Turin, May 19.

ON Thursday last returned hither from Lisbonne the Duke of Savoy's Stablc: The Count de Gubernatis, his Highness's Envoy Extraordinary at the Court of Portugal, is likewise returned from thence, and it's said he will be made Governor of Mondovi. The Duke of Savoy intends to take a Journey to Perceil, and the Officers of his House are gone to prepare things for the Courts reception there.

Genova, May 17. The Governor of Milan desiring to change the Garrison of Final, has asked leave of this State for their passing through their Territories, and they have granted it. On Wednesday last 100 Men, with some Ammunition, &c. was sent from hence to Savona. From Milan they write, That their Mestre de Camp General, Monsieur de Louvigny, is taking a very exact account of the Troops now in the Service of that State.

Stockholm, May 28. On the 20th Instant the King of Sweden returned hither from Koningsbor, and has assisted at several Councils that have been since held here, concerning the present Justice of Affairs. All possible diligence is used in fitting out the Fleet, which is appointed to rendezvous at Carelskroon. The King has sent an Ingenier to take care of the new Fortifications that are making at Straelbond.

Copenhagen, June 5. All things are prepared for the Kings Journey to Holstein, though we do not yet hear that his Majesty has declared the day he will begin it. Twenty Men of War, mounted from 40 to 80 Guns, lye ready to Sail, being divided in three Squadrons, and the other Ships will in few days be in the same posture; The Fleet will in all consist of 35 Men of War, and will be commanded by Admiral Fuels, who this day entertains the King at Dinner on Board his Ship. It is reported, That a Squadron of French Men of War will joyn our Fleet. We have advice, That several light Suedish Frigats are at Sea, and that their Fleet is appointed to Rendezvous at Carelskroon.

Vienna, June 2. We have as yet no certain account of the Duke of Lorrain's having begun the Siege of Gran. The last Letters we have from Hungary say, That the Rebels were assembled in great numbers near Tockay, intending to joyn with the Tartars, in order to besiege Zatzmar. We have advice from Moravia, That five Regiments are of their March from thence to Presbourg, where it's said a Body of Men is forming, to reinforce from time to time the Imperial Army under the Command of the Duke of Lorrain. The great Ordnance, and other Ammunition which were taken out of the Arsenal here, are arrived at Comorra, and all

possible diligence is used to send them from thence to the Army. A great many people that live in the Territories, under the subjection of the Grand Signior, are retired with their Families and moveables to Rajab and Comarra, to prevent the severe Treatment which they are wont to receive from the Turks in times of War.

Vienna, June 3. On Sunday arrived an Express from the Imperial Army before Gran, with an account, That the Duke of Lorrain Invested the place the 28th past, and the next day brought the whole Army before it, That he was preparing several Batteries, and seemed resolved formally to besiege it. There is a report, That his Highness having sent out 4000 Horse in two Parties, with Orders to burn the Bridge of Esbeck, they had executed them so successfully as to make themselves Masters of the said Bridge, after having defeated 700 Turks that were Post'd there for the Guard of it, but this needs a Confirmation. A Courier arrived from upper Hungary brings advice, That Major-General Schutz was advanced as far as Arrava, in order to his conjunction with the 6000 Poles which the Prince de Lubomirski is bringing into the Emperor's Service, and that he had had a dispute with 600 of the Rebels, who guarded a Pass, and at first seemed resolved to maintain it, but Major-General Schutz advancing, they thought fit to retire. From Poland they write, That that King will be in the Field towards the latter end of the next Month, with 40000 Men, and that he intends to act towards the Ukraine, to give the Turks a diversion on that side. The Place of Chancellor of the Court, which was lately possessed by Monsieur Hocker, continues vacant, but the general opinion is, That the Emperor will now quickly dispose of it to Monsieur Straetman, who is at present at Ratibonne.

Ratibonne, May 31. The difference between the Electoral Colledge and that of the Princes is the reason that nothing is yet done in the great points of the publick security and the Treaty with France. The 26th Instant the Dyet took in consideration a Memorial presented to them by the Deputy of the Marquiss of Baden Dourlach, wherein he set forth the great Damages his Master has sustained, as well by the last as the preceding Wars, and desired he might, therefore be discharged from paying his Quota of the Taxes of the Empire; the resolution the States took upon it, was, to write a very favourable Letter on his behalf to the Emperor.

Hamburg, June 11. They continue to write from Glückstadt, of the Preparations they are making there against the King of Denmark's arrival, but do not tell us when his Majesty will be there. We expect our next Letters from Denmark will tell us that the Danish Fleet is at Sea.

Liege, June 10. Our Letters from Cologne say, d. Edin. I That

That matters there continue still in very great disorder, the Commonalty having refused to let at liberty the Syndick Judendock, and several of the Magistrates, whom they lately Imprisoned.
