Madrid, Novemb. 10. The Ambassador of Venice at this Court has desired leave to raise 2000 Men in the Kingdom of Naples for the Service of that Republick, and has we are told obtained it, but with condition that this Levy be made by persons appointed for that purpose by the Viceroy of that

Kingdom. The King has given the place of President of the Council of the Indies, Vacant by the Resignation of Prince Vincent de Gonzague, to the Marquis de los Veles, and that of Master of the Horse to the Queen to the Marquis de los Balbaces. The Count de Mansfelt Ambassador Extraordinary from the Emperor, is made Knight of the Order of the Golden Fleece, and has thereupon received the Compliments of all the Foreign Ministers, and most of the persons of Quality of this Court. The King it's said has sent Orders to the Count de Melgar Governor of Milan to reform the Troops he raised during the late differences between the Crown of France and the Republick of Genoua. Count Ernest de Muller is arrived here from the Emperor. The Ambassador of Holland makes very pressing instances for the restitution of the Dutch Vessels that were carried into Cadix by Vice-Admiral Papachino.

Genoua, Novemb. 15. The Count de Melgar is still here, but will return to Milan after he has seen 6 or 700 Foot of the Forces of the Milanese embark at a Port about 10 miles from this place, from whence they are to be transported to Catalonia. The Spanish Gallies sailed from hence the 8th instant for Naples, but meeting with very ill weather, were forced to return into this Port, where they still continue. The Marquis Aherardo Spinola, Named by the Senate to go to France in Quality of Envoy Extraordinary from this Republick, has not yet accepted of that Employment.

Warsaw, Octob. 29. We have an account that the Militia of most of the Palatinates are actually on their march, in pursuance of the Kings Orders, to joyn the Army of this Crown, but the Letters from the Frontiers telling us, that the Turks and Tartars were separated, the former retiring towards the Danube, and the latter towards Bagiac, and that the Forces of this Kingdom have repassed the Niefter, and are about going into their Winter-quarters, we are expecting to hear that directions are sent to the said Militia to return to their several Palatinates.

Vienna, Novemb. 18. The Imperial Troops continue their progress in Upper Hungary; The Baron de Mercy has lately taken the Town of St. Nicolas, where he found a Magazin of all sorts of Ammunition; The Turks left likewise in Saravus a great quantity of Ammunition and Provisions, and 30 pieces of Cannon, and in other places the Imperialists have taken a great deal of Forage, which their Horse were before in some want of. The Emperor has given the Government of Zolnock to Major General Heustler, who is now there with a Garison of 1500 Men. The Elector of Cologne has granted the Emperor half his Troops which served this Summer in Hungary, to be incorporated into the Imperial Regiments, upon condition that his Imperial Majesty do provide for the Officers, as for the other half of the said Troops they are to remain in a distinct

distinct body, under the Command of a General Officer appointed by his Electoral Highness. The Emperor has given the Regiment lately Commanded by the Prince de Wirtemberg who was killed in the Siege of Caffow, to the Marquis Spinola Lieutenant Colonel of Count Leslies Regiment. General Schuitz who returned hither from Upper Hungary upon General Caprara's being appointed to Command in Chief the Emperors Forces on that side has it's said taken Leave to retire on account of his great age. The last week were sent from hence 2000 Bombs and Carcasses with a very great quantity of Powder and Bullets for Hungary, where Magazines are prevailing in several places against the next Campaign. The Clergy of the Hereditary Countries have sent hither their Contributions for the War against the Turks.

*Ratisbonne, Novemb. 13.* The affairs of the Dyets here of late had some Interruption by the difference between the Electoral Colledge, and the Count de Windtgratz one of the Imperial Commissioners. The latter pretends to be named in the Conclusions of the Empire, which are to be made to Compliment his Imperial Majesty upon the happy success of his Arms in Hungary, and the Birth of the young Arch-Duke, and the said Colledge insist, that their Conclusions ought to be only addressed to the Bishop of Passaw the Emperors principal Commissioner at the Dyet. Some Expedients have been proposed to remove this difficulty, but they have not been accepted, and there is a discourse that to put an end to this dispute the Count de Windtgratz will be recalled. The last Letters from Vienna told us, that they had begun their Preparation for the next Campaign; That the Commissary General had orders to provide Magazines in the most considerable places of Hungary, and that care was taken to supply him with monies for that service. That the Turks had made Proposals of great advantage to the Emperor, but that his Imperial Majesty had in answer to them declared, that he would not enter upon any Treaty with them without his Allies the King of Poland and the Republick of Venice. And that the Cardinal Borvis the Popes Nuncio had assured his Imperial Majesty, that his Holiness would continue to give him all the assistance he was able for the carrying on the War. They write from Hungary that the Turks do fortify several places in Croatia, and that it's believed they will act the next Summer with the best part of their Forces on that side. That the Garrison of Buda is in a very ill condition, wanting Provisions and other necessaries for their subsistence this Winter. And that the Basha who Commanded in Novigrad before the Turks abandoned that place, had been put in Irons for having had a Correspondence with Teckelej.

*Cologne, Novemb. 27.* The Emperor has written to our Elector to thank him for the Troops he sent this Summer to his assistance, and more particularly for his leaving one half of them to his Imperial Majesties disposal; They will we are told be put into some of the old Imperial Regiments to make them up their full number, and the other half are it's said to have their Winter-quarters in the Empire. The Imperial Sub-Commissioners meet every day to examine the Complaints made against our present Magistratos, and their answer to them, but it's believed they will come to no determination therein, till they have laid the matter before his Imperial Majesty, and received his directions thereupon. The three Prisoners at Dusseldorp have now more liberty than they were allowed at first, and some of their Friends are permitted to go to them.

*Paris, Decemb. 1.* The Count Wislopolski Great

Chancellor and Ambassador Extraordinary of Poland, had the 27th of the last month his Audience of Leave of the King at Versailles, being Conducted by the Count de Marsan, and the Introducer of Ambassadors. The 28th died here the Duke de Villeroy Marschal of France in the 88th year of his age. The Prince de la Roche Sur Ton has upon the death of his Brother taken upon him the Name of Conti. The Letters from Germany tell us, that the Turks, among other their Proposals of Peace, offer to put into the Emperors hands Buda and Agria.

*Westminster, Novemb. 28.* On Thursday last Charles Gerard Esq; commonly called the Lord Brandon, was brought to his Tryal at the Kings-Bench Bar, upon an Indictment of High Treason, For Conspiring with other false Traytors to Raise a Rebellion within this Kingdom and the late King of Ever Blessed Memory to depose, and to death and final destruction to bring, and the Ancient Government of this Kingdom to alter and subvert; of which he was upon a full Evidence found Guilty, and being then committed to the Tower, was this day brought again to the Kings-Bench-Bar, where Sentence of death passed upon him as in Cases of High Treason.
