

and is gone to the Isle of *Schütz* to give the necessary Orders for its defence and security. The Emperors Ministers are treating with several Merchants here for the remitting 350 thousand Florins to *Warsaw*, which are to be paid to the King of *Poland* upon the conclusion of the Offensive and Defensive League which is treating between his Imperial Majesty and that Crown.

Cologne, April 13. We talk here very much of an Accommodation between his Electoral Highness and the City of *Liege*, and it's said, that some Expedients are proposed which will remove the difficulties that have hitherto obstructed it; the Arch-Deacon of *Liege*, who is sent hither by that Chapter, is not wanting to do his part towards it, and being a Person that is well esteemed here, his endeavours are like to be the more successful. The last Letters we received from *Vienna* gave an account, That they were every hour expecting an Express from *Warsaw*, with the News of the Conclusion of the Alliance between the Emperor and that Crown, and that Major-General *Schutz* was to March with some Troops towards the Frontiers of *Poland*, to join the 6000 Polish Horse, which the *Chevalier de Lubomirski* is to bring into the Emperor's Service; That several Troops were likewise ordered to March to *Croatia*, to join the Militia of that Country, for its security against the Incursions of the Turks; and that the Emperor was fixed in his Resolution of being present at the General Rendezvous of his Army, which is appointed to be held the 20th of this Month on the Frontiers of *Hungary*. From *Ratisbonne* they write, That it has been proposed to the Dyet, That the Imperial Chamber may be removed from *Spire* to some place of greater security.

Hamburg April 13. The Letters from *Stockholm* of the second Instant, tell us, That the King had sent the Admiral *Wachmester*, to *Carelscron*, to hasten the Maritime Preparations they are making there, and that great Care and Diligence was used to raise Seamen for the Service of the Fleet; That General *Aschemberg* had Orders to draw together the Kings Troops on the Frontiers of *Norway*, and to choose a Camp for them in some convenient place, and that the King of *Sweden* intended to have another Camp in *Bleking* or *Schonen*, besides the Troops he designs to send over to his Territories in *Germany*. From *Copenhagen* they write, That their Fleet is in great forwardness, and that it will be ready to put to Sea the beginning of the next Month at farthest: and from *Holstein* we have an account, That the Danish Troops are Marching to the *Properbeyde*, where the King intends to see them in a Body. The motion of these Forces, and the Report that is spread abroad, That a Body of French Troops will come this way, does encrease the Apprehensions many People here are in; what ground there is for them time must discover. There are Letters from *Warsaw* which tell us, That the League with the Emperor is finally Concluded; and that Count *Morstein*, the Crown-Treasurer, is deprived of his publick Employment, and made a Prisoner upon the Accusation brought against him, but this last particular needs a Confirmation.

Paris April 21. The eighteen Companies of the

French Guards, mentioned in our last, and six of the Suisse, are on their March to *Lille*, *Tournay*, and *Doway*, to supply the room of the Troops that are drawn out of those places in order to their Marching to the several Camps which the King is going to visit: The discourse at Court is, That he will take his Journey first for *Burgundy*, That he will pass through *Dyon*, *Dole*, and *Besancon*, to *Alsace*, and that having made some short stay at *Strasbourg*, he will go for *Lorraine*, and so return home again. The *Sieur Heinsius*, Envoy Extraordinary from the States-General of the United Provinces, has had a Conference with the Marquis de *Croissy*, Secretary of State, concerning the Affair of *Orange*, but has not yet had his Audience of the King. Monsieur de *Seignelay* is gone for *Thoulon*, to hasten the Equipage that is making there, and to give the necessary Orders for the Building Forty or Fifty double Chaloups, which will be of great use in the intended Expedition against the *Algerines*. A great Reform is making in the Hospital of the *Invalides*, all such as, upon a strict Examination, appear not to have been Wounded in the King's Service, being put out, and the Officers that gave them their Certificates are in danger of being called to a strict account for it.

Norwich April 9. On the seventh Instant our new Charter was brought down by one of the Earl of *Tarmouth's* Brothers, who was met about four Miles from hence by several of the Neighbouring Gentry, and at the end of the City bounds by the Mayor and Aldermen, attended with between five and six hundred Horse, and several thousands on Foot: The Charter being presented to Mr. Mayor, was afterwards carried by the Sheriff into the City, with Trumpets Sounding, and Waits playing, and continued Acclamations of many thousand Citizens, till they came to the Hall, where the Mayor, with his Brethren, gave Mr. *Paston* (with the rest of the Gentlemen accompanying him) a splendid Entertainment in their Court-Chamber. After Dinner the Mayor and several Aldermen were sworn, and the Night was concluded with all Expressions of Joy, as Ringing of Bells, Bonfires, &c.

Whitchal, April 14. This day their Majesties and their Royal Highnesses parted from hence, with the whole Court, to *Windfor*.
