Vienne, May 28.

Our Advices from *Hungary* are very various and uncertain, according to our last the Malcontents were in great Mistrusts of the Turks, and Count *Tockley* not at all satisfied with the Conference he had with the *Bassa of Offen*, from whom he had expected an assurance, at least, of being assisted by the Port with Men and Money. In the mean time the Imperial Ministers both here and at *Luxemburg*, have daily Consultations as well concerning the Affairs of *Hungary* as those of *Germany*; and as to the latter, it's said, that the Emperor is resolv'd to do his part in order to the restoring to the Empire the Lands and Places which the French have possess'd themselves of, since the Peace of *Nimeguen*.

Francfort, May 31. The French Ambassadors have not yet given their late Reply in *Latiné*, as was desired by the Imperial Ambassadors, who still insist on it, as a thing in which the Dignity of the Empire is concern'd. Prince *William of Furstemburg* pass'd through this place yesterday in his way to *Strasburg*. From *Ratisbonne* we have an Account, that Monsieur *Verjus*, the French Envoy, had given in another Memorial to the Dyet, to dispose them to accept of the Conditions propos'd by France: But that the Emperor had by his Ministers there declar'd to the States, that he cannot by his Capitulation; consent to dismember the Empire, as he must do, if he agree to the said Conditions.

Cologne, June 5. The 1200 Men which the Circle of *Westphalia* sends this City were arriv'd in the Countrey of *Borgs*, and will be here to Morrow or the day following, our Magistrates being in the mean time busied to provide Quarters for them. From *Strasburg* they write, that it was reported there, that the French Troops would pass the *Rhine*; upon the Advice they had, that the Imperial Forces were coming down.

Hamburg, June 5. The third instant the King of *Denmark* arriv'd at *Gluckstadt*, and the next day parted again from thence for *Keeboe*, where it's said he will expect the Elector of *Brandenburg*, with whom, we have told you, his Majesty is to have an interview. The 9th instant there will be a general Review of the *Luxemburg* Troops near *Zufingen*. P. S. Just now we are inform'd, that the King of *Denmark* is expected this afternoon at *Alteria*. (About a quarter of a Mile from hence) and that the Burgers had therefore Order'd to be in Arms.

Brussels, June 9. The States of *Holland* are still Assembled, but, having no matters of any great moment at present before them, they will, it's believ'd, separate in few days. The States have received a Letter from the King of *Fez* and *Morocco*, which they have order'd to be Translated. There are Letters from *Germany* which tell us, that the French are designing a Camp near *Offenburgh*, to have an Eye upon the Imperial Troops which it's said are drawing towards the *Rhine*.

Brussels, June 9. On Sunday last the Marquis de *Grans* parted from *Ghent* for *Audenard*, intending

to take a turn through *Flanders*, and to be back here towards the end of this week. His Excellency has order'd four Regiments of Foot, one of Dragoons, and 400 Horse to march to *Luxemburg*, being resolv'd to put that place into a good posture of defence. The French we hear design to have a Camp near *Metz*, and another on the *Saar*, and are likewise drawing a great many Troops together near *Strasburg*, and on the other side we have an Account that 16000 Imperialists are coming down towards the *Rhine*, to joyn with the Troops of *Suevia* and the other Circles. Yesterday being the King of *England's* Birth-day, Mr. *Howard* his Majesty's Envoy Extraordinary, gave a very noble Entertainment to all the English Gentlemen here.

Paris, June 10. Commissions, as we are inform'd, are given out for the raising 300 Companies of Foot, and at the same time the Levies of Horse are gone on with, but with a care that they do not hinder those of the Foot. These preparations, it's not doubted, are made here to answer those of the Emperor and the Princes of the Empire. The Doctors of the *Sarbonne* having made some steps, which shew they are dissatisfied with what has been done, with relation to the Registering the Declaration of the Clergy, and the Kings Edict thereupon in their Colledge, the Parliament here has taken notice thereof, and last Friday twelve of the said Doctors were called before the Parliament, and were very sharply reprov'd, which some look upon as a thing that may have important Consequences. Several Gallies have been purposely built at *Toulon* to serve in the designed Expedition against *Argiers*, and we are told they will be ready to sail the 15th of this Month. There is a report that the Turks have imprison'd the French Ambassador, and several Merchants of this Nation at *Constantinople*, which we know not what credit to give to.

Windfor, June 3. His Majesty received very Graciously the following Addresses from *Hertford*, and *Chepping W. combe*.

To the Kings most Excellent Majesty.

Most Dread Sovereign,

WE the Mayor, Aldermen, Common Council, Assistants, Freemen, and Commonality of Your ancient Burrough of *Hertford*, being truly sensible of the great Happiness we daily enjoy, and the many Benefits we continually receive from the Gracious Influence of Your Government, do humbly conceive we are, all in Duty bound to manifest our Loyalty again to Your Majesty, when we see, to the great grief our hearts, that the restless and continued Malice of some proud and discontented Spirits, shall under the specious Pretences of maintaining the Protestant Religion, preserving your Royal Person, and the Liberty of the Subject, contrive a new Model of Government, to destroy the Church, and Your Guards, (which are now more than ever necessary) overthrow the Monarchy, and enslave Your Majesty and all Your Loyal Subjects to the Arbitrary Wills of their insulting Government, as was notoriously evident

evident by the Form of that Association produced at the late Proceedings against the Earl of Shaftsbury; All which abominable Practices, we must acknowledge would have taken effect, had not Gods Providence and Your Wisdom timely prevented the same; For which we do prostrate our selves at Your Feet, and return our humble and hearty Thanks to Your Majesty: And as a further Testimony of our Loyalty, do declare to the World that we make this publick Detestation and Abhorrence of that Association, and of all other Associations and Confederacies whatsoever, which any evil-minded or discontented Persons shall contrive against Your Majesty, Your Right Heirs and Lawfull Successors, and Your most Excellent Governours; All which we do most solemnly promise we will ever defend to the utmost of our Powers, and that we will always continue our Prayers to Heaven for Your Majesties happy Reign and glorious Government.

To the Kings most Excellent Majesty.

May it please Your Majesty,

WE Your Majesties most Dutiful, most Loyal, and Obedient Subjects, the Mayor, Aldermen, Bayliffs, Burgesses, and other Inhabitants of your Majesties Ancient Corporation of *Chepping-Wycombe* in the County of Bucks, whose Names are hereunto subscribed, do most Humbly beg leave of Your Majesty, to return our most humble and hearty Thanks to Your most Sacred Majesty, for all those Blessings and Felicities we have ever had this minute enjoyed under Your Majesties most just and gracious Governour; The true sense whereof creates in us a just Abhorrence and Detestation of that impious and wicked Association, by Your Majesty and Your most Honourable Council lately discovered, and by Your Royal Goodness and Command Published, that the World may see the dark Designs of them who (forgetting their Duty both to God, and Man) have Combined in that Wicked and Traiterous Association.

And, most Dread Sovereign, we do most humbly, sincerely, and heartily assure Your most Sacred Majesty, That we do from our souls Abhor and Detest the same, and all other Associations and Combinations and Confederacies not warranted by Your Royal Authority: And that we will always be ready with the utmost hazard of our Lives and Fortunes to defend and preserve Your Majesties Royal Person, Your Heirs and Successors, in the Right Line, and the Government as now by Law Established, against all Associations and Conspiracies whatsoever; That these may never want one of Your Majesties Royal Progeny to sway the Scepters of Your Majesties Kingdoms until all Earthly Kingdoms shall be no more. And may all good Subjects with us Your Majesties Loyal, Dutiful Addressers, Chastely, Cordially, and Sincerely pray, God save the King, Bless him in all his Royal Relations, in a Dutiful and Loyal People, with a long and prosperous Reign here, and to all Eternity may you, Great Sir, the best of Kings, be blessed, is the humble and hearty desires of

Your Majesties most Humble, most Loyal, and Faithful Subjects.

Signed by 170 Persons.

Oxford, May 30. Being Tuesday in the Evening, his Excellency the Morocco Ambassador, who had been entertain'd with a Collation at Sir Timothy Fryers House at Shotover, was met at the descent of the Hill by an hundred and twenty Gentlemen, well Mounted and drawn up in order, and led by Dr. *Yerbury*, who as his Excellencies approach, alighted from his Horse, and coming to the Coach-side, signified to him, that himself and the Gentlemen with him came by the appointment of the Vice-Chancellor and the University of Oxford, to attend him thither, and pay all Respects wherein they might be capable of serving him, and expressing the sense they had of the Honour design'd them by that Visit. When his Excellency had returned the Complement, the Troop in two Divisions, the one before the Ambassador and his Company, (the other in the Rear, conducted him to his Lodging, where the Vice-Chancellor Dr. *Timothy Hall*, and a numerous Train of Doctors in their Scarlet-Gowns, with the Orator of the University and Bedles, soon after waited on him; and after a short Speech made by the Orator and Thanks returned from his Excellency, is being late, they took their leave, expecting his Excellencies farther Commands the next day.

On Wednesday Morning (Coaches being order'd by the Vice-Chancellor to attend) his Excellency made his first Visit

to the Vice-Chancellor at Queen's Colledge, thence he went to the Physick Garden, after to Magdalen-Colledge, New-Colledge, Trinity, Balliol, St. Johns, Wadham, All-Souls, and University: in which places, where-ever he enter'd, the Governours and Fellows, and other Members of the respective Societies, gave their Attendance, and entertain'd his Excellency in shewing him what they judged might be acceptable to him, or deserve his Notice.

In the After-noon at about Five of the Clock, his Excellency was pleas'd to visit the University, and Conducted by the Vice-Chancellor and his Officers, and Accompanied by the Lord *Norris*, and other principal Gentlemen of this County, enter'd the Convocation, which was held in the Theatre, where the University, with others to the number of several thousands, attended his coming. At his entrance loud Musick played till he was set in the Seat of State prepared for him. Then the Vice-Chancellor declared the cause of the Convocation, and commanded the Orator in the name of the University to express their Resentments of Respect to so great a Guest; which was by him accordingly performed.

To this succeeded a suit of Vocal and Instrumental Musick from the *Odeum* or Musick Gallery; after which a young Nobleman, Brother to the Lord *Mordun*, Address'd to the Ambassador in a Panegyrick Poem, which being ended, the Vice-Chancellor concluded the Convocation, and the loud Musick playing while his Excellency removed. He went next to the Publick Library, where the Librarian Dr. *Hyae* welcomed him with a Speech in Arabick, and then shew'd him the great Magazine of Books, and other Rarities of the Place; after which his Excellency visited Brazen-nose College, Jesus, and Lincoln-Colledge, and thence came to Christ-Church, where, after he had received a Collation at the Bishops Lodgings, he was led into the Hall, and other Publick Buildings; After which he visited Oriel, Corpus Christi, and Merdon-Colledge, from whence he retired to his Lodgings; and desiring to go out of Town very early in the Morning, he declined the Attendance of those Gentlemen who offer'd their service to Conduct him in his way hence, as they had waited on him at his Entrance. Mr. Vice-Chancellor at his taking his leave of his Excellency, made him a Present of Books richly bound, such as were the Description of the University in Sculpture, Euclide, Avicenn, the Nubian Geographer, Abulfaragius his History, with several other printed Books in Arabick; So that nothing was omitted to make his Reception solemn and obliging.

It so happen'd, that after his Excellency had recommended those Persons of Quality who came in his Retinue, to be presented to Degrees, and that all things were accordingly prepared by the University; He being press'd to do so, and several others who were not so perfect that they could not be so importunate upon him; He took his leave, and reliev'd himself, by declining the recommending any Person at all.

His Excellency in his return Dines at *Night* with the Right Honourable the Lord *Norris*, Lord Lieutenant of this County.

Plymouth, May 20. His Majesties Ship the *Constant Warwick* is come in here from Cruising, being bound for the *Dominis*. There are likewise in Port the *Phenix* and the *Marlin* Yacht.

Lime, May 31. We had here this morning a very great Storm, accompanied with Rain and Thunder, which caused several Ebbings and Flowings of the Water in halftian hours time.

Portsmouth, June 1. This Morning came to an Anchor at *Spithead* the *Scipio*, bound for the *East-Indies*, having the day before in a great Storm lost her Foremast, Bolt-sprit, and Mizen-Mast.
