Admiralty-Office, December 30, 1815.

THE following official notification has been received at this Office. J. W. CROKER:

Edinburgh, December 22, 1815.

THE Light-House on the Island of May being now assumed as one of the Northern Light-Houses, and the Commissioners of the Northern Light-Houses having directed a new Light-House, upon improved principles, to be erected on that Island, notice is hereby given, that a change in the appearance of the Lights of May and Inchkeith

will take place on the night of the 1st of February 1816.

#### ISLAND OF MAY LIGHT-HOUSE.

The Island of May is situate on the eastern coast of Scotland, at the entrance of the Frith of Forth, in north latitude 56 deg. 12 min. and west longitude 2 deg. 36 min. The present light, being a coal fire, exposed to the vicissitudes of the weather, in an open grate or choffer, will be discontinued on the 1st day of February 1816, and, on that night, a light from oil, with reflectors, known to mariners as a stationary light, will be exhibited, and continue to be lighted every night, from the going away of day light in the evening, till the return of day light in the morning.

The Light-House newly erected upon the Island of May is contiguous to the Old Light-House Tower, and similar to it in point of height; and the light being defended from the weather, in a glazed light room, will have an uniform steady appearance, resembling a star of the first magnitude, and be seen from all points of the compass, at the distance of about seven leagues, and at all intermediate distances, according to the state of the atmosphere.

#### INCHKEITH LIGHT-HOUSE.

The Light upon Inchkeith, which Island lies within the Frith of Forth, in north latitude 56 deg. 2 min. and west longitude 3 deg. 8 min. being at present a stationary light, from oil, with reflectors, is to be altered on the night of the 1st day of February 1816, and converted into that description of light known to mariners as a revolving light, without colour, which, from and after that period, will be seen from all points of the compass, exhibiting a bright light, once in every minute, and gradually becoming less luminous, till, to a distant observer, it totally disappears. In this manner, each periodic revolution of the reflector frame will alternately show a bright light, and a light becoming fainter and more obscure until it is totally eclipsed.

By this alteration upon the Light of Inchkeith, the present character and description of the other lights upon the coast, near the entrance of the Frith of Forth, is preserved, and the possibility of mistaking Inchkeith Light for any of the other lights of the Frith of Forth will be effectually prevented.

By order of the Commissioners of Northern Light-Houses,  
C. Cuningham, Secretary.

Excise-Office, London, January 2, 1816.

The Commissioners of Excise, in order to bring to justice these outrageous offenders, one of whom, named John Hayward, is in custody, do hereby offer a reward of TWO HUNDRED POUNDS to any person who shall discover any other of them, so that he or they may be convicted; to be paid by their Secretary upon the conviction.
