

The London Gazette.

Published by Authority.

From Monday March 3. to Thursday March 6. 1683.

Turin, February 16.

THE Marriage between the Duke of Savoy and Mademoiselle Daughter to the Duke of Orleans, was declared here the last week, upon which his Highness has received the Compliments of the Popes Nuncio, the *Abbé d'Estades* Ambassador of France, and the other Foreign Ministers residing at this Court. The Count de *Majano* will part from hence in few days, with the Presents which the Duke of Savoy sends to Mademoiselle, and we are told, that the Marriage will be celebrated some time the next month. Most of the French Troops that had their Quarters on this side, are marched towards *Catalonia*.

Venice, February 19. We are told that the Senate have sent a full Power to their Ambassador at *Lintz*, to sign the League against the Turks; and that the Polish Minister at that Court will be empowered to do the like on the part of the King of *Poland*, who has agreed to all that was desired of him by the Confederates. It is said the great Duke of *Tuscany* will likewise come into this Alliance, and that he will not only join his Gallies with the Fleet of this State, but will likewise contribute in Money towards the War; for which great Preparations are making here. Our Letters from *Turkey* give us an account that the Grand Signior had, with much difficulty, been brought to give order to have the *Vizier* Strangled, and that nothing but the absolute necessity there was to satisfy the *Janissaries*, who were ready to mutiny, and threatened a great and sudden Commotion, could have prevailed with him. That for the same reason the Grand Signior had declared he would the next Campaign, command his Army in Person; But that the People continued notwithstanding very averse to the War, so that the Officers who were sent about to raise men, met every where with much opposition. From *Dalmatia* they write, that the *Morlaques* were above 12000 strong, and that with the help of the Horses they had taken from the Turks, they had formed a very considerable Body of Cavalry.

Dantzick, February 21. We have Letters from *Moscow*, of the 14th of the last month, which tell us, That the Eldest of the two Czars was married the week before to a Lady of very Noble Extraction, and allied to most of the Great Families in *Poland*, which is a thing not usual in *Moscovy*, those Princes being accustomed to chuse their Wives among the lowest of their Subjects. That the *Sieur Profing* Envoy Extraordinary from the King of *Sweden*, was arrived at that Court, and had had his Audience of the Eldest Czar (the youngest being indisposed) to whom he had declared the great value the King his Master has for his Friendship, and that his Majesty was sending a solemn Embassy to *Moscow*; and that the said Envoy had afterwards been in Conference with the Chief Ministers of that Court, and among other things, had represented to them several weighty reasons that might induce the Czars to make use of this favourable

conjuncture, to recover what the Turks took from them in the last War.

Lintz, February 24. It is reported here, that several Wagons with Provisions are got into *Newbeusel*, but without any certainty; The last Letters from *Newsol*, the Head Quarter in *Hungary*, told us, that the Turks had indeed prepared a great Convoy for that place, but that bearing that Count *Teckley* had been attacked and pursued several miles by the Troops of *Lithuania*, and the Imperialists they durst venture no farther than *Vaccia*. Our next Letters from *Presbourg*, will we doubt not give us an account of the Duke of *Lorraine's* arrival there, and that the Imperial Commission hath been opened.

Ratibonne, February 24. They write from *Graz* in *Hungary*, that a Jew who was come thither from the Turkish Territories, had not only confirmed the account they had before of the Grand *Vizier's* being Strangled at *Belgrade* the 25th of the last month, but reported withal, that there were great Discontents among the *Janissaries*: That the Grand Signior had caused their Pay to be doubled, and farther to satisfy them, it was given out, he will command them in Person the next Campaign. That it was said he will bend all his Force against *Hungary*, to repair the Disgraces of the last year, and that all possible endeavours were used throughout the Ottoman Empire, to raise Men and gather Provisions; but that according to all appearance, the Turks will not be able to bring so great an Army into the Field this Summer as they did the last, or if they do, they will be raw undisciplined men. We have other Letters that inform us, that the King of *Poland* makes likewise great Preparations on his side; That he will have an Army of 50000 men of his own Troops, with which he will act either in *Podolia* or *Hungary*, according as the Enemy turn their Forces. The News of the great Successes of the *Cossacks*, and of the *Moldavians* and *Walachians* having put themselves under the Protection of the Crown of *Poland* is confirmed; and there is a report that the *Transilvanians* are treating with the King of *Poland*, which we shall be glad to have confirmed. The Troops of *Lithuania* are on their march, and we hope ere it be long, to have an account that they have made themselves Masters of *Caschau* and *Esperies*, the only considerable Towns which the Rebels remain possessed of in upper *Hungary*. We have had no certain news of Count *Teckley* since the precipitate retreat he was forced to make about a fortnight ago to avoid an Engagement with the Troops of *Lithuania*, who followed him several miles, and falling upon his Rear, killed many of his men.

Hamburg, February 21. The Count de *Berka*, Envoy Extraordinary from the Emperor to the Kings of *Denmark* and *Sweden* is still here, and has frequent Conferences with the Duke of *Holstein Gottorp*, to dispose things to an accommodation between the King of *Denmark* and him. The Letters from *Dantzick* tell us, that according to their advices from *Poland*, no doubt was made, but the *Moscovites* would come into the War against the Turks; and that the Polish and *Moscovite* Commissioners

missioners that are now met at *Smolensko*; having adjusted the Preliminaries, were entred upon the main Points of their Commission, with that disposition on both sides, that there is great reason to believe their Conferences will have a very good, and speedy Conclusion. They write from *Berlin*, that the Count de *Lamberg*, the Imperial Envoy, hath had several Conferences with the Ministers of that Court, but do not tell us with what Success.

Cologne, March 3 The Sieur *Fuchs* Envoy Extraordinary from the Elector of *Brandenburgh*, parted from hence yesterday for the *Hague*; whether the Elector of *Cologne* is likewise sending the Baron de *Plewendorf*. The Baron de *Hoensbroeke*, the Spanish Minister, continues still here; He has it's said, desired our Elector to grant the Troops which the Duke of *Hanover* has undertaken to furnish for the assistance of the Spanish Netherlands, a passage through his Electoral Highnesses Territories, but we do not hear that he has obtained it. The Count de *Choisul*, who is coming hither from *France* to command our Electors Forces, is not yet arrived; but we are informed that several Troops have, in the mean time, orders to march towards *Rhinberg*, where his Electoral Highness intends to have a Camp of 6 or 7000 men. Our last Letters from *Lintz* gave an account that the Emperor had appointed the Count de *Caprara* and Count *Passi* to command his Forces in *Hungary*. That the Troops of *Lithuania* were actually on their march to attack *Caschau* or *Esperies*, after having obliged Count *Teckley* to retire in great disorder and with considerable loss. That the Turks are providing great Magazines at *Belgrade*, and make their utmost Efforts to bring a great Army into the Field this next Summer.

Paris, March 8. Monsieur de la *Vauguion* late Ambassador from this Crown at the Court of *Spain*, is returned hither. The Kings Journey continues fixed for the beginning of the next month, and in the mean time the Troops of the Household march towards *Flanders*; from whence we have an account that the Spaniards have burnt several Villages belonging to *Lille*; and that the French Troops, under the command of Monsieur de *Montal*, have done the like on the side of *Wallon Brabant*. We are told that the *Genoueses* are fitting out several men of War, as well as Gallies.

Whitehall, February 28. His Majesty having heard several Relations of the great Distress some of his Subjects have lately been in at Sea, for want of Fresh Water, hath been pleased, for their relief in such Cases, to command the Patentees for the new Invention of making Sea-water Fresh, to give the most publick notice they can, of the usefulness of the said Invention, of which His Majesty has received so great satisfaction, that His Majesty is pleased that these Instruments shall be provided for his Ships and Gallies, where they are not naturally provided with good Water. And in Obedience to His Majesties Order, the Patentees do hereby give notice, that two Treatises have been written on this Subject, which may be had at the Ship against the Royal Exchange, and at the Marine Coffee-house, whereunto all Persons are referred for more particular Information, in which the great Benefit and many Conveniences of this Invention, the easiness, both as to the trouble and expence of making the Salt Water Fresh, and the wholesomeness thereof, is clearly demonstrated by the Testimony of many eminent Physicians; to which is added a Letter written by the Honourable Mr. *Boyle*, by which he asserts the wholesomeness, durability, and sweetness of this Water; and a

Letter from Captain *Randoll Mac Donnel*, of the third of *November* 1683. from on Board the Greyhound Frigate near the Coast of *Spain*, wherein he affirms that he kept of the Patentees Water some that was given him in his Ships Hold from his leaving *England*, being four months, and then having several Officers on Board him, gave them a taste of it, pretending it to be of the Spring near *Sally*, where he had watered, and which is as good as the best in the *Sreights*, and they drank of it as such, till he discovered what it was, and then they approved of it, to be as good as could be drunk.

Whitehall, March 1. His Majesty has been pleased to confer the Honor of Knighthood upon *Henry Proger* Esq; His Majesties Serjeant Porter.

HIS Majesty having been Graciously pleased to Grant his Letters Patents to Mr. *Richard Haynes* and Partners, to have the sole Use and Benefit of their late Invention, for the improving of Syden, and the Juice of *G. o. berries*, Currants, &c. The said Patentees have exposed their Invention, and the manner and method thereof in Print, whereby they show how simple Syden frequently sold for 30s per Hogshead, may be made as strong, wholesome, and pleasing as French Wine, without adding any thing to it, but what is of the Juice of Apples; and how to raise Apple-Trees, Gooseberries, &c. beyond what hath been heretofore made known; together with the Patentees Resolutions to make their said Invention free to all Persons, upon very easie Terms therein mentioned; which Books are to be had at the Marine Coffee-house in *Burchin-lane* near the Royal Exchange.

HIS Majesty has been pleased to Grant to *Christopher Lord Teynham* and his Heirs for ever, one Market to be held the first Tuesday in every Month, and two Fairs yearly, the first of which to be on the first day of May next, and the other on the eighth day of September next following, for the buying and selling of all manner of Cattle at *Greenstreet* in the Parishes of *Wylsted* and *Teynham* in the County of *Kent*, and accordingly the first Market will be kept the first Tuesday in April next.

Dover the 26th of February, upon a Hue and Cry lately sent to this Town, mention was made of several Horses stolen, and suspected to be brought hither. His Majesties Justices commissioned for the Government of this Town and Port, causing a strict Enquiry and Search to be thereupon made, have seized and taken into their Custody, a dark Bay Nag, with a mealy Nose, a Star in his Forehead, a little white upon the farther Foot behind, 14 hands high, six years old, which is suspected to be one of the said Horses. And to the end that the right owner may have him, and the Thieves and their Complices be apprehended, this notice is given.

Advertisements.

UPON Thursday the 20th of this Instant, will be exposed to sale by way of Auction, the Libraries of *Dr. Jasper Gunter*, and of another Gentleman deceased, consisting of *Physick*, *Mathematics*, *Law*, and *Historical Books*; Latin and English, at the Auction-House in *Ave-Mary-Lane* next against the Black Swan near *Ludgate* Street, by *Edward Milington*.
