NOTICE TO MARINERS.

NAVIGATION OFF LOWESTOFT.

Trinity-House, London, July 11, 1831.

THE Holm Sand having recently gathered to the S. S. Westward, this Corporation has caused the Stanford Vane and Beacon Shoal Buoys to be moved in that direction. In consequence of this alteration of the Sand, directions have been given for moving the Low Light at Lowestoft, in order that the two lights thereat may, when brought in one, lead vessels into the Southern entrance of the Stanford Channel; and until this alteration of the position of that light shall have been effected (of which due notice will be given), Masters of vessels, Pilots, and others entering that Channel from the Southward, are to observe, that the High Light must be kept considerably open to the S. S. Westward of the Low Light.

The Corporation having also taken into consideration the advantages which would result from enabling vessels to navigate the Inner Channel, between the Newcome and the shore, during the night, have resolved to cause the same to be effected accordingly; and for this purpose a small light will be exhibited from a building to be erected near Pakefield, by which, together with the lights at Lowestoft (after the intended removal of the Low Light) and the Stanford Floating Light, vessels may be navigated into and out of Yarmouth Roads, through the said Channel, during the night time. Farther particulars, in respect of these intended alterations, with the necessary sailing instructions, will be published in due course.

Directions have also been given for placing the two following additional buoys, viz.

A black buoy, on the N. Western side of the Newcome Sand, on a shoal spot about midway between the two present black buoys.

A white buoy, opposite the shoalest part of the Sizewell Bank, near Aldbro'.

By order,

J. Herbert, Secretary.
