

Vienna, Jan. 27. The 22^d Instant arrived here an Express from *Caschau*, with the News (which was brought thither by some *Hungarian* Gentlemen that came from *Zolnocke*) of the Defeat of 3000 *Turks*, who, it was said, were marching with a great Convoy towards *Buda*, by the *Imperial* and *Hungarian* Troops, commanded by Major General *Heusser*, of which we have already told you the Particulars, as they were related by the said Express; But the Letters we have since received from *Zolnocke*, discover the mistake of that Advice, and inform us, That General *Heusser* and Count *Peterhafi* had indeed been abroad with 4000 Horse, but that it was only to put some of the *Turkish* Territories under Contribution; And that having done it, they advanced to *Segedin* on the River *Theis*, and after having defeated part of the Garrison, who sallied out upon them, plunder'd and burnt the Suburbs, and then returned with a considerable Booty to *Zolnocke*. The Envoys from *Transylvania* have had their Publick Audience of the Emperor, with the Ceremonies that are observed towards the Ministers of Princes which hold of the Emperor. General *Caprara* has sent to his Imperial Majesty the stately Furniture for a Horse, beset with Pearls and precious Stones; and the Sable, and Staff or Scepter of Massive Gold, likewise enriched with Diamonds, which the Visier of *Buda* presented, by Order of the Grand Signior, to Count *Teckelej*, upon his entering into his Engagement with the *Turks*, and confirming the same by Oath at *Buda* in the Year 1682; These were found among other Riches belonging to *Teckelej*, and the principal *Hungarians* that joined with him in the Rebellion at a place called *Regetz*, which the *Imperialists* made themselves Masters of presently after the taking of *Caschau*.

Hamburg, Jan. 29. The Letters from *Copenhagen* of the 26 Instant tell us, that the King of *Denmark* intends to begin his Journey for *Holslein* towards the end of *March*; And that in the mean time the Troops that are to attend his Majesty there, are ordered to be in a readiness for their march. They write from *Stockholme*, that the King of *Sueden* would part from thence the 18th of this Month, to take a general review of his Forces. And that the Count *de Nossitz* Envoy Extraordinary from the Emperor, had frequent Conferences with the Ministers of that Court. The Letters from *Berlin* inform us, that the Elector of *Brandenburgh* is sending a Minister to *Vienna*, to adjust all matters concerning the march of the Troops he is to assist the Emperor with, which his Electoral Highness is to maintain for six Months at his own charge, in consideration whereof he is to receive from his Imperial Majesty 150000 Crowns before they begin their march.

The Letters from *Madrid* of the 10th past inform us, that the King hath declared Don *Diego Espinosa*, at present Governor of *Gaunt*, Maître de Camp General of his Forces in these Countries.

Brussels, Febr. 8. The Letters from *Vienna* of the 24th past told us, They had Advice by an Express which arriv'd there the day before from *Caschau*, that the *Imperialists* had defeated a *Turkish* Convoy near *Segedin*, and had afterwards made themselves Masters of that place; but this News is contradicted by the Letters of the 27th, which give the following Account; That Lieutenant General *de Mercy*, and Major General *Heusser*, had made an Incurtion with 4000 *Imperial* and *Hungarian* Horse into the Enemies Country to raise Contributions, and that advancing under the Cannon of *Segedin*, part of the Garrison sallied out, and skirmish'd with them, but that several of the *Turks* being killed, and some Prisoners taken, the rest retreated into the Town; The Christians thereupon entered the Suburbs, which they plundered, and afterwards burnt, The Enemy had there a Magazine of Forage and Provisions, as well for the service of the Garrison, as the Troops that frequently pass'd and repass'd that way from *Buda*, *Agria*, *Hatwan*, and other *Turkish* places on that side, of which the *Imperialists* carried away what they could, and destroyed the rest, returning to *Zolnocke* with very little loss on their side.
