*Madrid, July 6.*

**S**ince the Conde de Villambrosa was removed from the Presidentship of Castille in the year 1677, those that have presided in that great Council, which is of Chiefest Authority in this Court, have had the Titles of Governors only, wanting the Dignity of the Style of President. The Bishop of Faen lately held this great Office, but being wearied with the business of it, begged leave to resign it and to retire to his Diocesis, which the King was pleased on the 21. past to condescend to; and his Majesty made choice of the Conde d'Otopesa to succeed him, with the Title of President, who was thereupon Complemented by all the Nobility and other Persons of Quality of this Court, being a Nobleman of the first Rank of Grandees, and of great Ability and Integrity; and on the 27th took possession of that Office which he is to exercise with all the Ancient Authorities and Preeminencies of it. The Duke de Medina Cell, th: first Minister, having desired leave to retire, preparations were made for his Journey, which he intended to take the 23. in the Evening to Cogollado, a small Village of his own about 32 Leagues off, but the King sending him a message that he should remain in the exercise of his Ministry, he continues so to do; and the 29th past entertained their Catholick Majesties with a Comedy and a Magnificent Supper in the Garden of the Casa del Campo over against the Palace. Our freshest Letters from Catalonia, lest the French Army commanded by the Marschal de Belfonds, consisting of about 14000 men, within a League of Roses, and 14 of their Men of War with 20 Gallies, in sight of that Port, that we apprehend they design to besiege that Place. The Spanish Army under the Duke of Bourbonville, not exceeding 3000 Foot and 1000 Horse, was encamped near Gironne. On the 19th past the Sieur Papachin, Admiral of the Flemish Squadron, brought into Cadix four Dutch and two French Ships bound with Masts, Cordage, Pitch, and other Naval Provisions for Toulon, a French Man of War that Convoyed them, narrowly escaping. On the 23. past, the said Papachin being under sail to return to Cruise about the Straights-mouth, before he got out of the Bay his Men mutined, and carried the Ship back to Punta Castle. The Spanish Armada is at Cadix, where all hands are at work to fit out as many Ships of War as they can possibly, which it's thought may be about fifteen. This day arrived here an Express from Catalonia with the news that the French have taken Cap de Quiers, the most commodious Port for Gallies the Spaniards had upon that Coast. The Prince de Chimay, late Governor of Luxemburg, is arrived here.

*Lisbon, June 27.* The Pearl Frigate, Captain Bottom, has brought in a Sally Man of 24 Guns, called the Rose, with 97 Moors and 36 Christi-

ans; she fought five or six hours till she lost all her Topmasts, and her Ammunition spent, and several of her men kill'd; The Frigate has onely two Men wounded. She was a Dutch Ship that was taken some Months since, bound from hence for Zealand.

*Fawarow, June 21.* (The King of Poland, who is now perfectly recovered of his late Illness, will part from hence the next week for Leopold, to give Audience there to the Sieur Morosini, Ambassador Extraordinary from the Republick of Venice, after which his Majesty will to go the Army; and in the mean time the Troops are marching to Busk on the Frontiers of Podolia, where is appointed their general Rendezvous. We have advice that a Body of Poles and Cossacks are encamped at Tremboula in Podolia to observe the Enemy and hinder the IncurSIONS of the Tartars. They write from Hungary that the Visier of Buda hath refused to send any Troops to the assistance of Count Teckelely, but hath commanded him to joyn with his Forces the Turkish Army

*Vienna, July 6.* Yesterday parted from hence a great many Boats laden with Ammunition and Provisions for the Imperial Army. The Count de Vecchi, has received orders to hasten the departure of the Gallies and the Brigantins, that are still here. The news we had of the burning of the Bridge of Esfacke by Count Leslie, proves a mistake; but we have advice that the Croats will come much stronger into the Field than they had promised, and that with the German Troops that are on that side they will make a very considerable Body. They write from Comorra that the Hussars of that Garrison have defeated a Party of Newbeuse, of whom they killed 16 and took 20 Prisoners. The last Letters from Poland gave us an account that the King intended to part from Fawarow the 26th or 27th of the last Month; That is the mean time the Army was marching; and that it had been resolved not to meddle with Caminiec, in the beginning of the Campaign; but to advance towards Moldavia, and Radachia, to secure those Provinces.

*Leitz, July 9.* The Emperor has resolved to remove from hence with the whole Court to Vienna, to be so much nearer his Army, which according to our last advices, was going to undertake the Siege of Buda, having for that purpose repassed the Danabener the 11th of St. Andrew. General Caprana who commands the Emperor's Troops in Upper Hungary, is marched to the Relief of the Castle of Ungwar which is besieged by the Rebels. Count Teckelely is in Person on the side of Leutz; and hath sent to the Visier of Buda, earnestly pressing him to send some Troops to his assistance, pretending he shall be thereby enabled to give the Emperor's Forces a great diversion, but hitherto he has not obtained any. The Emperor intends to send three Regiments of Horse to joyn the Bavarian Troops, and in lieu thereof that Elector is to assist his Imperial Majesty with three Regiments

Regiments of Foot, which will be brought down the Danube and sent for Hungary.

*Munick, July 4.* The Troops of the Elector of Bavaria are marching from Leebfels towards Donawert, from whence a detachment of 6000 men will be sent for Hungary; and the rest will joyn with the Troops of the Circle of Franconia; But the Train of Artillery continues as yet here. From Linz and Vienna we have advice of the successful Progress of the Imperial Army in Hungary, which we may believe to be now before Buda.

*Rasibonne, July 12.* The Bishop of Aichstads and the Count de Winditzgratz, the Imperial Commissioners, have acquainted the Dyet that the Emperor, to procure the General Peace and Tranquility of the Empire, is willing to accept the Truce upon the Conditions proposed by France for 10 years or longer, provided all his Allies be included in it.

*Cologne, July 14.* The Troops of our Elector which were in Rhinberg, except two or three Companies, marched from thence on Monday last to the Camp at Zons. The 12th Instant the Troops of Munster were to pass the Rhin at Wesel, the Regency of Cleve having granted them passage through that Country: When these and the other Troops appointed to Rendezvous at Zons shall be together, which will be in few days, they will, as we are assured, make a Body of 8000 men; and the common report is, that they will march towards Liege; His Electoral Highness being, it's said, very much dissatisfied with that City for that they refuse to ratify and execute what was some time since agreed and concluded by their Deputies. They write from Francfort of the 12th Instant, that the Troops of the Circle of Franconia were encamped between Wertheim and Miltenbourg, commanded by the Prince of Bareith.

*Hamburg, July 14.* Our Letters from Berlin inform us, that the Elector of Brandenburg hath sent 3000 men to the assistance of the Poles, commanded by the Count de Denhoff. The Island of Heylige Landt hath submitted to the King of Denmark.

*Brussels, July 18.* Monsieur de Chanlay, who returned hither on Sunday, had yesterday a very long Conference with the Marquis de Grana, and we are told that they have settled the matter of the Contributions, and have agreed, after having desisted what we pretend of the Subjects of France, that these Countries shall pay 600000 Crowns, and that they shall have ten years given them to pay the same at several Terms, in consideration whereof they shall be freed from all pretensions of Contributions which the French may have upon them; and which it's said amount to almost four Millions. To-morrow Monsieur Chanlay will part again from hence, having been very Nobly Entertained here by the Marquis de Grana. The French Army decamped on Sunday last, as we have already told you from Liffines, and separated into three Bodies, one of which is marched towards Dinant, and Monsieur de Bretuil, Intendant-General of the French Conquests, hath orders to follow them. Our last Letters from Linz are of the 9th Instant, and tell us that they were expecting an account from the Duke of Lorraine, that he was set down before Buda; and that all their advices say there is a great fear and Consternation among the Turks.

*Hague, July 18.* The French Ambassador has acquainted the States General that he has received the King his Master's Ratification of the Treaty Signed here on the 29th past, and that he is ready to exchange it with that of this State. The Sieur Sampricht, the Imperial Minister, declared, as we

are told, to the Deputies of this State in a late Conference he had with them, that the Emperor had resolved to accept the Truce proposed by France upon condition it be General. Two days agoe arrived here the Prince of Orange's Regiment of Foot-Guards from Brabant, and all the Troops of this State that were in Flanders, are returned to their respective Garisons.

*Paris, July 22.* Our last Letters from Catalonia gave an account, that the French Army commanded by the Marechal de Belfonds, was encamped the 6th Instant at Castillon not far from Roses, and that the Ships and Gallies under the command of Monsieur du Quesne, continued in the Bay of Roses. That the Duke de Bourbonville Vice-Roy of Catalonia, who was encamped with the Spanish Troops near Girona had upon the Marechal de Belfond's approaching to Roses, advanced to Selva; and had retrenched himself at the foot of the Mountain behind the River Ter. Here has been a report for several days of another defeat of the Turks by the King of Poland, but it needs a confirmation. Our Letters from Germany tell us the Emperor hath accepted the Truce.

*Windsor, July 15.* His Majesty hath been Graciously pleased to Confer the Honor of Knighthood upon Simon Taylor and John Turner, Esquires, Aldermen of the Town of Linn Regis.
