

the 20 the Court removes to *Vienna*. From *Hungary* they write that the Turks are providing great Magazines in the Frontier places, and that these and other the preparations they make on that side, give a just ground to believe that they do not intend to employ the great Armies they will have in the Field this Summer only against the *Moscovites*, but that they rather design to fall upon *Hungary*, where probably they propose to themselves their Armes will meet with less opposition; and if the reports that are abroad of the *Moscovites* being upon making a Peace with the Turks be true, we have so much the more reason to be alarmed at these advices from *Hungary*, when things are at present pretty quiet; the Imperial Troops as well as those of the Malcontents remaining in their quarters, and will do so till the meeting of the Dyet, which its hoped will remove the occasions of their coming into the Field again.

Cologne, March 18. Our Elector having in vain endeavored by all fair means to make the City of *Liege* sensible of their late undutiful carriage, and to bring them back to their obedience, seems now resolved to make use of such other ways as may prove more effectual; and to that end has ordered several Troops to march towards the *Meuse*, and we are told they are to joyn with other Forces, and that together they will make such a Body, as may when it appears before the City of *Liege*, have some influence upon the generality of the people. The last Letters from the Emperors Court spoke of fresh fears they were in, that the great preparations which the Grand Signior is now making are designed against *Hungary*, which contradicts the news we have from *Poland* of that Crown being about entering into Engagements with the *Moscovites* for the carrying on the War against the Turks; And this last deserves the most credit.

Hamburg, March 18. The differences between the King of *Spain* and the Elector of *Brandenburg* cannot yet be composed; and therefore his Electoral Highness seems positively resolved to dispose of the goods taken in the Spanish Ship called *Charles the Second*; and the last Letters from *Berlin* say, that he had given Orders for the fitting out the said Ship, to serve as a Man of War in his service. The King of *Danemark*, as we are informed will be at *Gluckstadt* before the end of this Month, and will continue some time in these parts. We cannot yet speak with certainty of the Interview which its said is designed to be between him and the Elector of *Brandenburg*.

Brussels, March 21. The behavior of the Commons of this City having for some time past been such as to create a great displeasure in our King against them, we have within these few days seen the effect of it, for yesterday our Governor the Prince of *Parma* (to whom the Nations gave some days since a fresh offence by their not complying with his Highness, who asked of them the 20th Penny upon the Rents of Houses which had been demanded by the Duke *de Villars Hermosa*, before he left this Government) caused publick notice to be given of his Resolution, in pursuance of the Orders he has received from *Spain*, wholly to leave this City and to go and reside at *Malines*, and that the several

Councils and Courts of Judicature should within ten days remove from hence; the Council of *Brabant*, with the Councillers, Greffiers, Advocates and Procurators, and all other persons any way depending upon it being appointed to go to *Louvain*; the Chamber of Accounts to *Vl. word*, and the Council of State, the Finances, the Feodal and Privy Council to *Malines*, where the Prince of *Parma* intends to be before the end of this Month; the Guard of *Archers* and *F. e. bardiens* having already received orders to march thither, and above 1000 Families will remove from hence with the Court. The French Troops commanded by Monsieur *de Bissy* continue in the Province of *Luxemburg*; we are told that they live very orderly, and pay for what they have, but we fear they will not long do so. Yesterday Monsieur *Costelmo* parted from hence for *Paris*, to complain of this manner of proceeding; And this morning the Baron *d' Hestel* for *Germany*: He goes first to the Princes on the *Rhine*, and then to the Electors of *Brandenburg*, *Saxony*, &c. An Express has been likewise sent to the Marquis *de Bourgo-mauro*, our Kings Ambassador at the Emperors Court, and Monsieur *Agurto* is gone to the *Hague*.

Paris, March 22. The 20 Instant dyed *Louis Duke de Bethune* Pair of *France*, in the 77 year of his Age. The King holds his resolution as we are informed, of going to *Bourbone*, the Dauphin being advised to use those Waters; and while the Court is there, Monsieur *de Louvois* will take a journey to *Lorraine* and *A'sace*, to view the Fortifications that are making on that side. As to our Affairs with *Rome*, they continue in the same state as formerly, the Cardinal *d' Estree* not having as yet been able to bring them to an accommodation.

Plimouth, March 15. This morning His Majesties Ship the *Swallow*, Sailed from hence for *Portsmouth*.

Portsmouth, March 17. The *Swallow* Frigate is arrived here from *Plimouth*.

The Officers of the Receipt of His Majesties Exchequer have Money in Bank to pay to Number 711 Inclusive, of the Orders Registered on the Second Act for Disbanding the Army.
