Vienne, February 5.

OUR last Letters from *Newfol*, the Head Quarter of the Imperial Troops in *Hungary*, gave an account that Count *Rabata* was marched with 10000 Men and several pieces of Cannon to cut off the Convoy which the *Bassa* of *Buda* was sending to *Newbeusel*; since which we are informed that the Imperialists having taken a Messenger who was carrying a Letter from the *Bassa* of *Buda* to the Governor of *Newbeusel*, which gave advice, That he was sending 200 Wagons with Provisions, under the Convoy of 6000 men to their relief, and ordered him to send out part of his Garrison to meet them; Count *Rabata* had upon this Information caused part of his Troops to advance under the command of Count *Caraffa* towards *Newbeusel* to secure the Passages thereabouts, and had posted himself with the rest near *Lewentz*. Count *Teckelej* has summoned the Nobility of Upper *Hungary* to join with him for the defence of their Country, threatening to treat those that do not with the greatest Severity; He has likewise written to all the Towns and Communities in Upper *Hungary*, to assure them of a powerful Protection the next Campaign. And it is reported that he hath taken the Castle of *Ungwar* in which was the Count *Humani*, and that he hath put him to death.

Lintz, February 9. The Prince de *Lubomirski*, who during his stay here, assisted at several Conferences concerning the Preparations for the approaching Campaign, parted from hence some days ago in his return for *Poland*, having received 100000 Florins, as well for what was due to him on account of the Troops he brought the last year into the Emperors Service, as for the new Levies he has undertaken to make. The Baron *Zierowski*, the Emperors Ambassador to the Czars of *Moscow* is upon his departure; and the Baron *Bedicke*, whom his Imperial Majesty is sending to *Periss*, will likewise begin his Journey in few days. We have had several reports of the Grand Viceroy having been strangled on the 23th of December last at *Belgrade*, and the same news comes now from *Poland*, so that we begin to give credit to it. From *Hungary* they write that the Troops of *Lithuania* had destroyed all the open places in *Zipperland* and about *Esperies*. And that Count *Teckelej* was marched towards *Poddacka*. What was said of his having caused the Count de *Humani*'s Head to be cut off, is not certain.

Ratubonne, February 10. Our Letters from *Lintz* give us an account that the Count d'*Altheim* and the Baron d'*Abele* were parted from thence for *Presbourg*, and that the Duke of *Lorraine* would follow about the 18th of this month, a Great Council of War being appointed to be held at *Lintz* the 16th. The Letters from *Hungary* tell us, that the Turks having notice of the march of Count *Rabata*, had for the present laid aside their design of sending the great Convoy they had prepared to *Newbeusel*, and that General *Rabata* was thereupon come back to *Newfol*. The same Letters add, that 40 Sledges laden with Provisions, had in the night got into *Newbeusel*, it not being in the power of the

Imperialists to hinder it. From *Grasdenip* the 27th past, they write, that after the several reports, they had had of the death of the Grand Viceroy, they had now an account from very good hands, that he was strangled at *Belgrade*, with two other *Bassa*'s by the *Aga* of the Janisaries on Christmas day, and that their Heads were sent to the Grand Signior. And that *Canisky* General of the Col- sacks, after having made great Spoils upon the Turks and Tartars, had given leave to his Troops to carry home their Booty, so that there did not remain with him above 7 or 8000 men, of which the Turks having notice, they fell upon him with a Force much Superior to his; that the said *Canisky* fought with them three days together, and then retired into the Woods, resolving, so soon as he had got all his Forces together again, to take his revenge upon the Enemy.

Hamburg, February 19. The Count de *Kamberg*, the Imperial Minister, is arrived at the Court of *Saxony*; from whence he is expected towards the latter end of this month at *Berlin*. From *Copenhagen* they write, that the Commissions for the new Regiments the King has resolved to raise, are all given out, and that the Officers are gone to make their Levies. The Polish Letters tell us, that the Collocks have made their Incursions as far as the *Danube*, where it falls in several Branches into the Black Sea; and that they have made a very great spoil in those Parts. The King of *Potand*, according to these Letters, was still at *Cracow*, directing the Preparations for the next Campaign, which are said to be very great.

Brussels, February 18. Monsieur *Del Val* is returned hither from *Hanover*, and the Marquis de *Hounsbrooke* is in few days expected back from *Cologne*. Monsieur de *Montal* hath had this week, a review of his Troops near the Castle of *Sorle* between the *Sambre* and the *Mense*. And from *Lilly* we have an account that 10000 men will be drawn out of the new Conquests and sent towards *Catalonia*, where they are to serve under the command of the Marechal de *Belfonds*. Our Letters from *Germany* and *Venice* tell us, that the *Aga* of the Janisaries, had, by order from the Grand Signior, strangled the Viceroy at *Belgrade*; that his Successor was not yet named; and that in the meantime the *Caimasda* had the direction of Affairs.

Brussels, February 22. The Marquis de *Gran* has sent Monsieur *Del Val* to the *Hague*, to assist at the Conferences that are held there. We have advice from *Limburg*, that the French have burnt several Villages in that County. The Sieur *Foufeca* hath again taken the general Farm of the Customs, for which he is to pay 1500 thousand Florins yearly.

Hague, February 19. The 7th Instant the Marquis de *Cassel* Moneysa Envoy Extraordinary from *Spain*, presented a Memorial to the States General, wherein he presses them to enter into a War against *France*, and in the mean time to assist the King his Master with all their Forces by Sea and Land. The 9th the Count d'*Arques* Ambassador from *France*, gave in to the said States an answer in writing to what had been proposed to him by their Deputies, concerning a Cessation of Arms for four or two months.

months. And on the 17th he presented to them a Memorial, wherein he acquainted them by order of the King his Master, That his most Christian Majesty does persist in the offers he has made by his Minister at *Amsterdam*, by a Truce for twenty years, and ~~on the 17th of November~~ will content himself with one of the Equivalents proposed by his Ambassador here on the 17th of November last, or else will agree to a Truce for twenty years with that Crown, in the same manner as he has offered to the Empire. That if this State will engage that *Spain* shall within three months accept one of the said Equivalents, or the said Truce, His Majesty will immediately cause Hostilities against that Crown to cease, upon condition that *Spain* do not within the said three months accept either of these Proposals, the Troops which the States have now in *Flanders*, shall be only employed for the defence of the Places which the Catholic King possesses there, and that they shall not give him any farther assistance against his Majesty or his Allies, and his Majesty will oblige himself not to attack or take any place in the Spanish Netherlands, and farther will cause Hostilities to cease in this spot Country, if the Spaniards do abstain from them. That farther his Majesty will consent to a Suspension of Arms in *Flanders*, as long as the present War shall continue; and will not attack any place there, if the States will engage that the Troops they have now in *Flanders* shall be only employed in the defence of the Spanish Places there; and that they will not give any farther assistance to the Crown of *Spain*.

Hague, February 22. The States of *Holland* had a very warm Debate in their Assembly on the 16th instant, concerning the Deputies of *Amsterdam*, whose Papers they ordered to be sealed up. And that night late the said Deputies left this place, and returned home. And the next day the States of *Holland* adjourned for several days. *Zealand* has not yet consented to the New Levy, and, it's said, the Towns of *Middelburg* and *Ziericzee* do particularly oppose it. We are told that the City of *Amsterdam*, in their Protestation against the said Levy, do declare that they cannot look upon the Resolution that hath been taken therein, as an Act of the States of *Holland*, seeing it ought according to the fundamental Laws and Constitutions of the Government to have been by unanimous consent of all the Members; and that they do not intend to contribute any thing to the charge of the said Levy. From *Cologne* they write that that Elector encreases his Forces.

Paris, February 19. The 17th instant the Marquis *de Fereux* Ambassador from *Savoy*, had a public Audience of the King; at which he gave His Majesty thanks in the name of the Duke his Master, for consenting to his Marriage with Mademoiselle. After which he had an Audience of the Duke of *Orleans* on the same subject; and then of the Dauphin, the Dauphiness and Madam, to acquaint them with the said Marriage. The King has given out Commissions for the raising 12000 men, whereof 3000 Horse are to be incorporated into the old Regiments. His most Christian Majesty hath given the Marquis *de Estrées* Vice Admiral of France 100 thousand *Livres*, and a Pension of 4000 *Livres* to the Count *de Estrées* his Son. The Marquis *de Belfonds*, who is to command the Kings Forces in *Catalonia* the next Campaign, has received 30000 *Livres* for his Equipage, and will, it's said, part hence the beginning of the next month. The Marquis *de Chevreny* Envoy Extraordinary to the Emperor, began his Journey some days ago for *Linz*. The Count *de Choiseul* is likewise passed from hence, being desired by the Elector of *Cologne* to command his Forces in *China*. It is said that the Pope has borrowed three Millions of Crowns of the

State of *Genoa*, to be employed in the War against the Turks.

Deal, February 12. Yesterday in a great Fog, a Ship came on ground on the *Goodwin*; several Boats went immediately from hence to her relief, and found it was a French Man of War of about 30 Guns, whom they got off without any considerable damage.

Plimouth, February 14. We hear that six or seven Ships have within these few days been cast away to the Westward of this place, but we have not as yet any account what they are.

London, February 14. This day a Tryal was had at the *Guildhall* before my Lord Chief Justice *Jeffreys*, upon an Information exhibited against Sir *Samuel Bernardiston*, for writing and publishing in four Letters to several Persons in the Country most Scandalous and Seditious Reflections against the Government, and concerning the late Horrid Conspiracy, of which he was upon a full Evidence found Guilty.

A Tryal was likewise had upon an Information against *Langley Curtis*, for Printing and Publishing a Scandalous and Seditious Pamphlet, called, *The Night-Walker of Bloomsbury*, and he was found Guilty of the same.
