

and right handed and the left hand is  
 the same as the right hand. The  
 fingers are numbered from the thumb  
 to the little finger. The thumb is  
 the first finger, the index finger  
 is the second, the middle finger  
 is the third, the ring finger  
 is the fourth, and the little  
 finger is the fifth. The  
 fingers are used in many  
 different ways. They are used  
 to hold things, to write, to  
 play instruments, and to  
 do many other things. The  
 fingers are very important  
 parts of the hand. They are  
 used to feel things, to  
 touch things, and to  
 hold things. They are used  
 to pick things up, to  
 hold things steady, and to  
 do many other things. The  
 fingers are very important  
 parts of the hand. They are  
 used to feel things, to  
 touch things, and to  
 hold things. They are used
