

were returning that way to assist the Elector of Cologne in the recovery of *Hasselt* and *Masseyck*,

Hague, April 5. The States have written every pressing Terms to the Provinces of *Guelderland*, *Zea'land*, *Overyssel*, and *Groningen*, to persuade them to pay their Quota's of the Arrears of Subsidies remaining due to the Elector of *Brandenburg*, which amount to above 200000 Gilders. The States of *Holland* are now endeavouring to settle a Fond for the Building the 36 Men of War; and it is thought they will do it at last by raising a 400 or 500th penny. The Elector of *Cologne* has, by his Minister here, taken notice of a report spread abroad concerning his Highness soliciting the Bishop of *Munster* to assist him with his Troops, in order to his recovering the Towns of *Masseyck* and *Hasselt* (in which this State keeps Garisons) which he says is wholly false, but at the same time declares that the States must not be surprized if he should make use of Foreign Troops to repossess himself of those places which they detain from him. On Wednesday last the Lord *Bodmyn* parted from hence on his journey for *Denmark*; and yesterday arrived here Sir *Gabriel Sylvius*, the King of *England's* Envoy Extraordinary to the Princes of *Lunenburg*. The Princess of *Orange* is, God be thanked, much better.

Paris, April 3. Though the general discourse is, That the King's designs, this Summer, are towards *Italy*, yet we cannot write any thing of them with certainty, and must leave it to time to inform us what they are, farther then what concerns *Casal*, which the Duke of *Mantona* has sold to our King, and we are told that that Prince justifies his doing it by saying, That he has or will sell the rest of his Territories to the Venetians, but this we tell you as a Report which we cannot answer for the truth of. There are those at the same time which think that the City of *Strasbourg* is not out of Danger, at least for so much as may arise from the difference between them and their Bishop about certain Lands and Rights which the latter pretends to belong to him by vertue of the Treaty of *Munster*, confirmed by that lately concluded at *Nimeguen*, and wherein it's not to be doubted but he will have the protection of this Crown, and indeed when the Deputies of that City were here, though they were very civilly received by the Ministers here, yet they were informed of the Kings resolution to support their Bishop in his just pretensions. From *Flanders* we hear that the Spaniards complain extremely of the encroachments of this Crown, and say that the Peace is not well observed on our part, or at least that several new pretensions are set up not Warranted by the Peace, but we think we have Right in what we do. We are assured that the King has sent Orders to the Governor of *Dinant* to quit that place, and to give notice thereof to the Bishop and States of *Liege*.

Falmonth, March 25. The 22 instant came in here the *Kope* of *Yarmouth*, from *Crossick*, and the *Gabriel* of the same place from *Galiccia*. Three or four small Vessels arrived the same day from *Ireland*, and as many from *Wales*; these heard not of any Tutks Men of War in their several Voyages. The 24th put in here the *Thomas* of *Yarmouth*, bound for *Rotterdam* from *Bordeaux*, from whence

she came in company of 40 or 50 Sail, whom she left the 23 plying to the Windward, the Wind at East.

Plimouth, March 26. The 24th instant arrived here the *Leopard*, commanded by Sir *John Berry*, and the *Forefight*, by Captain *Killigrew*, with the Merchant Ships under their Convoys bound for the *Streights*, and this Morning they failed again to pursue their Voyage. This day came in here the *Dartmouth* and the *Norwich* Frigats, bound to the Westward to Cruise.

Portsmouth, March 28. The 24th the *Norwich* and *Dartmouth* failed from *St. Hellens* to the Westward. The *Rhænix*, who was to have been of their Company, is ordered for *Bilboa*.

Whitehall, March 31. This day their Majesties and his Royal Highness returned hither from *Newmarket*. And in the afternoon the Lord Mayor, Aldermen, and Sheriffs of *London* were to pay their duty to His Majesty.
