

and that Monsieur *Pelletier*, the first of the French Commissioners was returned to *Lille*, having obtained the liberty of Navigation on the Spanish Rivers, which was demanded for the Vessels belonging to the French Kings Subjects. From *Strasburg* they write, that notwithstanding the great preparations of the French towards Italy they continue on that side very apprehensive that the design is really against them. From *Cologne* they tell us, that the Popes Internuncio, the Emperors Commissioner, and the Bishop of *Strasburg* do joyn in their Endeavours for the composing the Affairs of *Liege*.

*Hague*, Sept. 15. The Prince of *Orange* is still at *Dieren*, nor is it yet known when he will be back here. Prince *Casimir*, Stadtholder of *Friesland* has been in this Town several days, but intends now to return home very suddenly. From *Germany* we have an Account that the Dyet at *Ratisbonne* has finally agreed on the Quota, or Proportions of Men to be raised by the several Circles, for the forming the Army of 40000 Men, which is to be kept on foot for the defence of the Empire. At the same time we are told that the French King has Declared, that he will most Religiously preserve the Barriere in *Flanders*; and as for the Dependencies, that he will pretend to none but what of right belong to him; and that he is going to employ his Arms towards *Italy*.

*Paris*, Sept. 13. The 8th Instant the Sieur *Taborda*, Envoye Extraordinary from the Prince Regent of *Portugal*, had his first Audience of the King; there is a discourse as if difficulties might yet arise concerning the Marriage of the Duke of *Savoy* with the Infanta of *Portugal*, The Troops continue to march towards *Italy*; Monsieur de *Louvois* is gone that way, to be present, as is said, at a general Rendezvous that is appointed to be held; In the mean time People make divers conjectures concerning the designs of this Army; and some are of opinion, that notwithstanding these appearances, the King has not taken his thoughts from *Germany*. Several Petitions have been Presented to the King on the behalf of the Protestants, who lye at present under such great hardships and oppressions, but we do not hear that they have had any good effect.

*Paris*, April 17. The last week one *Baranton* was broken upon the Wheel, being Convicted of High Treason, in being privy to a design against the Kings Person. Some days since were likewise executed two Persons, Condemned by the Chamber of Poisonings. The discourse is, that the Court will remove the beginning of the next Month to *Chambor*; but this alters not the opinion many have, that they shall suddenly hear of the Kings going towards *Italy* or *Germany*. From *Rome* we have Advice, that the Pope has made a Promotion of sixteen Cardinals. The Duke of *Orleans* has been very ill.

WE Your Majesties most Loyal Subjects hold it our Duty most Solemnly and Publickly to Acknowledge to Your Majesty, the great Blessings which God hath pleased to vouchsafe us in Your Majesties steadfast adherence to the true Protestant Religion, during

the time of Your unhappy Exile; notwithstanding Your many and great Temptations to the contrary; In your merciful Indulgence to Your Subjects at Your miraculous Restoration; in Your having maintained our said Religion with our Civil Liberty and Property by Law established; and Lastly, in assuring us by Your late Gracious Declaration, That Your Majesty will make the Excellent Laws of the Land the Rule of Your Government both in Church and State, and endeavour the Extirpation of Popery.

In testimony of our thankfulness to God and Your Majesty for these great Blessings and Favours. We most humbly and cordially engage our selves, with the hazard of our Lives and Fortunes (as both by our natural and sworn Allegiance we are bound) to Defend and Maintain Your Majesties Royal Person, Heirs, and lawful Successors, Crown and Dignity, against all Popish Contrivances and other Devices whatsoever, praying for Your Majesties long and Peaceable Reign, and everlasting happiness hereafter.

To the King's most Excellent Majesty.

The Humble Address of the Mayor, Magistrates, and other the Inhabitants of the Burrough of *Warham*, in the County of *Dorset*,

Dread Sovereign,

NOT the many Words, but the seasonable Actions of Subjects express their Loyalty to their Prince, the Sense whereof taketh us humbly to Lodge this Address at Your Majesties Feet; Assuring Your Majesty, that in these few Lines there is comprehended that faithful Obedience which Divinity Commandeth, and as much as Humanity can pay.

And this we do most sincerely Profess with all possible Gratitude, from that assurance which Your Majesty hath given us by Your late Declaration, of maintaining our Religion as it is now established, and our Rights and Privileges, as they are now enjoyed; for which, whilst we live, we will serve Your Majesty and Your lawful Successors to the utmost, against all rebellious Opposers; and when we Dye, we will as much as in us lyeth, Entail our Allegiance on those that shall succeed us, that our Childrens Children in their first Language may say, and pray,

God Save the KING.
