Madrid, Octob. 31. From Cadix of the 20th Instant we have an account, That the Moors before Tangier had raised three Batteries against the Town, two of two Guns each, and a third of one Gun, and that they were undermining Pale-Fort, which the English had rebuilt; That the 200 Spanish Horse were at Tariffa ready to Embark for Tangier;

and that Sir Palmes Fairborne had presented the Commander of those Troops with a rich Sword and Belt, and had sent 500 Pieces of Eight to be distributed among the Soldiers. From Malaga of the 22 th y tell us, That Sir John Berry in the Leopard, the Forefight, and four rich Merchant Ships, arrived there the 16th from Smirna; and that the Sunday before a French Vessel arrived there from without the Streights mouth, who reported, That passing on the 19th near Tangier, they heard very much shooting, which made them conclude that the English and the Moors were in action. From Alicant of the 14th they tell us, that Captain Story in the Antelope was arrived there with several ships under his Conyoy from Cadiz bound for Italy.

Lintz, Oct. 23. There are lately arrived Letters from the Emperors Resident at Constantinople which give an account, as we are informed, That the Grand Vizier had acquainted him that the Grand Signior was willing to renew the Peace between the two Empires for 12 years longer, but that the Grand Signior would reserve to himself a liberty to assist the Hungarian Malecontents, whenever he thought fit, which we may be confident the Emperor will accept of.

Elydelberg, Oct. 23. Several Complaints have been made to our Elector of the Proceedings of the French, viz. That on the 15th Instant several French Horsemen came to Kirchberg, and demanded to be received into the Town, and because they were not, for that they had no Letters of Health, committed several Insolencies in the Neighborhood. That the French have Summoned Spanheim, Naumburg, and Schwarzerden, to send Deputies to Metz to do Homage to the French King, on pretence that those places are Dependencies of the Country of Valdentz; That too of the French Kings Guards arrived some days since at Lauterbeck, having orders to Summon that place, Bingen, Frankenthal, Wormes and other places on this side the Rhine likewise to send Deputies to do Homage; That the Inhabitants of Hokenjulzen have been required to appear by some persons appointed on their behalf, on the 25th Instant, before the French Commissioners at Winweiler, in order, as is imagined to swear Fealty to the French King; That the Governor of Weissenburg has sent an Order of the Royal Chamber at Brisac, to the Electors Officers in the Baillage of Germersheim, by which they are required to do Homage as aforesaid in a Monthstime; That the Tenth of Wine in the said Baillage, belonging to his Electoral Highness, is Seized by the French, which they pretend they will only detain till the differences between their King and his Electoral Highness be adjusted, but we have reason to believe that so soon as the Wine is ready they will carry it away, as they have done in the Baillage of Landecker by order of the Governor of Weissenburg. And it is said that the French have Orders to take the Castle of Couzensberg, near Creutzenach, and if any resistance be made, to burn the Town.

**Cologne Nov. 3.** The present State of Affairs at *Liege* does somewhat perplex our Elector, who finds his Authority quite lost there; to recover it, he has thought it necessary to have recourse to the Assistance of the French King, who it is said has promised him 10000 Men, and that they are on their March from *Lorraine*, which may give a rise to new Troubles.

**Amsterdam Nov. 12.** The Crown of Spain continues very highly to resent the taking of the Ship in the Road of *Offend*, and to demand immediate restitution of it; and on the other hand the Elector of *Brandenburg* declares he is resolved to pursue the same method for the righting himself, unless speedy and effectual satisfaction be given him: However it is hoped that the endeavours that are using to compose this affair in an amicable manner will have the desired effect. Our Letters from *Germany* tell us, That the Palatinate continues to suffer extremely under the oppressions of the French Officers, The Prince of *Orange* is returned to the *Hague*.

**Hague Nov. 12.** The Heer *Van Hemsckerken*, our Ambassador at *Madrid*, in his last Letters to the States, acquainted them, That he had presented a Memorial (as the King of *England's* Minister at that Court had at the same time done) to offer the Mediation of this State for the composing the differences arising between His Majesty and the Elector of *Brandenburg*, but that at the parting of the Post he had not received an Answer to it, as we gave you an account in our last; since which, an Express is arrived from *Madrid*, who as we are informed, brings Advice, That the King of *Spain* had declared, That he could not accept of any mediation for the composing the matters in difference between him and the Elector of *Brandenburg*, till the Man of War taken by his Ships in the Road of *Offend* be first restored, and reparation made for the Affront: At the same time we hear that the Elector is so far from restoring the said Ship, that he is resolved, if speedy satisfaction be not given him by the Crown of *Spain*, concerning the Arrears of Subsidies, to go on to right himself, and that he has ordered eight Regiments to march to the County of *Cleves*, and was going to raise new Troops. It is likewise said that his Electoral Highness is much displeas'd with the Placet Published by the States General for the recalling their Subjects out of the Service of Foreign Princes, which he looks upon as chiefly meant against him. The Prince of *Orange* arrived here last night, and this morning was complimented by a Deputation from the States General and the States of this Province, and by all the Foreign Ministers.

**Brussels Nov. 8.** Wednesday last being his Catholic Majesty's Birth-day was observed with a great deal of Ceremony; There was a Play, and afterwards a Ball at Court, at which were all the Persons of quality in Town of both Sexes, who were entertained with a very noble Banquet. Yesterday the Sieur *Dijkvelt* parted from hence on his return to the *Hague*. From *Liege* they write that things are come to that height, that those people, not content to oppose the new imposition of the sixth penny within that City and its dependencies, had sent several Parties of Armed men to *Huy* and other places upon the *Meuse*, to Seize the Receivers of the said Duty, who having found there several Burgers of *Liege*, that had adhered to their Prince, and were therefore retired thither, they had brought them Prisoners to *Liege*, and were making their Procces,

as Traytors to their Country; That the Elector of *Cologne* on the other hand was putting himself into a posture to assert his Authority, and to that end had desired the Assistance of the French King, who we are told has ordered 10000 Men to march for a purpose. We have advice, That the Count de *Monte-roy* is declared Viceroy of *Naples*, and that at the same time his Brother the Marquis de *Liche* is recalled from his Embassy at *Rome*, and forbid to come to Court. There has happened an Earthquake in *Spain*, by which several places, and particularly *Malaga* has very much suffered.

**Paris Nov. 9.** The third Instant the Sieur *Heugh*, Ambassador Extraordinary from the King of *Denmark*, made his publick entry into this City, being accompanied by the Marschal de *Grassy*, and the Sieur du *Bonneil*, Introducer of Ambassadors; and the 6th he had Audience of the King, &c. at *Versailles*. The Chevalier de *Lery*, who had the Dispute with the two Portuguese Men of War of the Coast of that Kingdom, and obliged them to salute him, is arrived at *Thoulon*; We are expecting to see what the Issue of that matter will be, the French Envoye at *Lisbon*, as they write from thence, having promised the Prince Regent reparation by an exemplary Punishment upon the said Commander. The Dutchess Dowager of *Hanover* is returned hither from *Germany*.

**Plimouth Nov. 7.** Last night arrived here the *Dartmouth* Frigate, Captain *Aylmore* Commander, from Cruising, and this Evening Sailed again for *Portsmouth*.

**Portsmouth Nov. 4.** Yesterday morning arrived at *St. Helens* the *Constant Warwick*, Captain *Ashby* Commander, and in the evening came into the Harbour in order to be refitted.

**Deale Nov. 5.** There are now in the Downs above 200 Sail of Merchant Ships outward bound, expecting a fair Wind.

The Officers of the Receipt of His Majesties Exchequer have Money in Bank to pay to Number 186 Inclusive, of the Orders Registered on the Second Act for Disbanding the Army.
