Moscow, Dec 13.

THE Turkish Envoy has had several conferences with some persons appointed by the Czar, on the Frontiers, where he is obliged to make a Quarantine. And we are told, That, amongst other things, he demands that the Czar should yeild all he is now possessed of in the *Ukrain* to the Grand Signior; but this is lookt upon as a very extravagant Proposal, and the Czar has resolv'd to send Ambassadors to *Poland*, to make a League Offensive and Defensive with that Crown.

Rome, Jan. 13. The Ambassador of *Malta* has acquainted the Pope, That the Grand Master had resolv'd to send 500 men to the Assistance of the King of *Poland*, and to maintain them there. And we are told that the Pope has sent Orders to his Nuncio in *Poland* to declare to that King, That he will pay him 500000 Florins upon the day he enters into War against the Turks, and that during it, the Tenths raised upon the Clergy of *Italy*, as well Regular as Secular, shall be applied to that service.

Marfeilles, Jan. 16. At *Thoulon* 15 Men of War are sitting out with all Diligence; some say that they are design'd against the *Tripolins*, others, that they are to Transport the Duke of *Savoy* to *Portugal*.

Prague, Jan. 16. From *Poland* our Letters assure us, That that Crown is going to enter into a War against the Turks, and that in order thereunto a great Council of War and a general Dyet are appointed to meet this month at *Warsaw*; there has been a discourse here at Court, that the Emperor had resolv'd to joyn with the *Poles* in the War, and that he had sent instructions to his Minister at that Court to make an Overture of a Defensive and Offensive League, but this is a Piece of News that people cannot easily give credit to, at a time when it is known the proceedings of the French do give this Court great disturbance; for we are not only informed of the Levies and other Preparations they are making, but what more neerly concerns this Court, of the endeavours they are using in order to the making the Dauphin King of the *Romans*. We are told that the Emperor has given out Commissions for the raising three new Regiments of Foot.

Hamburg, Jan. 26. The Dutch Minister at the Elector of *Brandenburg's* Court has laboured very earnestly to compose the matter in difference between his Electoral Highness and the Duke of *Zell*, but hitherto his endeavours have wanted the suc-

cess that is to be wished they might have; and the Elector on one side not only continues his Troop^s in the Country of *Mecklenburg*, which is the cause of their difference, but has sent more thither; and on the other side the Duke of *Zell*, as Director of the lower *Saxony*, has caused several Regiments to march under the Command of Monsieur *Chauvort*; to remove them, though after all it's hoped things will not come to extremity between them. From *Copenhagen* they write, That the French Ambassador there is endeavouring to joyn the two Northern Crowns in a close League together, and when he has succeeded therein, it's believed *France* will likewise desire to become a Party in it. The King of *Sueden* was gone for *Stockholm*, but not to make any stay there, but to return to *Schonen*; to consummate his Marriage at *Helmsstadt* or some other place in those parts.

Brussels, Jan. 30. Several Expresses have, within this week, passed to and from *Cologne*, which we told you in our last his Excellency had sent the Count d' *Archiato*, to Treat with that Elector about his quitting *Dinant*, in lieu of which a Sum of Money and some other place, it's said is offered him, though it's feared he will be prevailed upon by the French not to accept thereof, of which we may in few days be able to give you a farther account. The News from *Holland* of the States having rejected the Alliance propos'd by the French Ambassador is very acceptable to this Court, and we are told that his Excellency has written to the States General to acquaint thm with the perplexity he is in concerning *Charlemont*, which the French positively demand by a day, and which he cannot deliver to them without particular Orders from *Spain*. We have Letters of a very fresh Date from *Cadiz*, which say, That according to the last account they had there from *Tangier*, that place was in a very good Condition, and that they had not heard of the Moors so as to give them any disturbance since the time they retir'd in *November*.

Amsterdam, Feb. 2. We are now expecting in a short time to hear that the Dutchies of *Bremen* and *Ferden* are restored to the Suedes, the Duke of *Zell* having already received part of the Moneys that are to be paid to him in consideration of the said Restitution. Considerable supplies will be sent to *Surinam*, which may put that Colony into a condition of Defence against the *Indians*, who have of late made great Havock in some, and quite destroyed other Plantations.

Hague, Feb. 2. At the reassembling of the States of *Holland*, which will be on the 6 Instant, the principal matter before them will be the Regulating

in the Forces that are to be kept on foot this present year, which there was once an intention of reducing to a smaller number, than that contained in the State of the War for the Year past, but as things now stand, it is probable the States will think fit rather to increase than lessen it. The States General have written to their Ambassadors in France, directing them to use the same Endeavors for the obtaining a longer term, than that now set by the French, for the delivery of *Charlemon*, in case the Elector of Cologne cannot be prevailed with to part with *Dinant*.

Durham, Jan. 20. At the Sessions held here for this County, *Franc Balfre* Esq; one of his Majesties Justices of the Peace, gave the charge, and among other things to the notice of the tumultuous and Sedition Petitions mentioned in his Majesties late Proclamation. Whereupon the Grand Jury withdrew, and made a Scrutiny among themselves whether any of them had Subscribed or were privy to the Subscription of such Petitions, and finding no such person among them, They resolved in case they met with any Petition or Subscription of that nature, to present the Promoters thereof, as Stirrers up of Sedition.

Plimouth, Jan. 27. Yesterday arrived here the *Good Inten* of this place from *Danzicke*, bound for the *Canaries*. The *Kings Fisher*, is still here in Port, expecting the *Woolwich*, and the Merchants-ships under her Convoy, which have been long detained by the contrary winds at *Spithead*.

Bristol, Jan. 30. This Afternoon we were somewhat alarmed here by a number of young Fellows, (most of them Carpenters) being about 50 or 60, who marched together in a tumultuous manner through some of our principal Streets, one of them bearing on his shoulder a great wooden Ax, painted red, with a Lyon carved thereon (its backward part being towards the Axes Edge) and another sounding a Trumpet before them, and drawing a multitude after them, to the great Terror of all His Majesties Loyal Subjects here, it happening in this juncture when the City is very full of Strangers by reason of our Fair, and that which encreased our fear was that these fellows were all frequenters of Conventicles, and disaffected to the Government. But one Mr. Cox an Ensign in the Militia, interrupted their proceedings, and with what help he could get, secured the bearer of the Ax, the Trumpeter, and some others of them, and brought them before Mr. Mayor and Sir Jo. Knight, who committed them to Prison for a Riot.

This day Mr. Row and Mr. Diley, who were accused of having spoken dangerous and seditious words against the King and His Government, were sent up to London in Custody, by Vertue of a Warrant from the Council Board.

Deal, Jan. 30. There is now a Fleet of about 60 Sail of Merchant-ships in the Downs, bound for the East and West Indies, the Streights &c.

Whitehall, Jan. 28. His Majesty has been pleased to Direct the publishing His Proclamation, For Prizing of Wines.

Whitehall, Jan. 31. This Evening the Lord Russell, the Lord Cavendish, Sir Henry Capell, and Mr. Powell, Prayed His Majesty to give them leave to withdraw from the Council Board, to which His Majesty was pleased to answer; With all His Heart.

These are to give notice that the Wine Licence Office is removed from of Salisbury Street into Great Essex Street near the Temple, London, where all persons concerned are forthwith to pay their Arrears of Rent and to Renew their Licences that are expired.
