POWERFUL TIDE MILL AT PORTSMOUTH.

THO be let by public tender, the very superior and powerful Tide Mill for many years belonging to the Victualling Department at that port; it is capable of grinding on the average thirty loads of wheat per week; the sheet of water is extensive, and drives four water wheels (three of which are of iron, recently new); the mill is fitted with wire dressing cylinder, hoisting machine, and every requisite for immediate operation. There is also a drying kiln, with cast iron floor, on the most modern principle. Besides the mill, there is a store-house and workshop detached, and an excellent dwelling-house, replete with grates and fixtures, consisting of parlour, kitchen, and scullery on the ground floor, and six bed-rooms and two dressing-rooms on the first and second floors. This mill being very near

the Town Quay, is very convenient for water communication at a small expence of carriage.

The mill and premises above described are to be let for a term of seven, fourteen, or twenty-one years, on conditions that may be seen on application at the Office of Ordnance, Pall-Mall, or at the Royal Engineer's Office, or Office of Ordnance at Portsmouth, subject to such alterations as shall be agreed upon on the application of parties desirous of renting the mill.

The tenders to state, in words at length, the rent proposed to be given, and sent to the Office of Ordnance, Pall-Mall, on or before Saturday the 23d May next, addressed to R. Byham, Esq. and written on the outside, "Tender for the King's Mill at Portsmouth."

By order of the Board,
