

remedied by the plan of the Beacon. The above benefits are to be secured by a capital of two hundred thousand pounds raised by the sale of two thousand shares of one hundred pounds each; and further, to enable the Company at all times to meet with liberality the claims which may be made upon it, no policy will be effected to a greater extent in one risk than five thousand pounds, by which the loss will be so circumscribed, that the security of the Company can never be placed in jeopardy, or the interests of those connected with it impaired, by demands disproportioned to the general average amount of premiums received. The plan of the Beacon is particularly recommended to the consideration of tradesmen, and persons deriving income from the rent of houses, as by the adoption of the measures therein proposed, every possible loss may be effectually guarded against. An interest of five pounds per cent. per annum will be allowed on the deposits for shares, and in addition thereto, a like interest of five pounds per cent. will be allowed on the profits to arise from the annual insurance premiums, the gross amount of which will be ascertained on balancing the accounts at the end of every year, and added to the stock of Proprietors.

Persons desirous of purchasing shares are requested to apply to Mr. John Clark, 10, Chatham-Place, Blackfriars, where prospectuses and plans may be had.

CONTRACT FOR SUPPLYING YORKSHIRE STONE, AND PERFORMING MASON'S WORKS TO A SMITHERY AT SHEERNESS.

Navy-Office, March 21, 1822.

THE Principal Officers and Commissioners of His Majesty's Navy do hereby give notice, that on Thursday the 14th of April next, at one o'clock, they will be ready to treat with such persons as may be willing to contract for supplying
