AT the Court at the *Queen's Palace*, the 2d of September 1807,

P R E S E N T,

The KING's Most Excellent Majesty in Council.

IT is this Day ordered by His Majesty, by and with the Advice of His Privy Council, that no Ships or Vessels belonging to any of His Majesty's Subjects be permitted to enter and clear out for any of the Ports within the Dominions of the King of Denmark until further Order; and His Majesty is further pleased to order, that a general Embargo or Stop be made of all Ships and Vessels whatsoever belonging to the Subjects of the King of Denmark now within, or which shall hereafter come into any of the Ports, Harbours, or Roads within any Part of His Majesty's Dominions, together with all Persons and Effects on board all such Ships and Vessels; and that the Commanders of His Majesty's Ships of War and Privateers do detain and bring into Port all Ships and Vessels belonging to the Subjects of the King of Denmark, or bearing the Flag of the King of Denmark; but that the utmost Care be taken for the Preservation of all and every Part of the Cargoes on board any of the said Ships or Vessels, so that no Damage or Embezzlement whatever be sustained; and the Commanders of His Majesty's Ships of War and Privateers are hereby instructed to detain and bring into Port every such Ship and Vessel accordingly; and the Right Honourable the Lords Commissioners of His Majesty's Treasury, the Lords Commissioners of the Admiralty, and the Lord Warden of the Cinque Ports, are to give the necessary Directions herein as to them may respectively appertain.

Foreign-Office, September 2, 1807.

M. ADLERBERG, His Swedish Majesty's Envoy Extraordinary and Minister Plenipotentiary at this Court, this Day delivered to the Right Honourable George Canning, His Majesty's

Principal Secretary of State for Foreign Affairs, a Note, announcing the Blockade of the Rivers Peene and Oder, and all the Ports of Swedish Pomerania, by the Naval Forces of His Swedish Majesty, of which Note the following is a

TRANSLATION.

THE Undersigned Envoy Extraordinary and Minister Plenipotentiary from His Swedish Majesty has the Honour, by the express Order of his Court, to inform the Ministers of His Britannic Majesty, that the Entrance of Griefswald Wolgast, Anclam, Stettin, &c. including all the Mouths of the Rivers Peene and Oder, and generally all the Ports of Swedish Pomerania occupied by the Enemy, have been declared in a State of the most rigorous Blockade, so that all Vessels will be prevented from entering the same, or departing therefrom, by the Ships of War forming the said Blockade.

The Undersigned requests His Excellency Mr. Canning to accept the Assurances of his most distinguished Consideration.

Albemarle Street, September 2, 1807.

Downing-Street, September 4, 1807.

DISPATCHES, of which the following are Copies and Extracts, have been received by the Viscount Castlereagh, One of His Majesty's Principal Secretaries of State, from Admiral Gambier and Lieutenant-General the Right Honourable Lord Cathcart, K. T. the Commanders of His Majesty's Naval and Military Forces in the Baltic Sea:

Prince of Wales, in the Sound, off Wibeck, Aug. 16, 1807.

MY LORD,

I HAVE the Honour to inform your Lordship, that Lieutenant-General Lord Cathcart joined me, off Ellsineur, on the 12th Instant. Every Disposition being made for the Disembarkation of the Army, this Service was intended to be carried into Execution on the Morning of the 14th, but the Wind not allowing the Transports to move towards Copenhagen, it was not till last Evening that I arrived off Wibeck, a Village situated about Midway

between Elsinour and Copenhagen, and at this Place the Army was disembarked this Morning without the smallest Opposition.

I have the Honour to transmit herewith a Copy of the Proclamation which Lieutenant General Lord Cathcart and myself have determined to issue on this Occasion.

I have the Honour to be, &c.

J. GAMBIER.

Viscount Castlereagh, &c. &c. &c.

By the Commanders in Chief of His Majesty's Forces by Sea and by Land.

WHEREAS the present Treaties of Peace, and the Changes of Government and of Territory acceded to, and by so many Foreign Powers, have so far increased the Influence of France on the Continent of Europe, as to render it impossible for Denmark, though it desires to be Neutral, to preserve its Neutrality, and absolutely necessary for those who continue to resist the French Aggression, to take Measures to prevent the Arms of a Neutral Power from being turned against them.

In this View the King cannot regard the present Position of Denmark with Indifference, and His Majesty has sent Negotiators with ample Powers to His Danish Majesty, to request in the most amicable Manner such Explanations as the Times require, and a Concurrence in such Measures as can alone give Security against the further Mischief which the French meditate through the Acquisition of the Danish Navy.

The King our Royal and most Gracious Master has therefore judged it expedient to desire the temporary Deposit of the Danish Ships of the Line in One of His Majesty's Ports.

This Deposit seems to be so just, and so indispensably necessary under the relative Circumstances of the Neutral and Belligerent Powers, that His Majesty has further deemed it a Duty to himself and to his People, to support his Demand by a powerful Fleet, and by an Army amply supplied with every Preparation necessary for the most determined and active Enterprize.

We come, therefore, to your Shores, Inhabitants of Zealand, not as Enemies, but in Self-Defence, to prevent those who have so long disturbed the Peace of Europe from compelling the Force of your Navy to be turned against us.

We ask Deposit, we have not looked to Capture; so far from it, the most solemn Pledge has been offered to your Government, and is hereby renewed, in the Name, and at the express Command, of the King our Master, that if our Demand is amicably acceded to, every Ship belonging to Denmark shall, at the Conclusion of a general Peace, be restored to her in the same Condition and State of Equipment as when received under the Protection of the British Flag.

It is in the Power of your Government by a Word to sheath our Swords, most reluctantly drawn against you; but if on the other Hand, the Machinations of France render you deaf to the Voice of Reason, and to the Call of Friendship, the innocent Blood that will be spilt, and the Horrors of a besieged and bombarded Capital, must fall on your own Heads, and on those of your cruel Advisers.

His Majesty's Seamen and Soldiers when on Shore

will treat Zealand, as long as your Conduct to them permits it, on the Footing of a Province of the most friendly Power in Alliance with Great Britain, whose Territory has the Misfortune to be the Theatre of War.

The Persons of all those who remain at Home, and who do not take a hostile Part, will be held sacred.

Property will be respected and preserved, and the most severe Discipline will be enforced.

Every Article of Supply furnished or brought to Market will be paid for at a fair and settled Price; but as immediate and constant Supplies; especially of Provisions, Forage, Fuel, and Transport, are necessary to all Armies, it is well known that Requisitions are unavoidable, and must be enforced.

Much Convenience must arise to the Inhabitants, and much Confusion and Loss to them will be prevented, if Persons in Authority are found in the several Districts to whom Requisitions may be addressed, and through whom Claims for Payment may be settled and liquidated.

If such Persons are appointed, and discharge their Duty without meddling in Matters which do not concern them, they shall be respected, and all Requisitions shall be addressed to them through the proper Channels and Departments of the Navy and Army; but as Forbearance on the Part of the Inhabitants is essential to the principal of these Arrangements, it is necessary that all Manner of Civil Persons should remain at their respective Habitations; and any Peasants or other Persons found in Arms, singly or in small Troops, or who may be guilty of any Act of Violence, must expect to be treated with Rigour.

The Government of His Danish Majesty having hitherto refused to treat this Matter in an amicable Way, Part of the Army has been disembarked, and the whole Force has assumed a warlike Attitude; but it is as yet not too late for the Voice of Reason and Moderation to be heard.

Given in the Sound, under our Hands and Seals this 16th Day of August, 1807.

CATHCART.

Extract of a Letter from Lieutenant-General Lord Cathcart to Lord Castlereagh, dated Head-Quarters at Hellerup, before Copenhagen, August 22, 1807.

I HAVE inclosed a Journal of the Operations of the Army from the 14th, in the Morning, together with a Return of the Casualties which have occurred, except those of the Cavalry, which are not considerable, but have not been transmitted.

Head-Quarters, Hellerup, before Copenhagen, 22d August 1807.

Journal of the Army under the Command of Lieutenant-General Lord Cathcart, from the Morning of the 14th August 1807.

August 14th. THE Fleet between Elsinour and Helsingberg—Calms and contrary Winds—Transports assembled by Brigades, each under the Charge of One of His Majesty's Ships.

15th. The Fleet worked up to Vedbeck, the Reserve anchoring nearest the Shore, covered by the Surveillante, and by several Gun-Brigs and Bombs. Major-General Spencer's Brigade under convoy of

Admiral Effington, with a Division of the Fleet, anchored higher up the Sound to make a Diver-sion.

Coast reconnoitred, and Disposition made for landing.

16th. The Reserve landed at Five in the Morn-ing, with the Ordnance of a Light Brigade, and occupied the Heights. The Remainder of the In-fantry followed with the Ordnance of another Light Brigade. A Squadron of the 1st Light Dragoons, Horses for the Two Brigades of Artillery, and for the Staff, were also disembarked. A Flag of Truce was received from Major-General Pyeman, Com-mander in Chief in Copenhagen, requesting Passports for their Highnesses the Two Princesses of Denmark, Nieces to His Danish Majesty, to go from Copen-hagen to Colding, which were granted.

In the Evening, the Army marched by their Left in Three Columns by Nerun to Lyngbyl; the Centre by Hermitage and Fortuna to Jagerborg, the Left by the Coast to Charlottenberg, and lay upon their Arms.

17th. At Day break the Army marched by their Right in Three Columns to invest the Town. The left Column established a Post at Bagerne's Mill, and extended from Freiborg to Emdrup. That from Jagerborg by Gladfacks and Vanloes to Frederickf-borg, extending to the Sea on the Right, and to-wards Falconergard on their Left. The Reserve from Lyngbyl marched by Bangede and Emdrup, and occupied the Space between the Two other Di-visions. Two Brigades of the King's German Leg-ion remaining at Charlottenfurd to cover the Disembarkation of the Cavalry and Park of Ar-tillery.

Major-General Spencer's Brigade landed at Skore-shard, and marched into their Post on the Left of the Line. All the Divisions giving Piquets to the Rear to prevent Surprise from the Country. Head-Quarters established at Hellerup. Transports as-sembled at Skoreshard, where the Cavalry com-menced disembarking. Princesses of Denmark came out of the City on their Route to Colding, and were received with the Honours due to their Rank by the Brigade of Guards, near the Palace of Frederickf-borg.

The Piquets of the Left towards the Town were attacked about Noon:—at the same Time the Enemy's Gun Boats rowed out of the Harbour, and cannonaded the Left of the Line with Grape and Round-Shot. The Piquets drove in and pursued the Enemy, and resumed their Posts, Part of the Line having advanced to sustain them. His Ma-jesty's Gun-Brigs and Bombs having been towed as near the Harbour as they could, opened a Fire at a considerable Distance upon the Enemy's Gun-Boats, which, after a long Cannonade, retired into the Harbour.

18th. At Daybreak the Gun-Boats renewed the Attack upon the Gun-Brigs, trusting to the superior Weight of their Guns. The latter having, during the Night, exchanged their Carronades for Eighteen-Pounders, the Gun-Boats retired, but advanced again with increased Numbers. A Brigade of Nine-Pounders, from the Park, having been brought to the Mill, took them in Flank, upon which they turned their Fire to the Lines, and, after cannon-ading for some Time, were driven in, together with their Field-Pieces, which advanced upon the Road.

Engineer Tools, &c. &c. having been disembark-ed, a Work was begun at the Mill, and considerable Progress was made. The same Day the Cavalry moved to their Quarters at Charlottenberg, Jagerf-borg, and Vanloes, with Piquets in the Country, and a Chain of Posts, supported by the 1st Battalion of the King's German Legion from Lorgenfree and Kollekolle, under the Direction of Brigadier-Gen-eral V. D. Decken.

19th. The Works carried on by Parties of Six Hundred Men, relieved every Four Hours. The Gun-Boats attacked at Daybreak, but were driven off by the Field Pieces which were now protected. Some of the Pipes were discovered which convey fresh Water to the Town from Emdrup. The Frigates and Gun-Brigs having a favourable Breeze, took their Station near the Entrance of the Har-bour, within Reach of throwing Shells into the Town.

Four Twenty-four-Pounders were brought into the Battery at the Mill. Great Progress was made in the Work at that Place, and in a Howitzer Bat-tery in the Rear of it, with Traverses and Cover for the Men.

Brigadier-General Decken surprized and took the Post of Frederickfwork, commanded by a Ma-jor, Aid-de-Camp to the Crown Prince, who capi-tulated with Eight Hundred and Fifty Men and Officers, with a Foundery and Depot of Cannon and Powder.

The King's Household, with Part of His Danish Majesty's Wardrobe, Plate, Wine and Books were suffered to come out of the Town to follow His Majesty, (who has withdrawn to Colding), Pas-sports having been requested.

Some Gentlemen residing in the District of Co-penhagen, and in the Bailiwicks towards Ellsineur, having offered their services to accept the Office of Magistrates and Superintendants of Police in their respective Districts, under the Commander of the Forces, an Order was made for that Purpose, and sent to be printed and published, and a Commission was given, in Reference to a Proclamation printed and published in German and Danish on the Day of Disembarkation.

20th. Farther Progress made in the Works. More Ordnance landed and mounted. A Patrol on the Left having reported that a Body of Cavalry, with a Corps of Infantry in their Rear, had been seen in Front of Roeskilde, Colonel Røden sent a Squadron to reconnoitre them, which found them assembled near that Place, and immediately charged and put them to Flight, leaving Sixteen or Eighteen Men killed, and taking Three Prisoners and Twenty-nine Horses.

The Dragoons pursued the Enemy to the Gates of Roeskilde, where they were received by a heavy Fire of Infantry, and returned to their Quarters.

The Admiral came to Head-Quarters in the Morn-ing, and returned to his Ship.

21st. Lord Roslyn's Corps disembarked in the North Part of Keoge Bay, with Two Batteries of Artillery, sending round the remaining Transports to Skoreshard. A strong Patrole of Cavalry and Infantry was sent to cover his Landing.

Progress made in cutting off the Water. Further Arrangements made with Gentlemen of the Coun-try. Passport granted to Prince Frederick Ferdi-nand of Denmark and his Preceptor.

Notice given that no more Passports can be granted:—at the same Time a Recommendation urged to the commanding General, to consider the dreadful Consequences of making a capital City of such Extent stand a Siege and Bombardment like an ordinary Fortress. Great Advance made in perfecting the Works already in progress which cover our Left.

A Trench pushed forward, and a new Battery erected Three Hundred Yards in advance. Brigadier-General Macfarlane's Brigade landed at Schoreshard—Great Progress made in landing the Battering-Train and Stores for the Siege—Fascines made for a new Battery on the Right. These Works being completed will take the Enemy's Line of advanced Posts in reverse, and will cover and secure the Advance of the Army to a new Position.

Copenhagen, August 16, 1807.

Prince of Wales, off Copenhagen,

MY LORD, *August 21, 1807.*

BEING of Opinion that the Service on which His Majesty's Forces at the Island of Zealand are employed renders it highly expedient that all Neu-

tral Trade therewith should be for the present suspended, I have judged it my Duty to issue an Order (of which I have the Honour to transmit your Lordship a Copy) declaring the said Islands, and others contiguous thereto, together with the Passage of the Great Belt, to be in a State of Close Blockade, and directing that all neutral Vessels persisting to enter into the said Islands and Passage, after receiving due Notice thereof, shall be detained and sent to me at this Anchorage, intending that such Vessels shall not be allowed to pursue their respective Voyages until the Circumstances of the Islands shall permit them to do so, consistently with the Object of the present Service.

I have the Honour to be, &c.

J. GAMBIER.

Viscount Castlereagh, &c. &c. &c.

By James Gambier, Esq; Admiral of the Blue, and Commander in Chief of a Fleet of His Majesty's Ships and Vessels employed on a particular Service.

WHEREAS I have judged it expedient, in conducting the Operations of His Majesty's Fleet under my Command against Copenhagen, to surround the Island of Zealand, and the other Islands contiguous thereto, with His Majesty's Ships, in order to prevent Reinforcements or Supplies of any Kind whatsoever from being thrown into the said Islands, I do hereby declare them, as well as the Passage of the Great Belt, (extending from a Bank or Shoal named Halteen's Ground, to the South-East End of the Island of Femeren) to be in a State of close Blockade, and do also hereby direct the Flag Officers, Captains, and Commanders of the said Ships, to give Notice thereof to any Neutral Vessels they may find going into any of the Ports of the said Islands, or into the Passage aforesaid, and to require them to desist therefrom; and in case any Neutral Vessels, after receiving such Notice, shall attempt to enter into any Port or Place of the said Islands, or into the Passage aforesaid, the said Flag Officers, Captains, and Commanders are hereby authorized and required to detain such Vessels, and leaving their respective Masters and a Proportion of their Crews on board to assist in navigating them, put a careful Petty Officer, with as many Seamen as may be necessary into them respectively, and send them to me at this Anchorage.

Given under my Hand on board the Prince of Wales, off Copenhagen, August 21, 1807.

Admiralty-Office, September 5, 1807.

Copy of a Letter to the Honourable William Wellesley Pole, Secretary of the Admiralty, from James Gambier, Esq; Admiral of the Blue, and Commander in Chief of His Majesty's Ships and Vessels in the Baltic, dated Prince of Wales, in the Sound, August 16, 1807.

SIR,

I BEG you will inform the Lords Commissioners of the Admiralty, that I Yesterday Morning quitted the Anchorage off Elsinore, and in the Evening arrived with the Fleet and Transports off Wibeck, a Village about Midway between that

Place and Copenhagen, where the Army was this Morning disembarked, without Opposition.

I have the Honour to be, &c.

JAMES GAMBIER.

Admiralty-Office, September 5, 1807.

Copy of a Letter from Admiral Gambier, Commander in Chief of a Squadron of His Majesty's Ships and Vessels employed on a particular Service, to the Honourable William Wellesley Pole, dated on board the Prince of Wales, off Copenhagen, August 19, 1807.

SIR,

THE hostile Preparations of the Danish Government being far advanced, I thought it proper to order the Defence and Comus to put to Sea in Pursuit of the Danish Frigate, which, as I informed you in my Letter of the 14th Instant, had quitted Elsinore Roads in the Night between the 12th and 13th.

I have now to request you will lay before the Lords Commissioners of the Admiralty a Copy of a Letter which I have received from Captain Ekins, of the Defence, and One from Captain Heywood to him, stating his having come up with and obtained Possession of the said Frigate.

When the Inequality of Force between the Two Ships is considered, with the trifling Injury sustained by the Comus, it will appear unnecessary for me to make any Comment on the Bravery and Skill which must have been displayed by Captain Heywood, his Officers, and Ship's Company.

I have the Honour to be, &c.

J. GAMBIER.

Frederickscoarn—Twenty-six Twelve-Pounders on the Main-Deck; Four Six-Pounders, and Six Twelve-Pounder Carronades, on the Quarter-Deck and Forecastle; and Two Hundred and Twenty-seven Men.

Comus—Twenty-two Nine-Pounders on the Main-Deck; Eight Twenty-four-Pounder Carronades, and Two Nine-Pounder Carronades, on the Quarter-Deck and Forecastle; and One Hundred and Forty-five Men.

Defence, Seaw Light-House, S. 4. E. 10 or 12 Miles, Saturday, One P. M.

SIR, August 15, 1807.

AS the superior Sailing of the Comus, in very light Winds, has given Captain Heywood, his Officers, and Ship's Company, an Opportunity to distinguish themselves particularly by a very gallant Action with an Enemy greatly exceeding their Force, I can therefore only regret the late Arrival of the Defence, for the Means that might otherwise have been afforded me of preventing the Bloodshed which has resulted from it, though happily on the Part of the Enemy only. The Crew of the Danish Frigate considerably out-numbering the Comus's, I have thought it my Duty to receive One Hundred of them into this Ship. Inclosed I transmit you Captain Heywood's Letter.

I have the Honour to be, &c.

CHARLES EKINS.

To Admiral Gambier, &c. &c. &c.

His Majesty's Ship Comus, off Marstrand.

SIR, August 15, 1807.

I ARRIVED within Hail of the Danish Frigate you gave me Directions to chase and detain, at

Twelve o'Clock last Night, and repeatedly desired that she would submit to Detention by this Ship, but she refusing, and making all Sail from us, I found it necessary to have recourse to Arms; after having received a Shot from her Stern Chace Gun, we closed with her, and a smart Action commenced, which continued about Forty-five Minutes, when the Two Ships falling on board each other, the Boarders, headed by Lieutenant G. E. Watts, assisted by Lieutenant Hood Knight, very gallantly boarded on her Bow, and finally took Possession of her.

All under my Command conducted themselves in the bravest Manner throughout the Contest; and I feel happy to report only One Person wounded. The Loss of our Opponent, (which proved to be His Danish Majesty's Frigate *Frederickscoarn*, carrying Thirty-six Guns, Twelve-Pounders, on her Main-Deck, and Two Hundred and Twenty-six Men,) was much more considerable, being Twelve killed and Twenty wounded, several mortally.

I have the Honour to be, &c.

E. HEYWOOD.

WHEREAS by an Act, passed in the Ninth and Tenth of William the Third, intituled "An Act for the Increase and Preservation of Timber in the New Forest, in the County of Southampton," it was enacted, that Two Thousand Acres, Part of the Waste Lands of the said New Forest, should be inclosed and kept in Severalty for the Growth and Preservation of Timber for Supply of His Majesty's Royal Navy, and that it should and might be lawful to and for His Majesty, His Heirs and Successors, to inclose, sever, and improve, within and out of the Parts or Places of the Waste Lands of the said New Forest, the full Quantity of Two Thousand Acres, Statute Measure, the same to be set out by virtue of His Majesty's Commission, to be directed to Six or more such Persons as His Majesty should think fit, out of such Parts and Places in the said Forest as should be found or esteemed by the said Commissioners, or any Three or more of them, to be most convenient to be inclosed, and to be most apt and meet to produce Wood and Timber for the future Benefit of the Kingdom, and might be best spared from the Commons and Highways of the County, to be set out and inclosed, butted, and bounded, &c. in the Manner set forth in the said Act; and it was further enacted, that it should be lawful in like Manner to inclose Two Hundred Acres more of the Waste in the said Forest yearly and every Year, for the Term or Space of Twenty Years, from and after the Time that the Inclosure of the said Two Thousand Acres above mentioned should be made and completed as aforesaid; and that the said Inclosures so set out and made as aforesaid should remain in Severalty, in the actual Possession of the Crown for ever, freed and discharged of and from all Manner of Right, Title, and Pretence whatsoever, according to the Purport and Intent of the said Act, and should be called, made, and kept a Nursery for Wood and Timber only; and it was also further enacted and declared, that whensoever the Lords Commissioners of the Treasury, Lord Treasurer of England, or Chancellor of the Exchequer, for the Time being, should be satisfied and should determine that the Woods and Trees which should be growing on the said Two Thousand Acres, or any Part thereof, within the Inclosures which should afterwards be made, were become past Danger of browsing of

Deer, Cattle, or other Prejudice, and should think fit to lay the same, or any Part thereof, open and in common, and should cause the same to be so done, that then and so often it should and might be lawful to and for His Majesty, His Heirs and Successors, from Time to Time to inclose out of the said Forest, in lieu of so much as should be so laid open of the said Two Thousand Acres, or of the said Number of Acres authorized to be inclosed as aforesaid, the like Quantity out of any other Part of the Residue of the said Wastes to be set out and made in like Manner, and by like Commission and Admeasurement as aforesaid, and to be holden, inclosed, freed and discharged of and from all Manner of Common, Herbage, and Pannage, or any other Rights, for so long Time as the same should remain and continue inclosed according to the Direction, Purport, and Intent of the Act, to be a Nursery for Timber as aforesaid, instead of so much as should be laid open as aforesaid:

And whereas the Quantity of One Thousand and Twenty-two Acres, Part of the Waste Lands of the said Forest, was inclosed soon after the passing of the said Act, pursuant to the Provisions thereof; and it has been certified to the Lords Commissioners of His Majesty's Treasury, on the Authority of Joseph Mortimer, Deputy to the Surveyor-General of Woods in New Forest; John Mumford, Purveyor of the Navy; Richard Nightingale, Nassau Coleman, Richard Nightingale, jun. and James Aldridge, Regarders, that the Woods and Trees growing on the said One Thousand and Twenty-two Acres are become past Danger from the browsing of Deer, Cattle, or other Prejudice, viz.

We, being Three of the Lords Commissioners of His Majesty's Treasury, think fit to lay the same open and in common, and do hereby declare and make known that the said Inclosures above mentioned are laid open and in common accordingly, to the Intent that an equal Quantity of other Waste Lands may be inclosed in lieu thereof, and kept in Severalty for the Growth and Preservation of Timber, agreeable to the Directions of the said Act.

NOTICE TO MARINERS.

IN virtue of an Act of Parliament, Geo. III, c. 132, authorising the Honourable the Commissioners of Northern Light-Houses to erect a Light-House on the Bell Rock, to place a Floating Light there, and to collect Duties thereupon, Notice is hereby given, that a Vessel, fitted out for a Floating Light, is now moored off the Cape or Bell Rock, situated at the Entrance of the Friths of Forth and Tay, in N. Lat. 56 Deg. 27 Min. and W. Long. 2 Deg. 27 Min.

The Moorings of this Light consist, of a Mushroom Anchor, with a Chain, laid down in 17 Fathoms Water, the Bell Rock bearing by the Compass, E. S. E. distant One Mile; the Red Head, N. by E. $\frac{1}{4}$ E. distant Thirteen Miles; Fifeness, S. W. $\frac{1}{4}$ W. distant Twelve Miles; and the Island of May, S. W. $\frac{1}{4}$ S. distant Seventeen Miles.

The Light will be from Oil, and will be lighted upon the Night of the 15th Day of September 1807, and thereafter every Night, from the going away of Daylight in the Evening till the Return of Daylight in the Morning. To distinguish this Light from the Double Lights at the Tay and Seares, and from the Single Light on the Island of May, Three distinct Lights will be shown by a Lantern hoisted to the Top of each Mast, and these will be visible from every Point of the Compass; the Lanterns on the Fore and Mizzen Mast being elevated 23 Feet, and that on the Mizzen Mast 31 Feet above the Vessel's Deck; the Lights, when seen from either Side of the Ship, will have the Appearance of a Triangle, but if seen End-on, will appear as Two Lights, the one above the other.

This Vessel was formerly a Fishing Dogger, and at the Distance of Seven or Eight Miles is like a Ship under Jury-Masts; in the Daytime a Blue Flag, with a Light-House in the Field, will be displayed from the Main-Mast; and in thick and foggy Weather, a Bell will be tolled on board, with an Interval of a Minute, Night and Day.

Although this Vessel has been fitted out in the completest Manner, and every Attention paid to mooring her properly, yet as all floating Lights are liable to break adrift in the tempestuous Weather of Winter, Mariners are recommended not to neglect their Land-Marks, and to run with Caution for the floating Light.

This Vessel is also intended to answer the Purpose of a Store-Ship, while the Light-House is building on the Rock, and should it be found necessary to alter her present Station, during the working Months of Summer, due Notice will be given.—By Order of the Honourable Commissioners of the Northern Light-Houses. C. CUNINGHAM, Sec.
