PRESENT,

The QUEEN's Most Excellent Majesty in Council.

WHEREAS the Ecclesiastical Commissioners for England have, in pursuance of an Act passed in the session of Parliament held in the third and fourth years of Her Majesty's reign, intituled "An Act to carry into effect, with certain modifications, the fourth report of the Commissioners of Ecclesiastical Duties and Revenues," duly prepared and laid before Her Majesty in Council a scheme, bearing date the third day of April, in the year one thousand eight hundred and fifty-one, in the words and figures following; that is to say:

"We, the Ecclesiastical Commissioners for England, in pursuance of an Act passed in the session of Parliament held in the third and fourth years of your Majesty's reign, intituled 'An Act to carry into effect, with certain modifications, the fourth report of the Commissioners of Ecclesiastical Duties and Revenues,' have prepared, and now humbly lay before your Majesty in Council, the following scheme, for making better provision for the cure of souls in certain parishes where such assistance is most required:

"Whereas by the said Act it is enacted, that, except as therein otherwise specified, all the monies and revenues to be paid to us, and all the rents and profits of the lands, tithes, and other hereditaments vested and to be vested in us by and under the authority of this Act, together with all accumulations of interest produced by and arising therefrom, shall be from time to time carried over by us to a common fund, and by payments or investments made out of such fund, or, if in any case it be deemed more expedient, by means of an actual conveyance and assignment of such lands, tithes, or other hereditaments, or of a portion thereof, additional provision shall be made by the authority in the said Act provided (that is to say, by orders of your Majesty in Council, ratifying schemes prepared by us), for the cure of souls in parishes where such assistance is most required, in such manner as shall, by the like authority, be deemed most conducive to the efficiency of the Established Church; provided always, that in making any such additional provision out of any tithes, or any lands or other hereditaments allotted or assigned in lieu of tithes, so vested or to be vested in us, or out of the rents

and profits thereof, due consideration shall be had of the wants and circumstances of the places in which such tithes now arise or have arisen:

"Now, therefore, we humbly recommend and propose, that out of the said common fund there shall be paid by us, in each and every year, to the incumbent for the time being of each of the benefices or churches described in the schedules hereunto annexed marked respectively B and C, the fixed annual sum set opposite to the name of such benefice or church in the last column of the same schedules respectively, by equal half-yearly payments, on the first day of May and the first day of November in each year, but in the case of St. Bartholomew, Cripplegate, contained in the schedule C, not after the avoidance by the Venerable John Banks Hollingworth of the united benefices and rectories of Saint Margaret, Lothbury, Saint Christopher le Stocks, and Saint Bartholomew, Exchange, in the city of London, now held by him; provided nevertheless that the amount of the first payment in respect of each of such grants on the first day of May next shall be calculated from such date as according to the special circumstances of the case shall appear to us to be just and reasonable:

"And we further recommend and propose, that the rentcharge in lieu of tithe particularly described in the schedule hereunto annexed marked F, now vested in us for the purposes of the said Act, shall, without any conveyance or assurance in the law other than this scheme, and any duly gazetted Order of your Majesty in Council ratifying the same, and upon and from

the day of the gazetting thereof, be transferred to and become absolutely vested in possession in the Rev. J. Lloyd Richards, Perpetual Curate of the parish of Llanwyddyn, in the county of Montgomery, and diocese of St. Asaph, and his successors, perpetual curates thereof for ever; and that the land and rentcharge in lieu of tithe particularly described in the schedule hereunto annexed, marked G, also vested in us for the purposes of the said Act, shall in like manner, and at the same time, be transferred to, and become absolutely vested in, the Reverend Henry Parsons, Perpetual Curate of the parish of Sandhurst, in the county of Berks, and diocese of Oxford, and his successors, perpetual curates thereof, for ever.

"And we further recommend and propose, that nothing herein contained shall prevent the further augmentation of any of such benefices or churches, if it shall be deemed fit, when there shall be sufficient means for that purpose; and that if it shall appear to us to be expedient, at any future time, that instead of the annual sum then in course of payment by us to the incumbent of any benefice, or instead of any part of such annual sum, any land tithe or other hereditament should be conveyed to such benefice in fee, nothing herein or in any other scheme contained shall prevent us from recommending and proposing such a substitution:

"And we further recommend and propose, that nothing herein contained shall prevent us from recommending and proposing any other measure for making better provision for the cure of souls, in conformity with the provisions of the said recited Act, or of any other Act of Parliament.

SOUTH AUSTRALIA.

STEAM NAVIGATION OF THE RIVER MURRAY.

BONUS OF £4,000.

Notice.

THE Governor and Legislative Council of South Australia having offered a bonus of £4,000, to be equally divided between the two first Iron Steamers, of not less than forty-horse power, and not exceeding two feet draft of water when loaded, as shall successfully navigate the waters of the River Murray, from the Goolwa to (at least) the junction of the Darling, computed to be about 551 miles; and provision for the said sum of £4,000 having been made in the Ordinance No. 9, of 1850, entitled "An Ordinance for the Further Appropriation of the Revenue for the year 1850, and for the General Appropriation of the Revenue for the year 1851:"

Notice is hereby given, that the above awards will be, severally, claimable in respect of the Two First Vessels which shall, at any time, from and after the 1st day of October 1851, successfully navigate the Murray under the prescribed conditions.

The following particulars, collected from various sources, respecting the waters of the Murray between the above-named points, are published for general information:—

The great surf that is constantly breaking on the Encounter Bay coast, at the spot where the River Murray discharges itself into the sea, renders the entrance into the river from the sea most dangerous, and indeed impracticable; hence, any steamer intended for the inland navigation must either be built, or put together, on the shores of the river or lake.

Commencing from the Goolwa, the navigation is through a channel about fourteen miles long, and averaging a mile in width, with a depth of water varying from six to thirty-two feet.

The Goolwa Channel then opens out into Lake Victoria, a sheet of water thirty miles long by ten broad, the navigation across which is twenty-five miles in length, the depth of water varying from six to eighteen feet. Fresh water commences about the middle of this lake.

The River Murray thence to Moorundee, 121 miles distant, is from 150 to 250 yards wide, and varies from ten feet in depth to fourteen fathoms; to this point there are no obstructions to navigation.

From Moorundee to the Darling, 391 miles distant, sand shoals exist in nearly every reach: but a channel is invariably to be found in which there is three feet of water at the lowest season, which is the month of July.

The annual floods increase the depth of water from eight to twelve feet.

The current varies in strength according to the season, and the distance from the sea, and its rate is from one and a-half to three miles per hour.

Abundance of wood for fuel is to be obtained along the banks of the river, generally, throughout its whole length.

Wool, tallow, and hides, would, probably, in the first instance, form the chief articles of transport.

By command,

CHAS. STURT, Colonial Secretary.

Edward Barnard, Agent-General for Crown Colonies, 6, Cannon-row, Westminster.
