Published by Authority,

From Thursday August 3. to Sunday August 7 1682.

Vicini. July 16.

WE have Advice from Hungary, That the Turks are abroad in strong Parties, and that towards *Labentz* they have Plundered and burnt 36 Villages and Bourgs, and carried away above 400 Christians, having killed all those that were either too young or too old for them to take with them; That the Palatine of Hungary had thereupon Summoned together the *Militia* of the Country, to make head against these Invasions, and that he hoped in a short time to have a Body of 10 or 12000 Men; That the Turks are about 70000 strong near *Newbushet*, and that they have likewise a considerable Body near *Offen*. These advices make the Imperial Troops March with the greater Diligence towards Hungary; and Count *Caprara*, and the other General Officers, are preparing to follow, There is a discourse of new Levies to be made, the Forces which the Emperor has now on foot, according to a List that is abroad, consist in 20 Regiments of Foot, 2040 Men in each, 12 Regiments of Horse, 1000 in each, and 16 Regiments of Dragoons, 500 in each, which are 4480 Foot, 12000 Horse, and 5000 Dragoons; and together make 66800 Men.

Strasbourg, July 28. It is hardly to be expressed with what extraordinary diligence the French carry on the new Fortifications which they are making here, and at other places in these parts; and we are assured that Monsieur de *Louvois* will be very suddenly here to view them. It is said that they will rebuild the Walls of *Calmar*, which they demolished upon the breaking off of the last War: But as for *Landau* and *Germersheim* it is now reported, that they are to remain as they are, without any Fortifications.

Hamburg, July 31. Our Letters from *Stockholm* of the 19th Instant inform us, That Count *Wenzel* of *Albeym*, Envoy Extraordinary from the Emperor, was arrived there: And from *Berlin* of the 22 they write of the noble reception which the Markgrave of *Ansbach*, and the other Illustrious Personages that were with him, had had there. The King of Denmark being returned from *Oldenburg* to *Gluckstadt*, is gone to *Coldingen*, where will be a general Rendezvous of his Troops in those parts, and yesterday His Majesty passed through *Rensburg*, in his way thither.

Hamburg, Aug. 4. The King of Denmark having received an account of the Queens being brought to bed of a dead Prince, is thereupon returned to *Copenhagen*, but with an intention to be back in *Holstein* about the middle of this Month. From *Stockholm* of the 22 Instant they write, That the young Prince had been Christened with great Solemnity, by the name of *Charles*, Prince *George* of Denmark, the Duke of *Holstein*, and the Bishop of

Eviv, being his Godfathers; and the Queen of Denmark, the Landgravine of *Hesse*, and the Princesses *Dorothea* of *Holstein*, the Godmothers.

Cologne, Aug. 4. The Sieur *Leuis*, Envoy Extraordinary from the King of Denmark, has had several Conferences with the Ministers of our Elector, concerning the present State of affairs, and as we are told, has represented to them, That the King his Master desires nothing more than that the Peace of Germany may be preserved; That his Majesty is very much troubled to see how unsuccessful the Conferences at *Frankfort* have hitherto been, and wishes such Resolutions may be taken by the Princes of the Empire, as may be the Foundation of a firm and lasting Peace and Tranquillity, to which his Majesty thinks nothing can at this time conduce more than the accepting of the Proposition made by the French Ambassadors at *Frankfort*, which he therefore desires his Electoral Highness not only to declare his own approbation of, but to employ his Offices, with other Princes, to dispose them to do the like. The Prince of *Parma*, late Governor of the Spanish Netherlands, passed from hence 120 days since, for *Frankfort*, intending to take his way through *Switzerland* for *Italy*. The Bishop of *Strasbourg* is expected here from *Paris* about the middle of the next month, and it is said that he will pass the Winter here.

Brussels, July 31. We are here in great respect, all persons being entirely satisfied with his Excellency's prudent Conduct and Management of Affairs, of which we doubt not in a short time to see a very great effect (especially if his Excellency receive the promised Supplies from *Spain*) by which Countreys being put into a posture of defence and security. There are Letters from Count *Caprara*, the Imperial Minister at *Constantinople*, which give an account of the kind reception he had had from the Grand Vizier, who assured him of the Grand Signior's desire to renew the Peace for 30 years, provided it might be upon honourable Terms, which (if what we hear be true) the Grand Vizier did propose to be, That a very considerable yearly Sum be paid to the Porte; that the Emperor pardon the revolted Hungarians, and restore their Estates; That *Leopoldstadt* be dismantled; That the Turkish Limits be extended to *Tranchin*, upon the River *Waag*; and, That the Country situate upon the River *Ithris* be yielded to the Turks. The States of this Province are not yet agreed in the matter of the Subsidy, which his Excellency demands of them.

Brussels, Aug. 7. His Excellency has ordered another Months Pay for the Army, and at the same time has commanded a general Review to be made in the several Provinces, that his Excellency may be exactly informed of the Forces that are on foot; and his Excellency has published a Placet, commanding all Officers to repair within 28 hours to their respective Commands. The Spanish Courier has brought Don *Antonio d'Agurto* his Commissary to be *Maistre de Camp* General, who has thereupon received

received the Complements of the whole Court, and we are informed that Don *Antonio de Medrano*, and Don *Balthazar de Euen Mayor*, the Spanish Minister at the Hague, have had the Titles of Marquisses of *Castile* conferred upon them. The States of *Holland* have granted his Excellency a Subsidy of 22 thousand Florins, the one moiety to be paid presently, and the other within six Months.

Brussels, Aug. 11. The States of this Province have at last agreed to give his Excellency a Subsidy of 800 thousand Florins, which they presented to his Excellency in the usual form on Saturday last. Towards the end of this Week his Excellency intends to go for *Antwerp*, but before he goes, he will endeavour to compose the differences between the Princess Dowager of *Ligne*, and the Prince her Son. We have advice from *Hungary* that Count *Tekely*, since the expiration of the Truce, has begun Acts of Hostility, having attacked a Castle near *Caschau*, in which were 500 Imperial Soldiers, who were all slain with the Sword; That it was believed he would in the next place besiege *Caschau*; That the Turks were Marched from their Camp at *Buda*, towards *Kaab*, and that thereupon Count *Caprara* was gone to take care of the Island of *Schantz*.

Hague, Aug. 7. The States of *Holland* are going to separate for some time. From *Amsterdam* we have an account, That a certain person, an inhabitant of that City, has undertaken to take away the Bank of Sand and Mud on the *Pampus*, that renders the passage of the great Ships difficult, which will be a good Work if he can perform it. The *West-India Company* has resolved to make a Dividend of Five per Cent. The matter of the Convoys is not yet settled, by reason of the opposition which the City of *Amsterdam* makes thereunto.

Paris, Aug. 12. Here has been great rejoicing for three days together, for the Birth of the young Duke of *Burgundy*. The Dutchess de *Bullion* is returned to Court. Some days since arrived here an Express, sent by the Marquis de *Chasseau-renaux*, to give the King an account, That being come, with the Ships under his Command, before *Argiers*, that Government had sent off to him, to know his Intentions, and to offer a Treaty for a Peace; but that he had answered, That his Orders were to lay before the Port, and to hinder all Vessels from going in, or coming out; That he expected every day his General, the Sieur du *Quegne*, to whom they must address themselves, if they desired a Peace, and that in the mean time they would do well to keep their Ships in Port; for if they came out, he would attack them. Our last Letters from *Tunis* left the Duke of *Savoie* very much indisposed with his Ague.

Windsor, Aug. 4. The following Address from *Marleborough* has been presented to His Majesty, who received it very graciously, being very well pleased with the repeated Instances of Duty and Loyalty which that Corporation has always been ready to express towards His Majesty, and the Government in Church and State, as now by Law Established.
