NOTICE TO MARINERS.

Royal Council of Customs, and of the Indies, Copenhagen, June 3, 1802.

HIS Danish Majesty having ordered, for the Guidance of Persons navigating in the Baltic, that a Light-House should be erected upon the extreme Southern Point of Falster, called *Giedser-Odde*, and, after having previously consulted with M. Lowenörn, Adjutant-General of the Royal Marine and Chief of the Pilots, the Public is hereby made acquainted, That a Light-House has been constructed upon the said *Giedser-Odde*, at about One-eighth of a Mile from the most extreme Point of Land, and although the Light is entirely produced by a Coal Fire, yet Care has been taken to surround it with a Lanthorn or Glass Case according to the latest Invention, of Fourteen Feet Diameter, so that, be the Weather what it may, a constant Flame will arise therefrom, and the Light be augmented thereby, because all that Part of the Case which is
