Naples, Jan. 2.

THe Letters we received some days since from *Spain*, told us, that according to all appearance, our Viceroy the Marquis *de los Velez* will be continued in the Government of this Kingdom for three years longer. From *Rome* we have an Account, that the differences between that Court and *France* grew daily wider: that the Pope seemed resolved to remain firm on his side, and that the great expectation was of what the Cardinal *d'Estree* would be able to effect upon his arrival. Some Reports have been lately spread abroad, of preparations making by the Turks, in order to the having a great Fleet of Gallies at Sea the next Summer, and that its probable they may have an eye upon this Kingdom; but they find little credit here, after the many groundless Alarms we have had of this kind, though at the same time our Viceroy is not wanting in his care, to provide for the Safety and Defense of this Kingdom, and particularly of the Maritime Coasts, against all accidents that may happen.

Warsaw, January 10. This Place begins to be very full, the Senators and the Deputies, that are to compose the Dyet, arriving daily. The King is on his Journey, and will be the 13th instant at *Villa Nova*, a mile from hence, where he will continue a day or two. We have Letters from our Resident at *Constantinople*, which say, That the Grand Signior was gone to *Adrianople*, that he had sent Orders to his Troops to march towards the *Danube*; That it was reported, that the Grand Signior was resolved to Depose *Michael Abafii*, Prince of *Transylvania*, and to put Prince *Soloisy* into his place, who had been for several years at *Constantinople* soliciting the same; and who to obtain the Principality, had promised in case he was Established in it, to pay to the Grand Signior a yearly Tribute of Five hundred thousand Crowns, and to put one of the strongest places of *Transylvania* into the Grand Signior's hands, whereas the present Prince *Abafii* paid only a Tribute of 80000 Crowns.

Rome, Jan. 13. The 3th Instant dyed here the Cardinal *Vidoni*, Protector in the Affairs of *Poland*, in the 71 year of his age; by his death there are 24 Places void in the Colledge of Cardinals. We are expecting the Cardinal *d'Estree*, who comes its said, to adjust the differences between the Pope and the French King.

Venice, Jan. 15. The last week we received Letters from *Turkey* which told us, that notwithstanding the great preparations which are said to be making against Spring; the Grand Vizier did entertain thoughts of Peace, and that in order thereunto, private Negotiations were kept on foot by persons

sent for that purpose by the Czar of *Moscovy*, to *Constantinople*, but that hitherto they had not been able to agree concerning the terms of the said Peace, the Turks being very high in their Demands, and requiring no less than the Cession of the whole *Ukrain*, which the Czar of *Moscovy* cannot it seems as yet resolve to part with. We expect our next Letters from *Rome* will tell us of the arrival of the Cardinal *d'Estree*, who its believed is fully empowered by the French King, to compose the Matters in difference between that Crown and the Court of *Rome*, but whether he will find there a disposition to comply with those things which the King does probably insist upon, is much doubted.

Genova, Jan. 22. As yet no Ships appear, which is very much wondered at; but the contrary winds must be the cause thereof. The Letters we receive from *Cadix* say, that many dye of the Plague at *Port St. Maries*, and that several Families have thereupon left the Place, Matters as we are told, are adjusted on the Frontiers, in favour of the Subjects of this State. This afternoon came in here a Bark, who saw an *Algerine* about 20 miles to the Westward of this place.

Turin, Jan. 8. We have not as yet any account of the departure of the Marquis *de Dronero* from *Thouolon*, since he was put back by the ill weather. In the mean time many people will still speak doubtfully of our Dukes Marriage with the Infanta of *Portugal*, and perhaps they desire it may not take effect, because the Duke, according to the Articles of the Treaty of Marriage, is to leave his own Countreys, and to go and live in *Portugal*; but we shall be able to speak with more certainty of this Matter, after the arrival of the Marquis *de Dronero* at *Lubonne*, for whose Reception, Preparations as we hear are making, by order of the Prince Regent.

Florence, Jan. 19. The Cardinal *d'Estree* is expected here this Evening in his way to *Rome*. The Great Duke had caused an Apartment to be prepared for him in the Archbishops Palace, but he has excused it, intending to lodge in a Convent. We know not how long he will stay here, but we suppose he will hasten his Journey to *Rome*.

Limz, Jan. 19. Preparations are making for the Emperors journey to *Vienna*, which we are told he will begin in eight or ten days, though the weather is very cold. The Empress and her Court will remain here till the River be open, that so she may go by water. The Bishop of *Sebestini* and the Hungarian Deputies are returning home, having obtained their desire, which was, that a Dyet might be called, in order to the settling the Affairs of that Kingdom.

Ratiubonne, Jan. 20. It was reported some time since that the Emperor intended to come hither in the Spring; that (several Princes of the Empire would

attend his Imperial Majesty here, and that Matters of great Importance would be brought before the Dyet, in order to the taking fitting Resolutions upon them, such as might provide for the Safety and Defence of the Empire, at a time that there seems to be new Designs forming against it; but at present, if the Emperor had such an intention, it is diverted by the Affairs of *Hungary*, to the composing of which, his Imperial Majesty and his Ministers do now in a manner wholly apply themselves, and therefore his Imperial Majesty is resolv'd to be in Person at the Dyet of that Kingdom, which he has appointed to meet in *March* next; and its hop'd his Presence there will have a happy effect, and very much contribute to the Advancement of this great Work that is in hand, the good success of which, as it is to be heartily wish'd, for the sake of that poor Kingdom, which has so long suffer'd the Miseries, Ruins, and Devastations, which are the certain effects of a Civil War; so it is likewise very much to be desired, for the advantage it would be of, to the Emperors Affairs, who might then employ all his Forces for the securing the Peace and Tranquility of the Empire.

Frankfort, Jan. 22. The Electress Palatine Dowager arriv'd the last week at *Heydelberg*: She was saluted with a discharge of the Cannon of the Town and the Castle, and was received by the Garrison and the Burghers in Arms. It is said she intends to establish her Residence at *Keyserlauterne*.

Cologne, January 24. Nothing will be further done in the Affair of the Burgermeisters, till our Magistrates receive an answer to the Letter they wrote to the Emperor, upon his sending Count *Oettinge* hither to examine that Matter, and so to compose it, that all Disorders might be prevented. What ground there is for the report of the Bishop of *Munster*'s having offer'd to furnish the Emperor with 14 or 15000 men; we cannot say, but it passes here very currently.

Hamburg, Jan. 27. From *Copenhagen* they write, that the Baron *Fuels*, whom the King of *Denmark* had sent with the Character of his Ambassador Extraordinary, to assist at the Queen of *Sweden*'s Coronation, was returned home, and had given the King an Account of the present state of the Affairs of that Kingdom, and the great Inclination which the King of *Sweden* had on all occasions manifest'd to do what in him lay, more and more to strengthen the Friendship and Alliance that was so happily re-established between the two Crowns; and that it was observ'd, that since the return of the said Ambassador, there was a more intimate Correspondence between the two Courts than before.

Brussels, January 31. The Nations of this City who are now Assembled, have made a considerable Progress towards the settling the New Imposts. The Count d' *Archinto* is preparing for his Journey to *Flanders*, to be present at the meeting of the States of that Province. The Prince of *Parma* is very ill again. We were Allarm'd some days since, by an Account we received, that several French Troops were marching towards the Country of *Aloft*, which was very true, but they were Countermanded and returned again to their Quarters.

Paris, Feb. 6. The King has sent Orders to the

Sieur de Monclar, his Lieutenant-General in *Alsace* to repair hither, and we suppose it is in order to his receiving some privat Instructions concerning his management of Affairs on that side. It has been said, and many People do believe there is ground for it, that so soon as our Troops in *Alsace* can take the Field, they will shew themselves before *Strasbourg*, and oblige that City to comply with their Bishop, in the Pretensions he has upon them; if so, it is not unlikely that Monsieur de *Monclar* comes to receive the Kings farther Directions therein; but we need not trouble our selves with these conjectures, for the season begins to approach, which if the French have any Designs of this kind, will discover them. The Dauphin, though he cannot be said to be perfectly re-established in his Health, yet is so well, as that he Dances constantly in the Ballet. The last week the *Sieur Spanheim*, Envoye from the Elector of *Brandenburg*, had an Audience of the King, to whom he presented a Letter from his Electoral Highness, notifying the Marriage of Prince *Louis* his Second Son with the Princess *Louise*, Daughter of the late Prince *Bogeslaus Radzeville*.

Plymouth, Jan. 28. This day His Majesties Ships that came in here to Victual, sail'd again to their station to cruize.

Portsmouth, Jan. 30. Yesterday morning sail'd out of this Harbor the *Sweepstakes*, Capt. *Temple* Commander, who came in some time since to fight, and is now at Ankor at *Spitthead*.

Whitehal, Feb. 2. His Majesty has been pleas'd to Constitute the Right Honourable *Edward Earl of Conway*, one of His Majesties Principal Secretaries of State, in the room of the Earl of *Sunderland*, and this afternoon his Lordship in Council took the Oaths of Secretary of State, and Privy Counsellor.
