Leopol, March 31.

**T**He 18th Instant the Tartars made an inroad on the side of *Niemtow*; but the Cossacks commanded by their new General *Mobila*, fell upon them and forced them to retire with considerable loss. It is reported that the Turks are laying three Bridges over the *Danube*, and that they will fall into *Podolia* with a great number of men, but it does not deserve much credit. The King of *Poland* will have an Army of 60000 men in the Field this Campagne.

*Warsaw, April 7.* They write from the Polish Court, that the King having held a great Council of War, it had been resolv'd to encrease the Forces of this Kingdom to 60000 men; And to erect two Magazines for them, one at *Leopol*, and the other at *Bialacierkiew*. That the King had received very kindly the Deputies from the Cossacks; and having confirm'd their new General *Mobila*, had dismiss'd them with Presents, and with a sum of Money sent them by the Pope. That the Cham of *Tartary*, whom the Turks depos'd after the Siege of *Vienna*, hath sent to the King of *Poland*, to desire his Protection. That on the 25th of the last month the *Sieur Dakezniski* was dispatch'd for *Venice* with the King of *Poland's* Ratifications of the League against the Turks. And that on the 26th the Persian Ambassador had an Audience of his Majesty at *Fawarow*.

*Vienna, April 16.* The Turks seeming resolv'd to attempt at last the Relief of *Newbeusel*, which all our advices say is in great distress, the Imperial Generals in *Hungary* have taken particular care to secure all the passages, and several Regiments are march'd towards *Novigrad*, near which place the Turks are drawing together. Colonel *Heusler* is with some Troops in the *Upper Hungary*, and hath forced the Rebels to retire. We continue to work with all possible diligence on our Fortifications, the Bastion of the Court is almost finish'd, and we have begun to work on the *Lebel* Bastion, and the *Ravelin* that lies between these two Bastions. The Count de *Vecchi* is very busie here in fitting out the Gallies and other small Vessels that are to be employ'd under his command on the *Danube*.

*Lintz, April 16.* The Elector of *Bavaria* who arriv'd the 14th instant, purpos'd to stay here some few days only, and then to return to *Munick*; His Highness has assist'd at the Councils of War, that have been held since he came. The Rendezvous of the Imperial Army is fix'd for the 20th of the next Month near *Gran*; And things are preparing for the beginning of the Campagne with some great Action. The last Letters from *Neusol* gave an account, that the Baron de *Mercy* and Colonel *Heusler* have forced the Rebels to quit several Posts which they had taken in *Upper Hungary*, and that another Body of Imperialists was march'd towards *Novigrad*. Here are two Deputies from Count *Teckelej*, and another from the Prince of *Transylvania*; and the general discourse is, that an Accommoda-

tion is Treating. The Count de *Staremburg*, Governor of *Vienna*, parted from hence yesterday. Our Advices from *Turkey* continue to assure us, that the Affairs of the Turks are in so ill a posture, that it will be impossible for them to bring any great Army into the Field this Summer.

*Lintz, April 18.* The Emperor holds his resolution to remove from hence the beginning of the next Month, but it is not certain, whether it will be to *Crembs* or *Neustadt*. Yesterday arriv'd here the Count d' *Esterbasi*, Palatine of *Hungary*; He hath had an Audience of the Emperor; and after a short stay here will return for *Hungary* to assemble the Militia of that Kingdom. From *Neusol* we have an account, that the Regiments of *Heusler*, *Veterans*, and *Mercy*, are march'd to secure the passages about *Newbeusel*, which place is said to be in so great want of Provisions, that if it be not speedily relieved, the Turks will be forced to surrender it upon any Terms. The Elector of *Bavaria* will part again from hence the 26th Instant, to go to the Rendezvous of his Army, which is appointed to be at *Scardingen*. It is said that part of his Troops and those of the Circle of *Francia* will march towards the *Rhine*.

*Berlin, April 22.* The Heer de *Groot*, who was sent by the Princes of *Luxemburg* to this Court upon the Danish Troops, taking Quarters in the Duchies of *Lauenburg* and *Mecklenburg*, is gone home again, somewhat dissatisfied, as we are told, with the answer he received. His Electoral Highness has it's said, given orders for the march of the Troops which he has resolv'd to send to the assistance of the King of *Poland*.

*Cologne, April 25.* Our Electors Troops have orders to march to *Rhinberg*, where a Camp is marked out for them and we are assur'd that they will make together a Body of 25000 men. The Bishop of *Strasbourg* parted again from hence on Sunday last for *Nuss*, from whence he intend'd to go to *Keyserwerde* and *Rhinberg*. The Electors of *Mentz* and *Trier* have made a Neutrality with the French. From *Lintz* they write, that the Imperialists after an attack of two days, had taken *Novigrad* in *Upper Hungary*, between *Gran* and *Paccia*.

*Hamburg, April 25.* Several *Brandenburg* Regiments have likewise taken their Quarters in the Duchy of *Mecklenburg*. The Dukes of *Luxemburg* raise men; And it's said they will have an Army of between 20 and 24000 men; Most of their Cavalry are encamp'd along the *Elbe*. The King of *Denmarke's* Troops begin to march towards *Holstein*; And it's said his Majesty will part from *Copenhagen* the beginning of the next Month. We do not hear that his Majesty will have any considerable Fleet at Sea this Summer.

*Brussels, April 28.* Our Letters from *Lille* and other places in the French Conquest tell us, that his Most Christian Majesty was expected last night at *Cambray*, and that his Majesty will be to-morrow at *Valenciennes*, and on Sunday at *Condé*, from whence he will go the day following to take a review of his Troops in the Plains of *Quevrain*; after which we may soon expect to hear of action; The general conjecture is, that *Luxemburg* will be besieged.
