Leopol, March 31.

THe 18th Instant the Tartars made an inroad on the side of *Niemtow*; but the Cossacks commanded by their new General *Mobila*, fell upon them and forced them to retire with considerable loss. It is reported that the

Turks are laying three Bridges over the *Danube*, and that they will fall into *Podolia* with a great number of men, but it does not deserve much credit. The King of *Poland* will have an Army of 60000 men in the Field this Campaign.

Warsaw, April 7. They write from the Polish Court, that the King having held a great Council of War, it had been resolved to encrease the Forces of this Kingdom to 60000 men; And to erect two Magazines for them, one at *Leopol*, and the other at *Bialacierkiew*. That the King had received very kindly the Deputies from the Cossacks; and having confirmed their new General *Mobila*, had dismissed them with Presents, and with a sum of Money sent them by the Pope. That the Cham of *Tartary*, whom the Turks deposed after the Siege of *Vienna*, hath sent to the King of *Poland*, to desire his Protection. That on the 25th of the last month the *Sieur Dakezniski* was dispatched for *Venice* with the King of *Poland's* Ratifications of the League against the Turks. And that on the 26th the Persian Ambassador had an Audience of his Majesty at *Fawarow*.

Vienna, April 16. The Turks seeming resolved to attempt at last the Relief of *Newbeusel*, which all our advices say is in great distress, the Imperial Generals in *Hungary* have taken particular care to secure all the passages, and several Regiments are marched towards *Novigrad*, near which place the Turks are drawing together. Colonel *Heusler* is with some Troops in the *Upper Hungary*, and hath forced the Rebels to retire. We continue to work with all possible diligence on our Fortifications, the Bastion of the Court is almost finished, and we have begun to work on the *Lebel* Bastion, and the *Ravelin* that lies between these two Bastions. The Count de *Vecchi* is very busie here in fitting out the Gallies and other small Vessels that are to be employed under his command on the *Danube*.

Lintz, April 16. The Elector of *Bavaria* who arrived the 14th instant, purposed to stay here some few days only, and then to return to *Munick*; His Highness has assisted at the Councils of War, that have been held since he came. The Rendezvous of the Imperial Army is fixed for the 20th of the next Month near *Gran*; And things are preparing for the beginning of the Campaign with some great Action. The last Letters from *Neusol* gave an account, that the Baron de *Mercy* and Colonel *Heusler* have forced the Rebels to quit several Posts which they had taken in *Upper Hungary*, and that another Body of Imperialists was marched towards *Novigrad*. Here are two Deputies from Count *Teckelej*, and another from the Prince of *Transylvania*; and the general discourse is, that an Accommoda-

tion is Treating. The Count de *Staremburg*, Governor of *Vienna*, parted from hence yesterday. Our Advices from *Turkey* continue to assure us, that the Affairs of the Turks are in so ill a posture, that it will be impossible for them to bring any great Army into the Field this Summer.

Lintz, April 18. The Emperor holds his resolution to remove from hence the beginning of the next Month, but it is not certain whether it will be to *Crembs* or *Neustadt*. Yesterday arrived here the Count d' *Esterbasi*, Palatine of *Hungary*; He hath had an Audience of the Emperor; and after a short stay here will return for *Hungary* to assemble the Militia of that Kingdom. From *Neusol* we have an account, that the Regiments of *Heusler*, *Veterans*, and *Mercy*, are marched to secure the passages about *Newbeusel*, which place is said to be in so great want of Provisions, that if it be not speedily relieved, the Turks will be forced to surrender it upon any Terms. The Elector of *Bavaria* will part again from hence the 26th Instant, to go to the Rendezvous of his Army, which is appointed to be at *Scardingen*. It is said that part of his Troops and those of the Circle of *Francia* will march towards the *Rhine*.

Berlin, April 22. The Heer de *Groot*, who was sent by the Princes of *Luxemburg* to this Court upon the Danish Troops, taking Quarters in the Duchies of *Lauenburg* and *Mecklenburg*, is gone home again, somewhat dissatisfied, as we are told, with the answer he received. His Electoral Highness has it's said, given orders for the march of the Troops which he has resolved to send to the assistance of the King of *Poland*.

Cologne, April 25. Our Electors Troops have orders to march to *Rhinberg*, where a Camp is marked out for them and we are assured that they will make together a Body of 25000 men. The Bishop of *Strasbourg* parted again from hence on Sunday last for *Nuss*, from whence he intended to go to *Keyserwerde* and *Rhinberg*. The Electors of *Mentz* and *Trier* have made a Neutrality with the French. From *Lintz* they write, that the Imperialists after an attack of two days, had taken *Novigrad* in *Upper Hungary*, between *Gran* and *Paccia*.

Hamburg, April 25. Several *Brandenburg* Regiments have likewise taken their Quarters in the Duchy of *Mecklenburg*. The Dukes of *Luxemburg* raise men; And it's said they will have an Army of between 20 and 24000 men; Most of their Cavalry are encamped along the *Elbe*. The King of *Denmarke's* Troops begin to march towards *Holstein*; And it's said his Majesty will part from *Copenhagen* the beginning of the next Month. We do not hear that his Majesty will have any considerable Fleet at Sea this Summer.

Brussels, April 28. Our Letters from *Lille* and other places in the French Conquest tell us, that his Most Christian Majesty was expected last night at *Cambray*, and that his Majesty will be to morrow at *Valenciennes*, and on Sunday at *Condé*, from whence he will go the day following to take a review of his Troops in the Plains of *Quevrain*; after which we may soon expect to hear of action; The general conjecture is, that *Luxemburg* will be besieged. At

Now all things are disposing for a vigorous defence of the Place; The Governor has raised several Companies of the Inhabitants, who are to receive Pay, and are to be commanded by the Prince de Raches nephew; And two Deputies are come hither from the Magistrates, to pray his Excellency to send some more Troops thither to reinforce the Garrison. The Commons of this City consented yesterday to the Extraordinary Subsidy of 800 thousand Florins which his Excellency lately demanded of this Province, and which the States have already agreed to. Our last Letters from the *League* told us, that the Prince of Orange would part from thence towards the latter end of this week, and that his Horses and Baggage were already sent away. From *Luxemburg* they write, That some Troops of that Garrison having fallen upon part of the Regiment of *Bocquincourt* in their march towards *Cologne*, killed 80 of them and took 50 prisoners. We have likewise advice that 50 French Boats, laden upon the *Moselle* with Ammunition and Provisions, and designed for *Bonne*, have been stoppt by the Governor of *Herbresheim*, who said he could not suffer them to pass without an Order from the Emperor; and that the French were thereupon obliged to get Wagons to carry the said Provisions by Land.

League, April 28. The 25th Instant the Ministers of the Allies and the Deputies of this State, had a long Conference; and the next morning the Marquis de *Castel Moncajo*, and the Baron *Del Val* parted from hence for *Brussels* to confer with the Marquis de *Grana* upon what passed in the said Conference. The States of *Holland* are now assembled; but have not yet taken a final resolution about the Papers of *Amsterdam*, which continue Sealed up. The Deputies of the States General and those of the Admiralty, have made a Project for the fitting out 36 Men of War, which they have laid before the said States. The 24th Instant parted from hence the Prince of Orange's Baggage for *Brabant*; And it's said his Highness will follow himself in few days.

Paris, April 29. The 22. Instant the King, accompanied with the Dauphin and Dauphiness, parted from *Versailles*, that night they lay at *Louvre en Paris*; the next at *Pont St. Maixence*, the 24th at *Mouhy*, where they staid the next day; The 26th the Court was at *Roye*, and the 27th at *Peronne*, and yesterday his Majesty was to be at *Cambray*. The Duke and Dutchess of *Orlenance* are at present at *St. Clou*, from whence the Duke will part in few days to follow his Majesty. The Popes Nuncio is likewise preparing to follow the Court. In the mean time the news here is, that the King will besiege *Luxemburg*; and it's reported that the place is already invested. The Army which his Majesty will command in Person, is to consist, according to the List that hath been given out, of 43 Battalions, and 129 Squadrons, among which last are 18 of Dragons, and 20 of the Troops of the King's Houhold. The Army commanded by the *Marschal de Crequi*, is composed of 15 Battalions, and 32 Squadrons. And besides 8 Battalions and 9 Squadrons are ordered to march towards *Cologne* to join the command of the Marquis de *Ravi*, to whom, as is said, the Troops of that Elector. The Duke of *Mortemar* parted from hence some days ago for *Marsilles*, being to command the Kings Gallies under *Monsieur du Quesne*. We have an account that the Dutchess of *Savoie* hath passed *Rouays* and *Tarras*, and that her Royal Highness will be the second of the next Month at *Lyon*. They write from *Perpignan*, that the *Marschal de Belfonds* arrived there the 9th of this Month; and that the Troops he is to Command were drawing together near that place.

Plymouth, April 18. Yesterday came into this Port a Privateer of Ofsend of four Guns to stop a Leake, caused by a Shot from a French *Man of War*, who had chased him several hours.

Portsmouth, April 20 This morning sailed from *Spitthead* for the Downs the *Centurion* and *Myrmale* Frigats. There is now at *Spitthead* the *Mountague*, Captain *Killigrew* Commander, who will likewise sail this afternoon for the Downs.

Westminster, April 21. This day *James Halloway* (who upon the discovery of the late horrid Conspiracy, fled to *Neway* in the *West Indies*, and being there seized, was sent a Prisoner hither) was brought from *Newgate* to the *Kings Bench Bar*, and being asked what he could say, why Execution should not be awarded against him, he standing attainted by Outlawry upon an Indictment of High Treason for Conspiring the Death of the King, &c. He desired to hear the Indictment read, which being done, Mr. Attorney General acquainted the Court, that His Majesty was Graciously pleased in Mercy to the Prisoner, to waive the Outlawry, and to allow him liberty to make his defence upon a Tryal, if he were able to make any. But he having nothing to say for himself, and confessing the Indictment, the Court made a Rule that he should be Executed at *Tyburn* on Wednesday sevenoight.

Mr. *Lawrence Braddon*, and Mr. *Hugh Speke* who were Tried the last Term upon an Information for a most malicious and scandalous practice to Alperse the Government in conspiring together by Writing and otherwise, to spread a False Report, That the *Earl of Essex* was Murdered in the Tower by some Persons about him, and endeavouring to Suborn Witnesses to prove the same; And were found Guilty, Braddon of the whole Information, and Speke of all but the Subornation; Were this day brought to the *Kings Bench Bar* to receive the Judgment of the Court, which was, That *Braddon* should pay a Fine of 2000 l. and *Speke* of 1000 l. 10 the King; and that they should find Sureties for their Good Behavior during their Lives, and should be committed to the *Kings Bench Prison* till this be performed.

Then *Langley Curtis* who was Convicted the last Term for Printing a scandalous and seditious Pamphlet, called the *Lord Russels Ghost*, or the *Night Walker of Bloomsbury*, was fined 500 l. and ordered to stand in the Pillory on Saturday next in *Bloomsbury Market*, and the said Libel is to be then burnt by the hands of the Common Hangman.
