

The Elector of *Bavaria* is sending 8000 Men for *Hungary*, of which 12 Companies passed through this City on Monday last, and more will follow; The Imperial Regiments that were lately sent into the Empire are likewise on their march thither; and till these Troops have joyned the Imperial Army we must not expect to hear any great News from thence. The last Letters from *Vienna* told us that the Duke of *Lorraine* had demanded a speedy succor, for that the Army was so weakened that the Dragoons and light Horse had been obliged to dismount; and that the besieged were resolved to defend themselves to the last man; but that the death of their Bassa, who died of a hurt he had received during the Siege, had occasioned some disorder in the Town. And that the General Bassa had repassed the Bridge of *Essecks* with 14 or 15000 men.

Frankfurt, August 22. Troops are marching from all Parts for *Hungary*; The Elector of *Bavaria* we are told, will send thither 14 or 15000 men with a Train of Artillery, and is himself gone for *Vienna*. The Turks in *Buda* make a very obstinate defence, and the Christians have lost a great many men and several Persons of Note; The last Letters told us, that the young Count de *Harrach* was killed, and that the Prince de *Savoy* had been wounded in two several occasions; That the Christians had on the 9th and 10th Instant sprung several Mines with very good success and that they were advanced to the body of the place.

Cologne, August 25. The Forces of our Elector having pulled the *Roger* at *Linnich*, took their march, by *Aldenhouen* and *Reckem* towards *Mafescke*, where they passed the *Meuse*; and so continued their march towards *Liege*; Yesterday the Train of Artillery parted from the Camp at *Zons* to follow the Army, under the Convoy of a Regiment of Horse and another of Foot.

Brussels, August 29. The 26th Instant about six in the morning 6000 Horse and Dragoons of the Elector of *Cologne's* Forces entered the City of *Liege*, without any opposition (those that had the guard of the Gates running away upon their first appearance.) The Bishop of *Strasburg's* Guards and the Regiment of *Furtemberg* marched directly to the Palace, the Dragoons posted themselves in the Market-place and small Parties were placed at the ends of all the principal Streets, and Guards put at the Doors of the new Burghermasters; And about 10 in the morning the Bishop of *Strasburg* came thither and went directly to the Town-House, and gave orders for the setting at liberty the Burghermaster *Pans* who had been committed to Prison by the new Burghermasters upon suspicion that he assisted with Money some Persons that were banished during the late Disorders. Our Letters from *Hungary* and *Vienna* tell us, that the Besieged in *Buda* (which are said to be 15000 fighting Men) continue to defend the place with much resolution; and that it was believed the Duke of *Lorraine* would not make a general Assault till the Imperial and Bavarian Troops that were marching for *Hungary* had joyned him. Some of the chief Authors of the late Tumults at *Louvain* are condemned to be Hanged, and it's said orders are given for their Execution.

Hague, August 29. Thy Letters from *Lintz* and *Vienna* contradict the report of the taking of *Buda* on the 9th Instant; but give us hopes the place will not hold out long. The Marquis de *Castel-Moncayo*, the Spanish Minister, is returned hither from *Brussels*. The States of *Holland* will re-assemble the 5th of the next Month.

Paris, August 30. The 23. Instant arrived here an Express who came from *Ratisbonne* the 18th; with the Treaty of Truce between the Emperor and the Empire and this Crown, signed there the day before by the Imperial Commissioners and the Count de *Creecy* the French Plenipotentiary. The King we are told has called home the Sieur de *Guilleragues* his Ambassador at *Constantinople*. The News we had here the last week of the taking of *Buda* by Assault, proves to be a groundless report.
