Marseilles, July 14.

BY a Vessel arrived from Leghorne we have advice, that the Chevalier de *Tourville* arrived there the third Instant with four French Men of War, four Gallies, and three Armed Barks, under his command, and that having taken in Water, he would go and Cruise off of *Genouz*. The Militia of *Provence* is in Arms to secure the Coasts against any attempt of the Spanish and Genoese Gallies, which are abroad.

Venice, July 15. On Saturday last the Count de la Torre, the Imperial Ambassador, had an Audience of the Colledge to give them an account of the Victory which the Duke of *Lorrain* obtained upon the Turks the 27th of the last Month near *Vaccia*, and of his having taken that place on discretion; and the next day *Te Deum* was sung in the Church of *St. Mark*. The Count de *Porto* raises a Regiment of Cuirassiers to serve in *Dalmatia*, and will in a short time have it compleat. We have Letters from *Constantinople* which tell us, that the approach of the Venetian Fleet filled that City with fear and consternation, the Turks not being in a posture to oppose their designs. From *Corfu* we have advice that General *Morofini* having taken on board several Troops in *Dalmatia*, was sailed for the *Levant* to joyn the Siquir *Molino*; So that we may now expect to hear in a short time of their having undertaken some great Enterprize. The Senate have hired two great Ships, which will make very stout Men of War; and a great many Vessels are lading with Ammunition and Provisions for the supply of the Fleet.

Vienna, July 17. By an Express that passed through this place, we have an account that the Imperial Army had repassed the *Danube* and was advanced to *Buda*, the Turks that were posted near that place, having upon the approach of the Christians abandoned their Quarters, and retiring in great confusion. The Count de *Vecchi* will part from hence in few days with the rest of the Gallies and Brigantins; and the Count de *Thaun* has received orders to march immediately with his Regiment, which is now in Garrison here, to joyn the Imperial Army; And it's reported that General *Leslie* is marching towards the Duke of *Lorrain* with the Troops under his command. The Prince de *Croy*, General of the Artillery, arrived here the 15th Instant, and will part again to morrow to continue his journey for *Hungary*. Count *Teckelej* begins to be abandoned even by those he had greatest confidence in; and what adds to his trouble, is, that he cannot obtain any assistance from the Turks.

Lintz, July 19. Yesterday arrived here an Express from *Hungary*, who brought an account that the Imperial Army had passed the *Danube* near *Vaccia*, and having forced the Turks from the several Camps they had on this side *Buda*, they advanced to that City, and besieged it, being when this Express came away, Masters of the Lower Town, and lodged in the Ditch of the Upper Town, against which they had raised several Batteries; It is added that 600 *Dalmatians*, who were in the Turkish Army, had deserted them, and taken Service among the Christians. And from *Hun-*

gary they write that the Baron de *Sapostark* had surprized the strong Castle of *Monatz*, having intelligence with the Officer that commanded there, And that he had taken Prisoner the Princess *Ragoszt*, Wife to Count *Teckelej*, with their Children and their whole Treasure, which is valued at 13 Millions; It is likewise reported that the Imperialists have defeated Count *Teckelej*'s Troops that besieged the Castle of *Ungwar*, but both these advices will need a Confirmation. The Elector of *Bavaria* is expected here very suddenly, and we are assured that his Electoral Highness will send part of his Troops for *Hungary*.

Hamburg, July 21. The King of *Denmark* hath withdrawn his Troops out of the Dutchies of *Mecklenbourg* and *Saxe Lawenbourg*, having received satisfaction concerning the Quarters which were formerly assigned his Majesty upon those Countries by the Emp. ror.

Brussels, July 28. On Wednesday last Monsieur de *Brezeuil*, Intendant of the French Army, came hither, and being conducted to Court, was very kindly received by the Marquis de *Grana*, and yesterday his Excellency entertained him at Dinner, and this morning he parted again from hence; He came not, as is said, upon any publick business, but took the opportunity of this Cessation to make his Excellency a visit. The Marechal de *Schomberg* is encamped with part of the Army that was at *Leffines*, at *Chastelet* near *Charleroy*; Monsieur de *la Trousse* is with the Troops under his command on the side of *Nivelle*; and Monsieur de *Boufflers* near *Chievre* in the Province of *Hainault*. The Spanish Troops in the mean time continue in the Neighborhood of this City, though they suffer very much for want of Forage: A reform of 40 Troops of Horse is much spoken of, but not yet put in execution. They write from *Liege* that part of Monsieur de *Crequi*'s Army is come into the Province of *Limburg* to take there Quarters of refreshment, and that they have with them Horses for a Train of Artillery though they have no Train, but many Wagons with Ammunition and Fireworks; and it is believed these Troops will joyn with those of the Elector of *Cologne*, which increase daily: On the 25th Instant, being *St. James's* day, the Burghers of *Liege* chose their new Burghermasters, the Election having been carried on very peaceably, and pursuant to the orders of their Prince. The Letters from *Lintz* confirm the account we gave you in our last of the Duke of *Lorrain*'s being advanced to *Buda* after having forced the Turks from their several Camps; and we hope our next Letters will tell us that *Buda* is taken.

Hague, July 28. The States General being informed that six Dutch Merchant Ships, which were bound for *Thoulon*, have been taken by the Spaniards and carried into *Cadiz*, they have sent orders to their Ambassador at *Madrid* to make Complaint thereof, and to demand reparation, seeing the said Ships were laden with Goods and Merchandizes, which according to the Treaty of Commerce concluded between the Crown of *Spain* and this State in the year 1650, ought to pass free and unmolested: And have likewise directed their Deputies for Maritime affairs to make a like representation to the Marquis de *Cassel Moncayo*, the Spanish Minister here. The

Prince

Prince of *Orange* continues at *Dieren*, but hath sent hither Monsieur *Bening*, who will return to *Dieren* in a day or two. It has, we are told, been proposed in the States General, to send an extraordinary Embassy to *France* to solicit the restitution of the Principality of *Orange*, &c. The *Baron de Grotz*, Envoy from the Circle of *Franconia*, hath had his Audience of Leave of the States, and will part from hence in few days. The States of *Holland* are adjourned till the middle of the next Month. The Count *de Solms*, Colonel of the Regiment of Foot-Guard, is gone to his Government of *Nimeguen*.

Paris, July 29. The Army commanded by the *Marschal de Schomberg*, has quitted *Leffnes*; Most of the Foot have been sent to their respective Garrisons, and the Horse are divided into three Bodies, with one whereof Monsieur *de Schomberg* is encamped between *Charleroy* and *Dinant*. The King, it's said has made choice of Monsieur *Tambonneau*, who is at present his Minister at *Cologne*, to go his Ambassador to the Swiss Cantons, and he is accordingly expected here to prepare for his Embassy. The French Army in *Catalonia*, we are told suffers very much by the excessive heats; Monsieur *du Quefne* is recovered of his late illness; and Monsieur *de Tourville* has, it's said orders to joyn the Fleet, which is still in the Bay of *Roses*, with the Squadron under his command. The Gallies of *Spain* and *Genova* are at Sea, some Men of War having joyned them; and we are told that the Republick of *Genova* hath borrowed a great sum of Money to be employed in the new Levies they have resolved to make; and that the *Gehoufes* have taken several French Merchant Ships. The *Algerine* Envoy parted from hence on Tuesday last in order to his return home. Our Letters from *Germany* tell us that the Duke of *Lorraine* besieged *Buda*, and had begun to batter the place with 30 Pieces of Cannon. And that Count *Tockley's* Lieutenant-General had deserted him with 5 or 600 Hungarians, and had joyned the Imperial Army.

On the 16th Instant His Grace the Duke of *Beaufort* having been met at *Porshere* by the Earl of *Worcester* accompanied with a great Body of the Gentry of the Neighboring Counties, and at a little distance from thence by the Mayor, the Dean, and many of the most Eminent Citizens, came to the City of *Worcester*, and being received with all imaginable demonstrations of Respect, was conducted to the Bishop's Palace, where he was very Nobly Entertained and Lodged. In his journey he was met by a very many of the Loyal Gentry of several Counties of *England* and *Wales*, and near *Ludlow* was received by the High Sheriff of the County of *Salop*, with a considerable Body of the most Eminent Gentlemen of that County. quet of Sweet Meats and Wines, and those that attended his Grace had a Reception at the Castle equal to his quality.
