NOTICE TO MARINERS.

Edinburgh, December 5, 1820.

THE Commissioners of the Northern Light-houses hereby give notice, that a light-house is erected upon Sumburghhead, in Shetland; the light of which will be exhibited on Monday the 15th day of January next, and will thereafter continue to be lighted every night, from the going away of day-light in the evening till the return of day-light in the morning.

The following is a Specification of the Position of the Light-house and Appearance of the Light, by Mr. Stevenson, Engineer to the Commissioners:

Sumburghhead Light-house is situate on the southern promontory of the main land of the Shetland Islands, in north latitude 59 deg. 52 min., and west longitude 1 deg. 15 min. The light-house, by compass, bears from Hangcliffhead, in Noss Island, S.W. by W. $\frac{1}{4}$ W., distant twenty-one miles; from Fair Island N. E. by E. $\frac{1}{2}$ E., distant twenty-six miles; and from the Island of Foula S. E. by S. $\frac{1}{4}$ S., distant twenty-eight miles. In reference to these bearings, the light will be visible to the mariner from the southward, between Noss and Foula Islands.

This light will be known to mariners as a stationary light from oil with reflectors, and being elevated three hundred feet above the medium level of the sea, it will be seen like a star of the first magnitude, at the distance of six or seven leagues, and intermediate distances according to the state of the atmosphere.

By order of the Commissioners of the Northern Light-houses,

(Signed) C. Cunningham, Sec.
