the Spaniards deliver them *Charlemont*, as was agreed by the Peace.

Brussels, Dec. 5. The Commissioners appointed by his Excellency, are now at *Courtray*, and have had several Conferences with those of *France*, for the adjusting the limits, in which they have not as yet been able to come to any agreement. Our Letters from *Liege* give us an account, that the French are leaving that Countrey, as likewise *Fuliers* and *Gologns*. On Sunday arrived our Spanish Letters, which informed us that our King had consummated his Majesty at *Burgos* and that that Majesty were expected the 10 instant at *Madrid*, where
