

Cologne, Brarconia, Suabia, and the Upper Rhine, which are now on their march. The *Comte de Ribila* Com-missary General of the Imperial Army, is gone thither with a great sum of Money. He hath taken great care to provide Corn and Forage for the Army, having made great Magazines in several places, and besides has obliged the Country People to bring what Provisions they can to the Camp, for which they will be plentifully paid at reasonable Rates. The last news which I received of the Forces was, that the *Serafiquier Bissa* was still at *Belgrade* expecting the Troops of *Asia*, and that so soon as they were arrived, he would pass the *River of Esbeck*, and having joined the Forces now in *Hungary*, would march to the relief of *Newbesel*; In which case we are told the Duke of *Lorraine* will leave 12000 men to make good the Siege, and will advance with the rest of the Army to meet the Enemy. The Troops that are to act against the Turks on the side of *Croatia* will be divided into three Regiments; The first composed of Germans and Croats will be Commanded by *Count Leslie*, and under him by the *Prince de Salme* and the *Marquis de la Vergne*, and will act between the *Drave* and the *Sava*. The second Body will be only of the Militia of the Country, commanded by the *Viceroy of Croatia*; And the third will be Commanded by the *Count de Paradies*, Governor of *Carelstadt*; It being thought fit that these Troops should thus act separately for the conveniency of Provisions and Forage, yet so as that they may join together if there be occasion for it. The Letters from *Upper Hungary* confirm the account we had of the taking of *Onab*; And farther tell us, that *General Schuitz* being informed that *Count Teckley* was posted with the Forces he had got together near *Caschau*, where he expected to be reinforced with the Troops which the *Bassas of Temiswar* and *Erla* had promised to send to his assistance. The said General had resolved to march towards him and to attack him there before the said Success had joined him. The *Electour of Bavaria* is expected here the 10th of this Month, his Marriage being fixed for the 15th. The *Count de Lubowitz* whom the Emperor has named to go in Quality of his Envoy Extraordinary to the Most Christian King, will begin his Journey in few days.

Ritubonne, July 9. *Prince Waldeck* who arrived here two or three days ago, having had a Conference with the Imperial Commissioners at the Dyet, parted again from hence yesterday morning to pursue his Journey for *Hungary*, where he is to command the Imperial Army under the Duke of *Lorraine* in the Quality of *Marschal de Camp* General. The *Baron de Dingen* General of the Troops of the Circle of *Suabia*, arrived here this day, and the said Troops are expected here to-morrow or next day. Part of the *Electour of Cologne's* Troops are arrived at *Donawert*, and the rest will be there in few days, being to pass from thence by Water for *Hungary*. The Letters from *Vinna* of the 6th Instant tell us, That the Imperial Army hath besieged *Newbesel*; That they have filled their Lines of Circumvallation and have opened the Trenches; And that there were in the place 1700 Soldiers who appeared very resolute, being encouraged with the Assurances that the *Viceroy of Buda* has given them of relief. They write from *Munich* that the *Electour of Bavaria* intended to part from thence as yesterday from *Venna*, where his Marriage will be celebrated the 15th Instant.

Strasbourg, July 9. *Monsieur de Monslar* is gone to the Camp on the *Saare*, where he is to expect farther Orders from the French Court. *Monsieur de la Grange* Intendant of *Alsace* is returned from *Landau*,

where he hath set to Farm the Revenues of the *Bay-livick of Germersheim* for 50 thousand Livres.

Paris, July, 21. The Clergy assembled at *St. Ger-mans*, will we are told separate to day or to-morrow. The *Abbot Morel* parted from hence this week, being sent by the Most Christian King to Compliment the new *Electour* Palatin. The King and the whole Court were the 16th of this month at *Sceaux*, where they were entertained by *Monfieur de Saigneluy* with great Magnificence. We have an account that the *Princes de Conti* and *de la Roche-Sur-Ten*, accompanied with the *Prince de Turenne*, the *Chevalier de Lauzun* and divers other French Gentlemen are arrived in the Imperial Camp before *Newbesel*.

Whitehall, July 13. This afternoon the late Duke of *Monmouth*, and the late *Lord Gray*, with the German, were brought hither by Water from *Foxhall*; And about eight in the Evening were carried to the Tower in the Kings Barges, guarded by several other Barges with Soldiers.
