

That accordingly he is preparing to execute them, and that he may be the better able to do it, he calls upon the States to make good their Treaty with the Crown of Spain, and to furnish the 8000 Men they by stipulated, in order to the preservation of so important a Place. The thing is now before the States, in order to their taking a Resolution upon it. Here is arrived *Thomas Chudleigh, Esq;* Envoye Extraordinary from the King of England to the States.

*Paris, Feb. 19.* The King has Commanded a Squadron of his greatest Ships to be fitted out to attend the Duke of Savoy in his passage to Portugal; the *Marschal a' Ephre* is to have the Command of it, and all things are preparing with great Magnificence. *Monsieur de Chateauneau* is supposed to be appointed with eight men of War before *Argiers*, he has Orders, as we are informed, to endeavour a Peace, and if he cannot succeed therein, to block up the Port, that no Vessels may go out or come

From *Marseilles* we have an Account, That the *Algerines* have lately taken one of their Merchant Ships, richly Laden, and that two Squadrons of Gallies were fitting out there, the one of 8 Gallies, designed against the *Algerines*, and the other of 4, for the Guard of the Coasts, People are with some impatience expecting the return of the Courier that carried the Letter from the Assembly of the Clergy to the Pope, in the Matter of the *Regale*, while in the meantime, their opinions are various concerning the effect the said Letter may have; some thinking that the Pope will acquiesce in the Resolutions of the Assembly, though others, that consider what firmness he has shewed in this Matter, rather believe the contrary.

*Whitchur, Feb. 9.* The City of *Normich* having by a publick Act under their Common Seal, Declared their abhorrence of that pernicious Association, lately Published by His Majesties Command; It was this day presented to His Majesty, who having heard it Read, was pleased to express how very much satisfied he was with the Demonstrations which the City of *Normich* so frequently give of their Loyalty and Affection to His Majesty, and the establishment of Government; and was pleased to order the same should be Printed, which is as follows.

### To the Kings most Excellent Majesty.

**W**E the Mayor, Sheriffs, Citizens, and Commonalty of Your Ancient and Loyal City of *Norwich*, who daily enjoy the Blessed Advantages of Your Majesties Just Government, cannot too often renew our Demonstrations of Loyalty; and at present think ourselves obliged both in Conscience and Allegiance, to Declare our utmost Abhorrence of that pernicious Association, which here must be contrived by the worst of Traytors, and was happily discovered and published by Your Majesties Wisdom and Command. An Association, which under the old pretence of Defending Your Person, was designed to Destroy both Your Majesty and Monarchy itself, by Levying War upon no other Authority, but the arbitrary Orders of a Disaffected, though Dissolv'd part of Parliament. And as we do perfectly desire that Fanatique Conspiracy against Your Majesties Person and Prerogative, so we do solemnly Vow a ready Compliance to whatever Your Princely Wisdom shall Command us, for the preservation of Your Majesties Sacred Person,

the established Government in Church and State, and the Legal Succession and Grandeur of the English Monarchy. In Testimony whereof, We have caused our Common Seal to be hereunto affixed this Sixth day of February, in the Four and thirtieth year of Your Majesties happy Reign, Anno Dom. 1681.

GOD Save the KING.

*Mr. Thomas Warren of London Apothecary, living at the Hart and Anchor in St. Lawrence-lane, having after many years Trial, with great Cost, found out a most curious and excellent way of preserving Dead Bodies from Putrefaction, change of Colour, or Complexion, without Disbowelling, Searcloathing, Mangling or Cutting any part thereof, to the great Approbation of severa of His Majesties Physicians, and others of the Colledge; and having presented an Experiment to His Majesty of a Body so preserved, His Majesty was very much satisfied therewith; And that so useful an Invention may prove serviceable to such as have occasion to use it, and likewise beneficial to the Undertaker, This Notice is given thereof.*
