From *Liege* they write, of the 23 Instant, That the Burger-masters of that City, which were lately Banished, have been recalled, and that the 32 Trades had chosen one out of every Company, who are to assist at the Conferences that are to be held for the Composing matters with their Prince, but at the same time these Letters do assure us, That in case the endeavours that are now used for the bringing things to an accommodation do not take effect, the Elector of *Cologne* will Attack that City with all the Forces he can draw together. There are Letters from *Rome* which say, That the Journey of the Bishop of *Fano*, whom the Pope sends his Nuncio hither, is put off till after *Whitsontide*. The Doctors of the *Sorbonne* will, it's believed now in few days draw up an Answer to the Proposition concerning the Popes Authority, that has layn so long before them, but no body can say what it will be, for the Opinions are very equally divided.
