

*Amsterdam, Aug. 25.* The Letters from *Liege* of the 23 instant tell us, that the *Sieur de la Raudiere*, the French Resident, had that day delivered a Letter from his most Christian Majesty to the Magistrates of that City, and at the same time had let them know, that the Elector of Cologne, their Prince, having acquainted his Majesty, that his Troops were marching towards that City, his Majesty did think it expedient for their own good, as well as for the preserving the Peace of those parts, That the said Magistrates and Commonalty of *Liege* did forthwith make the submission that became them, to his Electoral Highness; and that thereupon the Magistrates had assembled the 32 Trudes, or Companies, who it was believed, would resolve to comply with what his Electoral Highness requires of them. The *East-India* Ships for the account of the Chamber here, are safely arrived; those for *Zeland* are past by, and we have advice that one is arrived in the *Maese*.

*Hague, August 25.* The *Sieur Norff* the Elector of Cologne's Minister here hath presented a Memorial to the States-General, wherein he acquaints them; That the Troops of his Electoral Highness are on their march towards *Liege*, to reduce that City to their Duty; and prays them not to have any jealousy of the march of the said Troops, and to be assured that they will not give any disturbance to their Subjects or Territories; adding, that his Electoral Highness, to let them see how desirous he is to live in a perfect union and friendship with this State, does offer to enter into a strict Alliance with them, for the mutual defence and preservation of their several Countries and Dominions, and to determine amicably the Pretensions and Differences which may be depending between them; upon which the States have named Commissioners to enter into Conference with his Electoral Highness's said Minister. On the other side, the Magistrates of *Liege* have written to the States-General, praying them to employ their good Offices and Interposition, for the accommodating Matters between his Electoral Highness and that City; upon which, the States have resolved to send his Electoral Highness a Copy of the said Letter, and to let him know, that though they desire nothing more, than that the Peace may be preserved in their neighborhood, yet they are unwilling to interpose in the Affairs between his Electoral Highness and the City of *Liege*, without his consent and good liking; and have ordered an Answer to be returned to the Letter of the Magistrates of *Liege*, to the same effect. The Prince of *Orange* continues at *Dielen*, but we are told his Highness will return hither about the 5 of the next Month, when the States of *Holland* are to reassemble; He has sent the *Heer Vander Hooge* to *Leerwaerden* to compliment the Prince of *Nassau*, Stadtholder of *Friesland* and *Groningen*, upon his Marriage with the Princess of *Anhalt*.
