THE 15th Instant arrived at Leghorn the *Saphir*, and *Byssol*, from *Tunis*, bringing from thence the Moneys and Goods recovered of the Turkey ship that was lost many Months since on that Coast. From *Tunis* we hear that the Duke of *Savoy* has been so ill that they feared his Life, but that he was much better, his Fever being in great measure abated. The Governour of *Milan* has lately received a supply of 95 thousand Crowns from *Spain*, 50000 from *Sicily*, and 30000 from *Naples*, which with the 20 thousand his Excellency received some Months since, are to be employed towards the erecting of Magazines, the fortifying several places, and for other publick Services. The King of *Spain* has consented that the Pope shall dispose of the Ecclesiastical Tenth in the State of *Milan* to the Emperor, to be employed in the War against the Rebels of *Hungary*. From *Rome* they write, That a Congregation had been held there about the Regality, but that it was not known what they had done.

Vienna, Aug. 2. Yesterday passed by this place six Companies of Hussars, in their way to *Hungary*, whither the Imperial Troops continue to march with all imaginable diligence; our last Letters from those parts, which arrived two days since, gave an account, That the *Hungarian* Rebels had surprized the Cittadel of *Caschau*, and put the Imperial Soldiers that were in Garrison, to the Sword; and that they now attacked the Town, which the Governor hoped he should be able to defend. We are likewise informed that the Turks are on their March to join the Hungarians, and that there has been a very sharp Rencontre between the Imperialists and some of the Turkish Parties. In the mean time we are told that the Demands that have been made to Count *Caprara*, the Emperor's Minister at *Constantinople*, which are, That 600 thousand Florins be paid yearly to the *Pari*; That the *Hungarian* Rebels be pardoned, and their Estates restored; That *Leopoldstadt* be razed; That the Turkish Frontiers be extended as far as *Transylvania*; and lastly, That all the Country on the other side the River *Theiss* be yielded to the Grand Signior, have been debated in the Emperor's Council, and that his Imperial Majesty has resolved to give the Turks, by way of Donative, 600 thousand Florins, and 30 thousand yearly, and to pardon the Hungarians upon their submission; but for the other Articles, that they were wholly rejected, as dishonourable, and which ought never to be consented to. Count *Leslie* is gone for *Germany*, and has particular Orders to visit *Cosnitz*, *Killingen*, *Rheinfelden*, *Offenburg*, and *Philipsburg*, and to see that things there be in the posture they ought to be; and we are told that the Imperial Troops that are Quartered in *Tirol*, have Orders to march towards the Empire, and that the Emperor intends to remove with the whole Court to *Prague*, in *Bohemia*, and to pass some time there.

Hamburg, Aug. 4. From *Vienna* we have advice, That the Cessation of Arms between the Imperialists, and the Rebels in *Hungary* being expired, Hostilities begin again; That Count *Teckley* is with six or seven thousand men near *Ferenx*, and has summoned the City of *Caschau* to render themselves to him, threatening otherwise to put them all to the Sword; That 15000 Sacks of Corn were sent to *Zaimar*, for the Subsistence of that Garrison; That the Duke of *Lorraine*, having recovered his Health, had offered the Emperor his Service in *Hungary*; That Count *Caprara*'s last Letters from *Constantinople*, gave an account, That having declared his Commission to the Grand Signior, viz. That the Emperor desired to live in Peace with the Port, he was Answered, That Peace being the thing which all Nations upon Earth do the most desire, the Grand Signior would never refuse it: That thereupon he had had a Conference with the Aga of the *Fideliaries*, (who was appointed to Treat with him) and was told by him, That to maintain the Peace, it would be necessary that the Emperor should pardon the *Hungarians*, and restore all their confiscated Estates: That *Leopoldstadt*, which was built without the Consent of the Port, be razed; That the Turkish Limits be extended to *Transylvania*; and that all the Lands situate on the other side of the River *Theiss*, be yielded to the Port. That the Aga had asked Count *Caprara* whether he had Instructions to Treat about these Points, and if he had not, had wished him to send immediately to *Vienna* about it.

Hague, Aug. 14. The Spanish Minister here has by a Memorial acquainted the States General, That the Marquis de *Grana*, Governor of the Spanish *Netherlands*, has received Orders from *Madrid* to make a strict Enquiry what Lands and Estates the Subjects of *France* have within the Spanish Territories, and to proceed against them by way of Reprizals, for the Confiscations that have been made of the Estates which the Subjects of *Spain* have in the French Conquests. The French Ambassador has demanded a publick Audience of the States General, to give them a formal Notification of the Birth of the young Duke of *Burgundy*; and he was to have had it yesterday, but it was put off by reason his Excellency pretends to be received with some new Respects that have never yet been practised on like occasions. It is said that the Provinces of *Friesland* and *Groningen* are not very well satisfied with the Answer given to the *Sieur Dieff*, the *Brandenburg* Minister, upon his late Memorial.

Paris, Aug. 3. On the seventh Instant *Te Deum* was Sung in the Chappel of the Castle of *Versailles* for the Birth of the young Duke of *Burgundy*, at which the King, the Dauphin, and all the Princes of the Blood at Court assisted. The next day *Te Deum* was Sung here in the Church of *Notre-Dame*; the Chancellor of *France*, with the Council, the Parlement, the Chamber of Accounts, the Court of Aydes, and the Magistrates of this City, as likewise the Ambassadors, and other Foreign Ministers, assisting.
