Hamburg, May 14. We have Advice from *Leutzler*, That the *Sieur Bierman*, and the *Sieur Meinders*, Envoy Extraordinary from the King of *Denmark* and the Elector of *Brandenburgh*, passed through that place yesterday in their Journey to *Zell*. It is said, That the *Sieur Bierman* has finished his Negotiation at *Berlin* to his Satisfaction. The *Sieur Haxhuyser* is passed through this City in his return home from *Zell*, whither he was lately sent by the King of *Denmark*. **O**

Cologne, May 14. *Great Frankfurt* have had an account, That at the late Meeting at *Ausburg* a League was concluded between the *Duchies* of the Circle of *Bavaria* and those of *Franconia*; by which these two Circles are obliged to maintain each of them 20000 Men for their common Defence and Security against any Foreign Power; and that endeavours were used to bring the Circle of *Suabia* likewise into this League, but without Success at present. From *S. Radshourg* they write, That the *Baron de Monclar* was parted from thence for *Landaw*, to give the necessary Orders concerning the Camp which is to be held that place this Summer. From *Vienna* they tell us, That the Emperor and the Elector of *Bavaria* were gone to the General Rendezvous in *Burgary*.

Brussels, May 14. Yesterday arrived the Spanish Ordinary, which brought the Marquís de *Grana* the King of *Spain's* Approbation of his intended Marriage with *Mademoiselle d'Artemberg*, and this Evening his Excellency will part from hence for *England*. Great Preparations are made on the occasion of this Marriage, as well as that of the Duke of *Aerschot* with his Excellency's Daughter, who is expected at *Marimont* about the middle of this Month. The last Week was executed at *Mons* a Woman who was accused of being a Witch; It's said she confessed; That she had by Witchcraft caused the Death of the Duke of *Aerschot*, late Governor of that City and Province, and that she named several Persons who she said were engaged with her in those Hellish Practices. The Letters from *Germany* tell us, That the Circle of *Suabia* does seem unwilling to enter into the League made between the Emperor and the Circles of *Bavaria*, *Franconia*, and the upper *Rhine*; and that the Imperialists are much concerned for the Death of the Bishop of *Wirsburg*; who did greatly support their Interests.

Hague, May 18. The *Sieur Camprich*, the Imperial Resident, has presented another Memorial to the States-General concerning the Affairs of *East-Friseland*, which is put into the hands of the Deputies for Foreign Affairs. The *Heer Van Sommerdyke* has adjusted all matters with the *West India* Company, and the other interested concerning the Colony of *Surinam*, of which he is to be Governor. The Deputies of the State for Maritime Affairs have frequent Conferences with the Deputies of the Admiralty, concerning the 16 Ships that are now fitting out; These complain that they want Moneys to carry on this Service; That some of the Provinces have not yet consented to this Equipage;

and that the Admiralties of the *Meuse* and of *Amsterdam*, who can best advance it, will not make use of their Credit for others, unless the occasion be very pressing, (as it does not yet appear to be) in which case these two Admiralties alone can in a very short time put these 16 Ships to Sea. From *Bremen* they write, That that City is going to receive a Garrison of the Troops of the Circle of the *Lower Saxony*, for their Security in this conjuncture.

Paris, May 19. The French Fleet of Men of War and Gallies Sailed the seventh and eighth Instant from *Marseilles* and *Thoulon*, consisting in near 100 Sail, and it's not doubted but they are gone directly for *Argiers*, and that we shall quickly have some News of them. The Marquís d'*Amfreville*, who has been Cruising, is returned to *Marseilles*, and has brought in with him a Ship belonging to *Genova*; It's said she has on Board her a very considerable Sum of Money. The King's Journey continues fixed for the 26th, or at farthest the 28th of this Month.

Deal, May 9. This Morning Sailed out of the Downs his Majesty's Ship the *Constant-Warwick*, to the Westward.
