Whitehall, September 19.

**T**he following Addresses having been presented to His Majesty, His Majesty was pleased to receive them very graciously.

*To the King's most Excellent Majesty.*

*The humble Congratulation of the Bayliffs, Burgessees, and Commones of the Corporation of Scarbrough; Together with divers others of the Nobility, Gentry, Clergy, and Freeholders from several parts, then residing at the Spaw there.*

*Most Dread Sovereigns,*

**W**E the Bailiffs, with the unanimous Consent of the Commons, and Burgessees, of your Antient Town and Corporation of Scarbrough, together with divers others of the Nobility, Gentry, Clergy, and Freeholders, from several Parts, now resident at the Spaw, Do with the rest of Your Majesties Loyal and Obedient Subjects, Congratulate Your and His Royal Highness's great and happy Deliverance from that Barbarous Conspiracy, Your malicious Adversaries had contrived and plotted against your Sacred Person and Royal Brother, and against your Government; And though we were not so happy as to receive your Majesties late Proclamation, yet we are and shall be as forwardly inclined, and obsequiously bent to use our utmost endeavours for the safety and good of your Sacred Person, your Heirs and lawful Successors, as also the advantage and security of the present Government, as now by Law established in Church and State, as any other your Majesties Subjects, which we are ready to demonstrate with our Lives and Fortunes; And for the further continuance of Your Majesties Life, Crown and Honour, we Your Majesties most humble and Loyal Subjects, shall ever Pray.

Given under our Hands, and Seal of our Corporation, this Twenty eight day of July, Anno Regni Domini Regis nunc Caroli Secundi Dei gratia Anglie, &c. Tricesimo quinto, Annoq; Dom. 1683.

*The humble Address of the Grand Jury of and for the County of Kent, at the Assizes holden at Maidstone on Tuesday the 31th of July, 1683.*

*To the King's Most Excellent Majesty.*

**W**E Your Majesties most Dutiful and Loyal Subjects, do with hearts filled full of Joy, congratulate the Happy Deliverance of Your Majesties Sacred Person, and of that most Excellent Prince Your Royal Brother, from the late Cruel Conspiracy of Impious men, who to the Scandal of our Religion, call themselves Protestants, We do with great Affection and Sincerity devote to Your Majesties Service our Lives and Fortunes, and do promise that when your Majesty shall be pleased to Summon a Parliament, we in our Station will use our utmost endeavours that none of those men may be chosen who in the late Parliaments were for disinheriting His Royal Highness, there being nothing in the World more evident now, than that the chief Promoters of that Vile Bill of Exclusion, were also the Principal Contrivers of the intended Murder of Your Majesty and most Dear Brother, as the Discovery of this Hellish Conspiracy doth clearly demonstrate

to all men that are not wilfully Blind: But on the contrary nothing shall be wanting in us, Pains nor Charges; that Gentlemen of known Loyalty and Affection to the Crown and the Church of England, even in all its heights, as now by Law established may be elected. Dread Sir, although it is not our Province to take upon us to advise Your Majesty, yet we cannot in Duty forbear to speak our Fears, namely, that the danger of this deep and Bloody Design, is very far from being over past, and this we are the rather induced to believe, by the Speeches of the Traytors who have already suffered, more particularly that of the late Lord Russell, by what head and hand assisted, we say not; but sure we are, contrived with that crafty and close reservedness that they have at the hour of death, ventured apparently to leap into the Gulph of Eternal Perdition, rather than by a full and free Confession glorifie God, and prevent the Execution of their Villanies, by their surviving Trayterous Complices: But we hope a little time will lay the Hellish Treacheries of your Enemies as open and manifest in every point and circumstance, as they are in substance notorious and mischievous; God of his great goodness grant Your Majesty a long and Prosperous Reign over these deluded and much abused Kingdoms, and that there may be always one of Your Royal Family in the right Descent to rule over us and ours to the end of the World.

*To the King's Most Excellent Majesty,*

*Dread Sovereigns,*

**W**E your most Dutiful, Loyal and Obedient Subjects, the Mayor, Aldermen, and Capital Burgessees, and other Inhabitants of Your Ancient Incorporation of Bridgewater, in the County of Somerset, whose Names are hereunto Subscribed, having a deep Sense of the manifold Attempt and endeavours of a great number of wicked and ungodly Men, ( who not having any regard to their Allegiance, but violating their Oaths, the most Sacred of Tests ) have conspired against the Life of your most Sacred Majesty, and your most Dear Brother, His Royal Highness, James, Duke of York, and thereby consequently to Involve your Majesties three Kingdoms into a perpetuity of Blood and miserable Distractions, had not the All-seeing Power timely detected the same, and by a seasonable Sacrifice, the Fire at Newmarket, lead You thence, as did that Cloud and Pillar the Children of Israel out of Egypt, otherwise must our only Isaac have been offered up to the Rage, abominable Pride, and Emulation, of such most execrable Villanies, who rather than live themselves ( under a Pious, Peaceable, and Good Government ) in Hostile manner, would have most Inhumanely attempted to have taken away the Life of your most Sacred Majesty, and Dearest Brother, as by good and unquestionable Witnesses, hath been sufficiently Evidenced at a late Tryal against some of these Bloody-intended Assassins.

We therefore with hearts full of Joy, do most humbly, truly, and sincerely return our unfeigned Thanks to the great God of Heaven and Earth, for such your Majesties and Dearest Brother's Miraculous Deliverance and Preservation; and do hereby utterly detest, abhor and abominate all such Diabolical Practices and Combinations carried, or to be carried on by Factious Tumultuary Petitioners, or King-killing Conspiring Associates, or other Fanatical and Disloyal Persons whatsoever: And for the better Discomfiting and Rooting out such like generation of Vipers, we humbly pray Your Majesty, that as You have sufficiently manifested to the whole World that the Square of Your own Actions is and shall be agreeable to the Laws, that the said several Laws and Statutes be put in full Execution against all Diffusers and Conventicles whatsoever; That so once being United in the Church, it may be hoped the like will follow in the State, and then ( and not before ) shall King and People

fit down in Peace. Which God in Mercy continue amongst us, and guide, bless, and preserve Your Sacred Person, from the Violent hands of all Barbarous Regicides whatsoever, and give You a long, happy, and prosperous Reign, and grant that we may not want one of Your Sacred Line to Reign over us till this World shall be no more: In Defence whereof the Royal lawful Succession, and your Government in Church and State, as now established by Law, we are and shall be always ready to expose our Dearest Blood, and utmost Fortunes.

In Testimony whereof we have hereunto set our Hands, and affixed the Common Seal of our Incorporation, the 28th. day of July, in the xxxv. Year of your Majesties Reign, Annoq; 1683.

#### *Dread Sovereign,*

**W**Et he Mayor, Recorder, Magistrates, Free-men and Inhabitants of the Borough of East-Looe, being deeply sensible of the late Hellish and Damnable Design, contrived by Fanatical Dissenters, to murder Your Sacred Person, and Dearest Brother the Duke of York, to subvert our Church and Religion, and utterly destroy the best of Governments, having offered up to Almighty God our sincere thanks for his Gracious Prevention of so wicked a Conspiracy, most dutifully present our selves and Souls to Your Majesty, with an utter Detestation and Abhorrence of all such Principles and Persons, which under the mask of Religion, designed nothing but Murder and Rebellion, and under the plausible Pretences of Liberty and Property, aimed at nothing less than their total Subversion. And we most humbly implore Your Majesty, that since by the Discovery of this Horrid Treason, it plainly appears that Persons of Impious Fanatical Principles are not to be endeared by the mildest Government of Kings, that Your Majesty would be pleased to provide for Your Safety by an exemplary Punishment of the Guilty Offenders, and a Prosecution of those Laws which Your Princely Wisdom has thought fit to enact against their dissenting Brethren, that so we and the rest of Your Subjects that have found the happiness of a most Gracious Prince since Your Blessed Restauration, may never feel again the intolerable Plague of Democratical Tyranny, but enjoy a constant Peace and quiet under Your Majesties Government (which God long continue) and the Blessing of an uninterrupted Succession of Your Royal Family for ever governing these Three Kingdoms.

#### *May it please Your Majesty,*

**W**E the Mayor, Chief Steward, Magistrates, Free-men, and others Inhabitants of Your Majesties Borough of West-Looe in the County of Cornwall, having heard with great amazement, of a most Horrid Conspiracy contrived and carried on for the killing Your Sacred Majesty and Royal Brother, and designed for the utter Extirpation of Your Government by Impious Schismatical Dissenters, implacable Enemies to the Crown and Church, accustomed to Rebellions, and Religiously trained up to the Murder of Kings, did immediately prostrate our selves before Almighty God, with our Thanks and Praises to him for Your wonderful and happy Deliverance, the Safety of the Church, and the Preservation of Your best and Loyallest Subjects. And we do humbly now present our selves to Your Majesty, from a just sense of our Allegiance with the most sincere Assurances of defending Your Royal Person, Your Heirs and lawful Successors, and the present established Government, with as firm and fixed Resolutions, as the indispensable necessity of so high a duty can oblige, or gratitude justly command for the continued happiness of so good a Prince, most humbly beseeching Your Majesty, that since Providence hath been so gracious as to discover those Treasonable and Villainous Designs, that Your Majesty would be pleased to bring the Complotters to their deserved Punishments, that they whom Your Merc could never oblige, may find at last Your Justice can overtake, that so the remainder of Your years (which God make many and Glorious) may safely pass over in that greatness and Peace which the due Administration of Your Government and Clemency always hath deserved.

This shall be the constant Prayers of us, Your most Dutiful and Loyal Subjects.

#### *May it please your Majesty,*

**W**E Your Majesties most humble and obedient Subjects, the Inhabitants of your Borough of Mynehead in the County of Somerset, though perhaps the least considerable, yet having the happiness to be the Subjects of so Gracious a Monarch, with hearts full of Loyalty, and hopes of your Majesties Gracious acceptance; We humbly crave leave to follow that numerous train of Loyal hearts that have gone before us, with the signification of our hearty thanks to Al-

mighty God for the miraculous Deliverance of your Majesties Sacred Person, and your Dearest Brother, James Duke of York, from the Damnable Plots and Conspiracies of a Fanatical Brood hatched in Hell, and nursed by a second Achitophel, but defeated by the Great God of Heavens, to whom we continually pray to preserve your Majesty and your Dearest Brother, and that there may never want a Branch of your Royal Family to derive the Succession in the right Line to all succeeding Generations: And as we heartily pray for the Life of your Majesty and His Royal Highness, so we are, and shall be always ready and willing to the last drop of our Blood, and to the utmost of our small Estates (that the Ruines of our Trade with Ireland hath left us) to defend your Majesty and your Dearest Brother from all Associations, bloody Plots and Contrivances whatsoever. And as it hath been in former Parliaments, so whatsoever it shall please your Majesty to call a Parliament, it shall be our utmost endeavour to send such Representatives as are of undoubted Loyalty to your Majesty and Lawful Successors.

#### *To the King's most Excellent Majesty,*

*The humble Address of the Mayor, High Steward, Recorder, Aldermen, and Burgeses of the Borough of Evesham in the County of Worcesters*

**W**E your Majesties most Loyal and Dutiful Subjects, having with Astonishment heard of a most Treasonable, Bloody, and Damnable Conspiracy, against the Lives of your Majesty and most Dear Brother, contrived and carried on by Men of Factions, Atheistical and Diabolical Principles, for the involving these Nations in Blood and Confusion, the Extirpation of Monarchy, and utter Subversion of this Ancient and well established Government; Do with Hearts full of Joy, cheerfully Congratulate the happy Deliverance of Your Sacred Person, and Royal Brother, from those bloody and Impious Contrivances.

And as we have in Testimony of our Loyalty, laid our Charter at Your Majesties Feet, with our utter Detestation and Abhorrence of all Treasonable and Disloyal Associations and Confederacies, So we do now repeat such our Abhorrence, and do, and ever shall most solemnly Devote our selves, our Lives, and Fortunes, to the Defence of your Majesties Sacred Person, Your Heirs, and lawful Successors, and the Government established both in Church and State, against his and all other Treasonable Conspiracies and Practices whatsoever.

And we humbly implore Almighty God, That as His Providence hath signally appeared in your Majesties Preservation through the whole course of your Life past, So that the same may still support You, to adorn the Throne of Your Ancestors, with a long Life and happy Reign.

#### *To the King's Most Excellent Majesty,*

**W**E Your Majesties most Obedient and Loyal Subjects, the Mayor, Bayliff, Aldermen, and Capital Burgeses of the Town of Cardiff in the County of Glamorgan, being full of unspeakable Surprise at so monstrous a birth of a Fanatical and Rebellious Association, which would have terminated in the Assassinating of your Royal Self, and Dearest Brother, James, Duke of York, and the fatal Miseries which would necessarily have followed: Humbly beseech your Majesty, to accept of this our unfeigned Testimony of our real Rejoycing for Your Deliverances, hoping that such visible repeated Acts of wonderful Providence, will so Convince the World of God's fighting for You, that no Treason shall be hereafter contrived because of his Omnipiscency, nor attempted out of dread of that Power, which is apparently exerted in Your Preservation. And that Cursing of Kings in Bed-Chambers, and privately speaking Evil of them and their Governments, shall not fear only the detection of the Birds of the Air, but the discovery of those winged Spirits of Heaven, who are appointed by the Governor of the World to guard your sacred Majesty, being as an Angel of God. And that this execrable deep laid Plot, though dug as low as Hell, may be so discovered, and its Serpentine Jaws and Teeth so ground, by Your continued acts of Justice, that there may not be the least Particle of them left, which may be capable of raising a new flock of Armed Rebels. To the effecting of which, we do with truest Zeal from the most inmost parts of our hearts assure your Sacred Majesty, that we shall be diligent and faithful in searching for and discovering all Men, Words, and Actions, which have any way contributed, or do or shall endeavor to continue or palliate so great and monstrous a Villany, and orderly, zealously, and unanimously Pray, That God may never be so far provoked by our unthank-

Thankfulness, as to deprive his or our Children of the unspeakable mercy of so good a Prince, but may in peace and prosperity continue You and Your lawful Successors, in Your Hereditary and daily Merited Dominions, so long as the Earth shall endure. So pray

Dread Sovereign,  
Your Majesties most Loyal  
and Dutiful Subjects,

*Lintz, Sept. 14.* Yesterday arrived here the Baron de Holtz, from the Imperial Camp, who gives this short account of the Battle, of which he was an Eye-witness. That the Christian Army advancing in the Order agreed upon, toward Vienna, The Duke of Lorraine sent out some Troops to possess themselves of Kalemberg, an important Post; That part of the Turkish Army came out of their Lines and engaged the Christians, but that they were beaten back to their Camp with a great slaughter, the Christian Army advancing still in their order of Battle, but so slowly, that they were three hours marching one German mile; That being come to the Enemies Camp, the Pioneers under the protection of the Grenadiers and other detached Parties, were sent to throw down the Enemies Lines, which was done accordingly, the Turks that defended them being beaten from their Posts, and the whole Christian Army entered the Enemies Camp in Battalia; The Duke of Lorraine with some Regiments of Dragoons, and the Regiments of Foot of Baden and Grana, went immediately to the relief of the Town, which had endured a very furious assault, and falling upon the Turks, that made the attack, they were all cut in pieces, and the great Cannon, on the Batteries against the Scotch-Gate and Bastion, were taken. While this was doing on this side, the King of Poland attacked the quarters of the Grand Visier, and gained all the Posts, which opposed him; and thereupon the Enemy fled, leaving all their Tents, Baggage, and Cannon behind them, except some of their greatest Cannon which they had sent off. The Christians having obtained this great Victory, continued however in Arms, not being allowed the plunder of the Field till the next day, when there was no more danger of the Enemies rallying. The 13. early in the morning, the King of Poland, and the Duke of Lorraine, sent their Horse and Dragoons to pursue the Enemy; and just now arrived here a Courier, with the News, that the Christians having overtaken the Enemy, had obliged them to quit their Cannon, and had slain many of them, of which we must expect the particulars.

*Cologne, September 21.* Our Elector has by several Expresses received the happy news of the Defeat of the Turks before Vienna on the 12th instant. The account we have of it, is, that upon the approach of the Christians, part of the Turkish Army quitted their Camp, and met the Imperialists, whom they attacked several times, but were still repulsed. That the Christians made a halt when the Enemy came to charge them; but when the Turks turned their backs, the Christians still advanced without quitting their order of Battle; that having opened their way by the Defeat of these advanced Bodies of the Enemy; they attacked their Camp, and without any great opposition made themselves Masters of it, the Turkish Horse retiring towards the Evening in great Confusion, and leaving their Tents, Cannon, and Baggage behind them. In the mean time the Janissaries that had that day the guard of the Trenches, gave a very furious Assault to the Town, but between

the besieged (who likewise lost a great many men) and the Army, they were all cut off. The Christian Army stood all the night following in Battalia, and the next Morning the Horse and Dragoons were sent in pursuit of the Enemy; And the Emperor arrived at Vienna. The King of Poland had taken two Horse Tails, the great Standard of the Turks, and the Grand Visier's own Horse.

*Hamburg, September 21.* The King of Denmark is still at Rensburg, but will suddenly return to Copenhagen. We are told he is going to raise 5000 men. The Danish and French Fleet continue to cruise off of Bornbohm.

*Hague, Sept. 24.* We have received by several Expresses, an account of the signal Victory, which the Christian Army obtained against the Turks the 12. Instant, whereof we have the following Relation.

That the King of Poland, the Duke of Lorraine, and the other Generals, having adjusted all things in relation to the great Enterprize they were going upon, they advanced towards Vienna; That on the 10th. the Baron Mercy, who commands the Lorraine Troops, was sent out with 3000 men to learn news of the Enemy, and to post himself at Kalemberg; That the Grand Visier understanding that the Christian Army approached, sent out a body of men, to observe them, who having marched about two miles, their advanced Guard was attacked and beaten back by some Imperial Troops commanded by Colonel Heusler. 60 of the Turks being killed and eight taken Prisoners, with two small Field-Pieces; That the Prisoners reported, That the Grand Visier was resolved to maintain his ground before Vienna, and that he had with him 100000 men, though he had lost 80000 in the Siege. That on the 12. a great body of Turks advanced towards the Christian Army, which was marching through the Forest of Vienna, and attacked their Left Wing, but were very vigorously repulsed; That however this ill success did not dishearten them, from making a second attack upon the Troops of Bavaria, but these being seconded by those of Franconia, Saxe Gotha, and other Troops of the Empire, who had with them some Cannon, the Turks were forced to quit the Wood and to retire in great disorder, and being for the most part foot, and the Christians pressing hard upon them on all sides, and playing their Cannon upon them, few of them escaped, and nine Pieces of Cannon, which they had with them, were taken. The Christian Army having thus opened their way, advanced towards Vienna, and attacked the Enemies Camp, about two in the Afternoon, which they did with some brave at four several places, that the Enemy were put into great disorder, and their Cavalry fled, and their Foot, being environed by the Christians, were all slain, and the Enemies Baggage, Cannon, Tents &c. were taken. To secure this great Victory, the Generals did forbid all Plunder till the next day at Noon, when there being no more danger of the Enemies giving them any disturbance, they were allowed it, and the Spoil was great. The loss which the Christians sustained in this great Action, was very inconsiderable, and of Persons of Note we yet hear only of the Count of Trautmanndorf, and the Duke of Croÿ, and the Count of Scherfberg being wounded, the first mortally; Besides those slain in the Town, for the Grand Visier at

the same time that part of his Troops advanced to meet the Christian Army, caused a very furious assault to be given to *Vienna*, they were very bravely received by the Besieged, who encouraged with the approach of their relief, were not content to repulse them, but Sallied out and beat them out of the Ditch, and from the Counterscarp, and the Imperialists having by this time gained the Enemies Camp, the Turks were likewise attacked on that side, and all slain; of the besieged many were likewise killed, and of the Regiment of *Mansfelds*, all the Officers save one, and the Colonel of the Regiment of *Souebes* was wounded. The 13. the Emperor arrived from *Closter-Neubourg* at *Vienna*, and Solemn Thanks were returned to Almighty God for this great Deliverance. The *Poles* were not yet returned from the pursuit of the Enemy.

The Princes that were in the Christian Army on this great day, were the King of *Poland*, the Electors of *Saxony* and *Bavaria*, the Duke of *Lorrain*, Prince *Waldeck*, General of the Empire, two Princes of *Baden*, the Prince d'*Anhalt*, the Duke de *Croy*, the Prince de *Salme*, the Margrave of *Brandenburg Bareith*, the Landgrave of *Hesse*, the Prince of *Hanouer*, two Princes of *Neubourg*, four Princes of the House of *Saxony*, and three of *Wirttemberg*, the Prince of *Hohenzeller*, &c.

*Hague*, September 24. This State hath sent 8000 men to the Assistance of the Spanish Netherlands, of which 2000 will be put into *Gaunt*, and the rest into other places. The Deputies of the Council of State have been to visit the Frontier places of this State towards *Flanders*, and have made their report to the States General of the condition they found them in. The Fleet of this State, as we are informed, cruises to the Northward, to meet the Ships which our *East-India* Company expect home this year.

*Brussels*, September 24. Since the Account we gave you in our last of the defeat of the *Turks*, the Marquis de *Grana* has received no Letters from *Vienna*, from whence we are expecting an exact and particular Relation as well of what passed during the Siege, as of the great Victory obtained on the 13th. for which *Te Deum* was solemnly sung here on *Wednesday*, and then the Cannon were thrice discharged round the Town, which was again repeated at night; The like was done in the *French* Camp at *Leffnes*. The Letters we have from *Passaw*, *Ratisbonne*, and other places tell us, that when the Emperors Army entred the *Turkish* Camp, the Janisaries that were in the Trenches, sprang all the Mines they had ready, and gave a furious Assault to the Town, choosing to dye with their Swords in their hands, as they did, for they were all slain; that the Emperors Resident (whom the Grand Visier kept always by him) was left in the Visiers Tent, and had been killed among the rest, being in *Turkish* Habit, had he not been accidentally known, and that they were informed by him, that the Visier had there two millions of Crowns of his own, besides the Treasure of the Grand Signior. The Letters add, that they were expecting an account of what had passed in the pursuit of the Enemies Horse, who had several Rivers crossed, which had no Bridges.

Marschal d'*Humieres* continues at *Leffnes*, his Army increases daily, and the great Cannon and Mortars were yesterday expected in his Camp, his Troops forage as far as *Engbien*, where the Marschal and the Baron de *Quincy* were on *Wednesday* last to mark out (as is thought) a new Camp. Monsieur *Montal* is still encamped at *la Buffieres*, his Troops Forage round the Country. And Monsieur *Melac* is with 1500 Dragoons in the Country of *Limburg* raising Contributions. The Dutch Troops which the States General have sent to our assistance, are encamped at *Humbecke*, between *Malines* and the Canal of *Brussels*.

*Paris*, September 25. Our Letters from *Germany* give us an account of the great Victory obtained by the Christian Army against the *Turks*, of which we expect our next will give us a particular Relation. Monsieur du *Quesne* has done great Execution with his Bombes at *Argiers*. The Marschal d'*Humieres*, as our last Letters tell us, was still encamped at *Leffnes*.

*Deale*, September 17. Yesterday sailed out of the *Downes* His Majesties Ship the *Tyger* to the Westward; at the same time sailed about nine or ten Merchant Ships outward bound.
