*Copy of a Letter from Captain Sir Home Popham, to Sir Evan Nepean, Bart. dated at Calcutta, the 18th of November 1801.*

SIR,

I HAVE much Pleasure in transmitting you a Copy of Captain Collier's Letter of the 10th September, for the Information of my Lords Commissioners of the Admiralty, giving a very detailed Account of his sinking the French National Ship La Fleche of Twenty-two Guns, and One Hundred and Seventy Men.

The Result of Captain Collier's unremitting Perseverance under every trying Circumstance, and his determined Conduct in warping the Victor into Mahé Harbour, is likely to be of very material Service to the Commerce of India, as La Fleche was unquestionably intended to cruise in the Bay of Bengal.

I have the Honor to be, &c. &c. &c.  
HOME POPHAM.

*His Majesty's Sloop Victor, Mahé Roads, September 19, 1801.*

SIR,  
THE State of the Crew of His Majesty's Sloop under my Command, after leaving the Red Sea, induced me to put into the Island Diego Garcia; after procuring a large Supply of Turtle and good Water, I left that Harbour on the 27th of August, and proceeded on the Execution of the particular Service pointed out in your Orders of the 22d July; and on the 2d Instant, in Sight of these Islands, His Majesty's Sloop fell in with a French National Corvette, and after a few ineffectual Manœuvres on her Part, from the superior sailing of the Victor, when going large, I had the Pleasure of bringing her to a close Action at Three Quarters past Five P. M.; the disguised State of the Victor did not long deceive the Enemy, the Second Broadside proved sufficient, the Corvette hauling her Wind and endeavouring to escape, which, in about Twenty Minutes, I was sorry to observe, by having almost solely directed her Fire at our Masts and Sails she had a fair Prospect of effecting, for, on her tacking under our Lee, I endeavoured to wear, with the Hope of boarding on her Bow, when I had the Mortification to find both Lower and Topfai

Braces shot away on the Starboard Side, as well as Preventer ones and Bow Lines, and before others could be rove the Corvette was Half a Mile to Windward; Night fast approaching added to the Chagrin I felt on observing the Corvette sail better than the Victor on a Wind; the Chace continued all Night, frequently within Gun-Shot, and at Sunset the following Day, from the Wind having favoured the Enemy, she was Four or Five Miles to Windward; in the Night of the 4th lost Sight of the Chace, when, probably by tacking, she escaped.

In this Affair I had one Man wounded with Two Musket Balls, and Mr. Middleton, Master's-Mate, slightly; the Damage sustained in the Hull trifling, the Foremast shot through, and I have to regret our Sails and Rigging much cut.

Judging from the Course the Corvette was steering, when first seen, she must be bound to these Islands, I pushed for them, and towards Sunset of the 5th, she was again seen running in for this Anchorage; I kept under easy Sail till dark, when the Victor was anchored; at Daylight I had the Satisfaction of seeing the Corvette moored with Springs in the Bafon or Inner Harbour with a Red Flag at the Fore (which, as I since learn, was in Defiance); being unacquainted with the Channel, and having no Pilot, Mr. Crawford, the Master, (though ill of a Fever,) and Mr. Middleton being Volunteers, were sent to sound, which Service they completely performed; nor did the latter Gentleman desist, till repeatedly fired at by a Boat from the Corvette.

The extreme Narrowness of the Channel, added to the Wind not being very favourable, compelled me to use Warps and the Stay-fails only, which exposed the Ship to a raking Fire for some Minutes, till, shoaling our Water, I was obliged to bring up. Having Two Springs on the Cable our Broadside was soon brought to bear; and at Three Quarters past Eleven A. M. a well directed Fire was opened, which was kept up incessantly from both Vessels till Twenty Minutes past Two, when I plainly perceived the Enemy was going down; in a few Minutes her Cable was cut, she cast round, and her Bow grounded on a Coral Reef.

Mr. M'Lean, the First Lieutenant, with a Party of Officers and Men, were sent to board: though scarce had they put off, ere we discovered the Enemy to be on Fire; Lieutenant Smith and other

Officers were then sent with proper Assistance, but just as they had succeeded in extinguishing the Fire she fell on her Larboard Bilge into deeper Water and sunk.

She proves to have been the French National Corvette La Fleche, mounting Twenty long French Eight-Pounders, answering to English Nines, with Two Stern Chasers, though it appears all her Guns were not mounted in the first Action; was larger than the Victor in Dimensions, perfectly New, a remarkable fast Sailer, and not Four Months from France, commanded by Captain Bonamy, Lieutenant de Vaisseau, with Four Lieutenants, and a Complement of One Hundred and Forty-five Men, some of whom had been left sick at Bourbon.

From a Number of dead and dying Men reported to be found on her Forecastle, as well as Two alongside, I am induced to believe the Carnage was great, though only Four are acknowledged by the French Captain.

She had Twenty Men to assist at her Guns, forming a Part of the Crew of the French Frigate La Chiffonne, captured here a few Days since by His Majesty's Ship La Sybille, Captain Adam.

The obstinate Defence made by La Fleche was on the Supposition of the Victor being a Privateer.

From the Length of Time elapsed ere this Business was brought to a close, I have felt it necessary to be thus particular in my Detail, and I trust for your Excuse should I dwell longer, as I feel I should do an Injustice to every Officer and Man on board, did I neglect paying a just Tribute to the cool and determined Bravery they evinced; even Men labouring under a lingering Fever (of which I had unfortunately Thirty) felt a proportionate Zeal.

I beg Leave to recommend to your Notice Lieutenant M'Lean, as well as solicit your Interest for the Confirmation of my Second, Mr. Smith, as also Mr. Hyde, Gunner, observing, that whenever Mr. Middleton or Mr. Graves, (both having passed for Lieutenants,) shall obtain the Rank, they will do equal Credit to your Patronage.

In this Action I most fortunately had not a Man either killed or wounded; our Hull, Rigging, and Boats have suffered much, besides having some Shot between Wind and Water.

I am, GEORGE R. COLLIER.

To the KING's Most Excellent Majesty.

WE, your Majesty's most dutiful and loyal Subjects, the Noblemen, Gentlemen, Clergy, Freeholders, and Inhabitants of the County of Rutland, beg Leave to approach the Throne to express to your Majesty with how much Satisfaction we have seen the Period arrive in which the paternal Care of your Majesty could safely be exercised in giving to your Subjects the Blessings of Peace.

That this favourable Result of your Majesty's wife and temperate Measures, under Circumstances of unexampled Difficulty and Danger, must, if possible, even encrease our Attachment to your Majesty's Person and Government, since we have hereby the strongest additional Proof of your Majesty's Solicitude to defend, and further to establish in your Dominions the Principles of our free and most happy Constitution.

That, under such Impressions, we have not failed in common with the Rest of your Majesty's Subjects, in making the Exertions, and bearing cheerfully the Burthens incidental to the severe Conflict in which we were involved; and we beg to assure your Majesty that our Zeal in the Support of your Majesty and the House of Brunswick is animated as much as our Confidence is gratified by the Conduct and present Termination of the War, in which, until now, we have been unavoidably engaged.

That we are persuaded that nothing will be wanting on the Part of your Majesty's Government to harmonize and consolidate the pacific Dispositions of Europe, and we therefore look forward to the future without Anxiety, trusting that the Nation will either enjoy permanent Tranquillity, or be called forth to renewed Hostilities, under all the

Advantages which an Union of Sentiment in a just Cause must necessarily produce.

#### NOTICE TO MARINERS.

Royal Council of Customs, and of the Indies, Copenhagen, June 3, 1802.

HIS Danish Majesty having ordered, for the Guidance of Persons navigating in the Baltic, that a Light-House should be erected upon the extreme Southern Point of Falster, called *Giedser-Odde*, and, after having previously consulted with M. Lowenörn, Adjutant-General of the Royal Marine and Chief of the Pilots, the Public is hereby made acquainted, That a Light-House has been constructed upon the said *Giedser-Odde*, at about One-eighth of a Mile from the most extreme Point of Land, and although the Light is entirely produced by a Coal Fire, yet Care has been taken to surround it with a Lanthorn or Glass Case according to the latest Invention, of Fourteen Feet Diameter, so that, be the Weather what it may, a constant Flame will arise therefrom, and the Light be augmented thereby, because all that Part of the Case which is towards the Land, and which cannot be seen at Sea, is lined with a Plating of polished Black Tin.

In order that the dangerous Flat called *Trindelen*, situated by the Compass at about Three Quarters of a Mile S. E. One Quarter S. without the *Giedser-Odde* may the more readily be observed by Navigators during the Day, a Pillar with a Barrel on the Top of it, painted black, has been erected on a rising Ground near the Sea, and which is placed, as with Regard to the *Trindelen*, in the same Point of View as the Light-House, which is painted White:—So that when under Sail, the Black Barrel is seen in the same Point of View as the White Light-House, (which may very easily be distinguished from the *Trindelen* in gloomy Weather, and even at a Distance of Half a Mile without that Flat, according to the greater or less Elevation of the Vessel at Sea,) she is in a right Line with the *Trindelen*. In such Case a Vessel must keep at the Distance of a Mile from the Coast in order to avoid the said Flat, it being impossible to take Soundings. When the Course is from West to East, and the Barrel is seen insulated and free on the Western Side of the Light-House the Vessel is quite clear of the Flat, and *vice versa*, when sailing from the East, and the Barrel is seen insulated and free on the Eastern Side of the Light-House.

As to Ships not being of great Burthen there is a Passage between the *Trindelen* and Shore; but this Passage must be extremely well known, or a Pilot should be taken, who will come out from *Giedser-Odde* upon Signal being made.

This Light-House will be opened on the 1st of August 1802, from which Day the Regulations contained in the Ordonance of the 21st March 1705, and in the Placard of the 1st February 1779, will be adopted; so that it will be kept burning in Summer, or from Easter Day to Michaelmas Day, from an Hour after Sunset to Sunrise; and in Winter, or from Michaelmas Day to Easter Day, from Half an Hour after Sunset to Sunrise.
