Francfort, June 12.

• Here being great ground to believe, that the French have a defign upon Philipsburg, the Garrison there, is reinforced to 3000 Men, and befides, the Regiment of Souches, which confilts of 2500 Men, and is now quartered at Offenburg, has Orders to march thither, upon the first intimation they have from the Governor of Philipsburg to that purpole. At the lame time, care is taking to fill up the Magazines, with Ammunition, Provisions, Sc. The French have again Summoned the Calle of Falkenburg, and have once more tryed, how far either Threats or Promiles will prevail with the Commander; but he continues firm in his Duty to his Prince, the Elector Palatine, fo that it's now expected, the French will make use of their Arms to compell him; the Elector is preparing for it, and has fent to all the Princes his Neighbors, to demand Affiftance; of this City, his Electoral Highne's has defired 200 Men, but our Magistrates have exreuled it, being unwilling to give the Crown of France any occasion of offence.

Strasburg, fun<sup>3</sup> 14. The Bifhop of Strasburg, and Prince William of Furflemburg are expected in these parts, and the Caftle of Muzich near Molfbeim, is preparing for them; The intention of their coming hither, is to get Prince William chefen Dean of our Cathedral, which Place is void by the death of Count Manderfcheir; the French Troops continue to murch to the Campat Landaw, where there is at prefent a confiderable Army.

Cologne, June 18. It is now difcourfed again, that there will be a meeting of the Emperor, and the Electors at Ratisbonne, or fome other convenient place, to take fuch Refolutions, as may be proper in the prefent exigency of Affairs. We are told that a Manifello is published, by which the Bishop of Strasburg afferts his Pretensions upon that City, which is the more taken notice of at this time, for that the French are drawing together so confiderable an Army in Alface, and that it's believed, the Bishop is fure of the affiliance of that Crown, to make good his Pretensions. The Elector of Meniz having had his Refidence for fome time at Erfort, is removed from thenee to Meniz, because the Plague is broke out there. The French Troops on the Saar, will be in a Body on the 24th Instant, under the Command of the Marquis de Souffers.

Command of the Marquis de Soufflers. Bruges, June 21. The News we have of a Defenfive Allyance being concluded between England and Spain, occasions a great deal of Joy in these parts, and has railed peoples Spirits from the dejection the apt chen fions of the Defigns of the French, put them into. The laft night arrived our Spanish Ordinary, by which we have Letters from Tangier of the 22 past, giving an Account, That there was a Truce concluded between the Town and the Moors for Four months; That by the Articl s it was flipulated, that Pole Fort, and Normoods Redoubt should be quitted, but that the other Three Forts, Fountain, Cambridge, and Bridges should remain as they were; That within three days the Alcayde should demolish his Batteries and Lines, withdraw his Cannon, and retire with his Army; and that during the Truce, the Town should have liberty to Graze their Cattel in the adjacent Fields." Paria, June 26. The differences at prefent depending between this Court and that of Rome, concerning the Regalities, which the former pretends to, are the main fubject of peoples difcourfe, becaufe of the Confequences they mult have, if both fides continue in the Sentiments they feem now to have in this matter, and we are told, that a Courier who was coming from Rome, has been lately flopt at Lyons, and not permitted to continue his journey, thereby to deprive us of the knowledge of what he brought.
