MEMORANDUM.

The undermentioned Officers are superseded.
Lieutenant John Maclean, of the 20th Foot.
Lieutenant Alexander Plunket, of the 88th Foot, having never joined since his Appointment.
Ensign William Steele, of the Scotch Brigade.

Downing-Street, November 20, 1798.

A Decree having been published by the French Directory, declaring, that all Persons Natives of, or originally belonging to Neutral Countries, or Countries in Alliance with France, who may form a Part of the Crews of any of the King's Ships of War, or any other British Vessels, shall be considered and treated as Pirates; His Majesty has directed it to be signified to the Commissary for the French Prisoners in Great Britain, that if this Decree shall, in any Instance, be carried into Effect against any such Persons taken in any Vessels the Property of His Majesty, or of His Majesty's Subjects, and navigated under the British Flag, it is His Majesty's Determination to exercise the most rigorous Retaliation against the Subjects of the French Republic, whom the Chance of War has now placed, or may hereafter place, at the King's Disposal.

NOTICE to MARINERS.

Copenhagen, August 30, 1798.

IN order to render those Mariners who frequent the Port of Bergen more confident of their Situation when on that Coast, particularly when sailing to and from the said Port by Skuddenees, a new Lantern-Light has been erected on the Point of that Naze, which will begin to burn on the 1st of January, 1799, and continue on the same Regulations as the Rest of the Lights, viz. during the Summer, from Easter till Michaelmas, when it will be lit One Hour after the Setting of the Sun; and during the Winter, from Michaelmas till Easter, it then being lit Half an Hour after the Setting of the Sun, and continuing to burn till Day-light. It is further made known, that this Lantern will be hoisted on a Mast or Pole, close to which a Shied is built and painted White; therefore the same must be seen very plainly in those Directions in which it presents itself to View. The Lantern will be about Three Hundred Feet above the Surface of the Water. It is already known that there has long been a Coal-Light on the Isles of Hvidding, and a Lantern-Light close to Hoyvarden, the latter serving when one has entered Carmsound, to assist in choosing a good Berth to anchor in. Whenever one may wish to bear away for the Bay and enter Carmsound, one ought, with due Attention, be able to distinguish the Light of Skuddenees and Hvidding Isles. This last, which is suspended between Two Poles, gives a Blaze-Light, but that on the Skuddenees, as has been observed, is a Lantern, and gives a clear and steady Light; and besides, this Light cannot be seen when one comes from the Westward, unless one is so much to the Southward
