From Thursday July 3 to Sunday July 6. 1684.

Venice, June 26.

WE have advice that the Procurator *Moresini*, Captain-General of the Forces of this State, is arrived at *Lefina*, and that he hath sent orders to all the Gallies, that

are employed on the Coasts of *Dalmatia*, to joyn him. The Morlaques continue to be very troublesome to the Turks; They have of late defeated several of their Parties; And are preparing to take the Field in a great Body, some of the Troops of this State being, it's said, appointed to joyn with them. By the way of *Ragusa* we have an account, that the Poles and Cossacks have obtained a great Victory upon the Turks on the Frontiers of *Moldavia*, which is Confirmed by Letters of the 27th of the last Month from *Belgrade*. We have likewise advice that the Bassa of *Bosnia* has been stangled by order of the Grand Signior, because he did not march with the Troops of that Country towards the Bridge of *Effecke*, to secure it, according to the Orders he had received. The Letters from *Constantinople* of the 5th of *May* tell us; That two great Armies were raising, the one to be employed against the Poles under the command of *Solyman* Bassa, the Grand Signior's Caimacan; and the other in *Hungary*, commanded by the Bassa of *Mesopotamia*, who during the Government of the late Grand Visier was disgraced: They are both esteemed very good Commanders, and are well beloved by the Soldiers; And that of these two Armies, the first will be the greatest; but will both consist chiefly of Asiatick Troops, which are raw and undisciplined. That several Bassa's were on their march with the Troops under their command towards *Adrianople*. That Orders had been sent to the Bassa of *Smirna* to put 3000 men into *Candia* to reinforce the Troops that are already there. That the Bassa of *Damascus* was appointed to command on the side of *Dalmatia* and *Bosnia*, and that the Grand Signior had made his great Favorite Caplan Bassa, that is, Admiral of his Fleet, who was accordingly come to *Constantinople*, and pretended to put to Sea in a short time with a Fleet of 40 Gallies.

Genova, June 24. This week departed the *Goodwill*, the *Rebecca*, the *Katherine* and the *Hopeful Adventure*, all four for the Coast of *Spain*; And the Crown and *Colcheber* are preparing to follow on the same Voyage. The *Ausego* Merchant sailed two days ago for *Legborne*; and in few days may

likewise depart the *Legborne* Merchant to lade Oyls at *Oneglia*; besides which there are now in this Port the *Susanna*, the *Advice* and the *Lion*.

Milan, June 26. It's said a new Alliance is concluded between the Crown of *Spain* and the Republick of *Genova*: And that besides the Levy that's making in *Lombardy*, our Governor, the Count de *Meigar*, has undertaken to raise Two thousand Swissers for the Service of that State.

Vienna, June 29. We have had no Letters from *Hungary* since those that gave us an account that the Imperial Army was marching towards *Pest*; and that it was believed they would in their way attack *Novigrad*. Eleven Regiments that had their Winter-quarters in *Silesia*, *Syria*, &c. had not then joyned the Army; but Orders have been sent them to use all the diligence possible in their march, that so the Duke of *Lorraine* may be in a condition to make head against the Enemy, in case they should appear in any considerable body, to relieve *Buda*, as several Letters from those parts assure us they will. We are told from *Cracow* by Letters of the 14th Instant, that the Crown General was gone to the Army; That the King continued at *Fawarow* as well to confirm his health, as to expect the Ambassador of *Venice*, who was on his way; and whom his Majesty intended to receive there: These Letters add, That the Marquis de *Beibune* was arrived at *Fawarow* from *France*, but that he did not own to have any publick Character; but said he came to serve as a Volontier in the approaching Campaigne.

Lintz, June 30. Two days since arrived here the Hofman *Funcke* with four Standards that were taken from the Turks on the 17th Instant in the action near *Gran*, which he hath presented to the Emperor; and at the same time gave his Imperial Majesty a particular relation as well of the said action as of the taking of *Vicegrad*. His Imperial Majesty has given the Regiment of *Cuirassiers*, lately commanded by Major General *Halowell*, who was killed in that occasion, to Colonel *Heussler*. Since we have an account, that the Duke of *Lorraine* has put a Garison into *Vaccia*, and that his Highness advanced with the Imperial Army towards *Pest*; And at the same time we are told that a body of 25000 Turks have passed the Bridge of *Effecke*, and marched towards *Buda*, and that they are followed by a greater number; and that the Duke of *Lorraine* upon the news he had of it, had sent orders to the Troops that had not yet joyned him, to hasten their march. Our Letters from *Poland* inform us, that that King had committed the Conduct of the Army to the Palatin of *Russia*, the Crown General, not being himself yet well enough to go into the Field, but that he had

had declared he would follow so soon as his health was re-established. Count *Tockley* having rejected the late Proposals that were made to him, does now appear resolved to hazard all, before he will quit his Engagements with the Turks; The last news we had of him was, that he was with his Troops, which were reinforced by some assistance he had received from the Turks, on the side of *Leuscb*: Count *Palfi* has the command of the Troops that are employed against him.

Hamburg, July 7. The King of *Denmarke* is still at *Itzehoe*; and it's discoursed that there will be an Interview between his Majesty and the Elector of *Brandenburg* at that place or *Mollem*. From *Berlin* they write that the Elector of *Brandenburg* had ordered a Regiment of Foot to march to *Dominz*, which is to remain in Garrison there, together with the *Lunenburg* Troops. The loss sustained by the Fire that happened here the third Instant, is said to be very considerable.

Cologne, July 7. The Commonalty of this City are to meet to-morrow to hear the report of the Deputies which are come back from *Lintz*, whither they were sent by our Magistrates to justify the late proceedings of this City in relation to the Differences between the Burghers and some of the Burghermasters. Our Electors Troops continue encamped at *Zons* under the command of Monsieur *de Choiseul*, but it's thought they will in few days remove from thence, for that it's said the Cavalry begins to want Forage. From *Francfort* they write, that the Troops of *Bavaria* and those of *Franconia* begin to move, but that it is not known whither their march is designed; but the general opinion is, that greatest part of the Elector's Troops will be sent for *Hungary*.

Hague, July 11. On Thursday last in the Evening the Princess of *Orange* parted from *Honslaerdyke* for *Dieren*; and the Prince followed the next day. The Heer *Van Odycke* is gone for *Zealand* to be present in the Assembly of the States of that Province. On Saturday arrived here the Guards *du Corps* from *Brabant*; And this day the Regiment of Horse Guards; and in a day or two the Foot Guards are expected; and all the other Troops that were encamped between *Malines* and *Louvaine*, are returned to their several Garrisons. The States of *Holland* will be re-assembled to-morrow.

Marseilles, July 3. Yesterday in the Evening arrived here an English Vessel from *Holland*, the Master whereof reports he saw near the *Straightmouth* five Spanish Men of War commanded by the Sieur *Papachini*, Engaged with a French Man of War, having under his Convoy four Dutch and two French Merchant Ships laden with Naval Provisions and bound for *Toulon*, and that the Spaniards took the said Merchant Ships and carried them into *Cadix*. The Majorkins have taken three French Barks laden with Corn.

Paris, July 12. The Marechal *de Crequi* continued encamped, according to our last advices, in the Neighborhood of *Trier*, and would not remove from thence till the Fortifications of that City were quite demolished; The Letters from *Flanders* tell us, that the Troops which the Marechal *de Schomberg* had sent out to raise Contributions, have since the Signing of the Treaty at the *Hague*, rejoined

the Army, which was going to retire within the French Territories; And the Troops of the King's Household have orders to return hither, and are expected the beginning of the next week. The Spanish Gallies appearing on the Coast of *Provence*, the Militia there hath been put in Arms to secure them, and the Governors of the Isles of *St. Marguerite*; *St. Honorat*, and other Maritime places, who were at Court, are gone with all diligence to their Commands. The Letters from *Germany*, which arrived two days ago, told us, that in *Hungary* the Christians have taken *Neuigrad* and *Vaccia*, and that the Duke of *Lorraine* advancing to *Pest*, had defeated a Body of Turks, that was posted near that place to cover it.

London, July 2. His Majesty having by His Letters Patents, Dated the 24th of June 1680, Authorized Sir Henry St. George Knight, Clarenceux King of Arms, to Visit his Province, and to Register the Pedigrees and Arms of all the Nobility and Gentry therein, according to Ancient usage; The said Clarenceux will accordingly visit the Counties of Cambridge and Huntingdon this present Vacation, having appointed his Places of Session in manner following,
