*Turin, April 27.*

**T**HE Duke of *Savoy*, who is now entred into his Majority, Signed this day an Instrument by which he confirms the present Council of State, and prays the Dutches his Mother to continue in the Direction of the Government, and to that purpose gives her the same Power she had before. There are those that still speak somewhat doubtfully of the Marriage intended between our Duke and the Infanta of *Portugal*, and think difficulties may yet arise that may hinder the execution of the Treaty that has been made concerning it.

*Prague, May 14.* The Emperor has not yet begun his Journey for *Pardubitz*, as was intended, several Important Affairs requiring his presence here for some time longer. The Papers of Count *Serini* have been examined, and he is removed to the Castle of *Borzeltis*; and the Count of *Hoffkirken* has been likewise secured by the Emperors Order. The Count de *Zinzendorf*, who had the direction of the Emperors Revenues, and of whose disgrace we have already told you, was Examined on Tuesday last by Commissioners appointed for that purpose, and it's said he will be brought to a Trial; but in the mean time things are kept very secret. We have Letters from *Constantinople* which say, That Monsieur de *Guilleragues*, the French Ambassador there, having at his Audience of the Grand-Vizier, taken exception at his not being permitted to sit where he pretended he ought to do, the Turks were so much offended, that they very rudely thrust him out of the Room, and as it's said, not without some blows.

*Copenhagen, May 7.* The Contract of Marriage between the King of *Sweden* and the Princess *Ulrique Eleanor* of *Denmark* is Signed, and till the parts from hence she will be every day entertained with new Divertisements, as was the 24th Instant with a running at the Ring, which was performed by 24 Knights, (each bearing the name of some Heroe) divided into two Squadrons. The first the King commanded, and the other, Prince *George* his Brother. There were appointed seven Judges of the Field, who were Count *Allefeldt* the Great Chancellor, the Sieur *Bielke* Great Admiral, the Sieur *Corwitz* Great Marschal, Count *Anthony* of *Oldenburg*, the Sieur *Wintwick* Under-Chancellor, the Baron *Jens Jewel* President of the Colledge of Commerce, and the Baron *Niels Fuel* Admiral General, all Knights of the Order of the Elephant, and of the Kings Council. About Noon the two Squadrons entred the Place (Captain *Braun* being appointed to carry the Orders, by the name of *Mercury*.) At the head of the Kings marched twelve Gentlemen, commanded by the Sieur *Lindenau*, followed by 24 led Horses, 12 Pages, and two Colonels, who went immediately before the King, whose Plume of Feathers and Ribbons were incar-

nat and white, as were those of all the Knights of his Squadron. Next came Prince *George* likewise preceded by 12 Gentlemen, his led Horses and Pages, and followed by his 11 Knights, whose Colours were green and white. There were four Prizes, of which the King gained the first, Count *Guldenlieu*, Viceroy of *Norway* the second and the fourth, and the Baron of *Winterfeldt* the third. At night the Court was entertained with very fine Fireworks.

*Strasburg, May 20.* The French Troops that are to compe the two flying Armies, the one in *Alsace*, commanded by Monsieur *Monclar*, and the other on the *Saar*, by Monsieur de *Bissy*, are now drawing together. Monsieur de *Monclar* will in a day or two take his Journey to *Weissenburg* and *Landau*, near which latter place he has caused a Camp to be Marked out, and in the meantime he has command'd the Country people not to stir from their houses, assuring them that he will observe so strict a Discipline in the March of his Troops, as that they shall not receive any disturbance. There are advices from several parts which tell us that the French have a design upon this City, and that we ought therefore to be upon our Guard, and which whether there be any ground for or not it's hoped our Magistrates will make the good use thereof which the present posture of Affairs requires.

*Francfort, May 21.* Our Magistrates have now forbid the French Officers to raise any more men within their Jurisdictions, which most people are of opinion they ought to have done sooner they having raised a great many men in these parts during all the last Winter. The Apprehensions of the designs of *France* increase every day, and we are particularly in some pain for *Strasburg*, which it's generally believed the French have an eye upon: The Letters from thence say that the French Army would begin to March in few days, under the command of Lieutenant General *Monclar*.

*Cologne, May 24.* The Duke and Dutches of *Fuliers* continue at *Aix-la Chapelle*, from whence they will, some time the next week, return to *Duse'dorp*. We are now expecting to hear when his Highness will enter upon the Government of the Spanish *Netherlands*, which we were some time since told his Highness had accepted of, though at the same time it was said some of his Counsellors advised him against it. The Deputies of the Circle of *Westphalia* are still here, about regulating the Mint, which has been long endeavouring, but hitherto without any great Success. For the rest, the Proceedings of the French in *Flanders* as well as in *Germany* is the main subject of peoples thoughts as well as discourses, and different Remarques are made upon them.

*Lamburg, May 24.* From *Zell* we have an account that Sir *Gabriel Silvius*, Envoy Extraordinary from the King of *England* to the Dukes of *Lunenburg*,

was arrived there. Our Letters from *Denmark* say that the King of *Sweden* met his Queen the 15th Instant at a place called *Schorstorf*, where he consummated his Marriage, and the next day their Majesties went thence to *Helmsstadt*. It is expected that *Wisnar* will now in few days be delivered up to the *Swedes*. From *Warsaw* they write, That an Officer had been beheaded there for raising men for the Service of the *Hungarian* Rebels.

*Amsterdam*, May 28. The States of *Holland*, before their last recess, resolved to send a Deputation to this City, to dispose them to agree with the other Towns concerning the raising the Monies which has taken up so much of their time; but they deferred putting it in execution till their remeeting this day, when if they come not to a resolution in this matter, the said Deputation will be made. The Heer *Van Hemskirke*, Ambassador from this State to the King of *Spain*, begun his Journey this day, as the Heer *Zitters*, who goes with the same Character for *England*, will do about the beginning of the next week. The Spanish Envoy at the *Hague* has given in to the States General a very sharp Memorial concerning the French proceedings in *Flanders*, which we are told the French Ambassador is much nettled at, and is going to Answer by a Memorial he intends likewise to present to the States. It was reported that the Elector of *Trier* had written to the French King, to acquaint him that he did submit the matters in difference between them to his Majesties Determination; But our Letters from that Electors Court assure us of the contrary. So soon as the States of *Holland* are separated, the Prince and Princes of *Orange* intend to make a turn to *Breda*.

*Hague*, May 28. The Spanish Envoy who presented the last week a very long Memorial to the States General, concerning the proceedings of the French in *Flanders*, is it's said preparing another upon the same subject; and at the same time we are told the French Ambassador will not remain idle, but that he will Answer those Memorials by others as sharp, which will appear in few days. From *Germany* they write of nothing but the new pretensions of the French in the Palatinate and elsewhere, and of their seizing upon those places which they pretend to be dependencies of their Conquests. Those Letters add, That the Bishop of *Witsburg* had been summoned to quit the Title of Duke of *Franconia*, which the French King lays belongs only to himself; which being lookt upon as a thing of great consequence, the Germans are no less concerned at it than the Spaniards are to have their Kings Title of Duke of *Burgundy* disputed. The Heer *Zitters*, who goes Ambassador for *England*, will certainly part hence some time the next week. The States of *Holland* having been separated since last Friday, they are to meet again to morrow, when it's hoped they will agree upon the method of raising the Moneys they have been so long debating about. The Prince of *Orange* went last Saturday for *Gelderland* to Hunt, and is expected back this Evening.

*Paris*, May 24. Orders are given for the preparing all things for the Kings Progress, which he begins the next Month.

*Lime*, May 17. Yesterday came in here a small Vessel from *Guernsey*: The Master tells us, before he came away, the Lord *Hatton*, Governor of that Island, arrived there.

*Portsmouth*, May 20. On Tuesday the *Guernsey* Frigate, Captain *Cannon* Commander, came to an Anchor at *Spithead*, being bound to the Westward, to Cruise.

*Plimouth*, May 18. This afternoon arrived here from *Portsmouth* the *Pearle* Frigate, Captain *Williams* Commander, who to morrow will Sail again with the *Phoenix* to Cruise in the *Soundings*.

*Westminster*, May 21. This day the Lord Viscount *Stafford*, one of the Lords, Prisoners in the *Tower*, was by *Habeas Corpus* brought to the Kings-Bench-Bar, and desired he might be Bailed in regard he had been long a Prisoner; but the Court told him they could not Bail him, and remanded him to Prison.

*Philip le Mar* and *Frances Loveland*, his Mother, were brought to their Trials upon an Indictment for conspiring against the Duke of *Buckingham*, to charge him with *Sodomy* &c. and were found Guilty.

*Westminster*, May 22. This day Sir *Henry Fitzburrn*, Mr. *Roper*, and Mr. *Coryl*, Prisoners in the *Tower* were brought to the Kings-Bench Bar upon their Writs of *Habeas Corpus*; and there being but a single Testimony against them, they were Bailed.

*William Gaven* and *John O-Cullen* were tryed as Romish Priests: the first was acquitted, the other being an Irish man, (who as he was going for *Ireland* by Sea, was put ashore by stress of Weather, and there Apprehended) The Jury brought in a special Verdict, and it is left to the Law to determine whether he be within the Statute.
