NOTICE TO MARINERS.

STORNOWAY LIGHTHOUSE AND BEACON.

THE Commissioners of Northern Lighthouses
hereby give notice that a Lighthouse has
been built upon Arnish Point, at the entrance to
the Harbour of Stornoway in the Island of Lewis,
in the county of Ross, the Light of which will be
exhibited on the night of Saturday, 1st January
1853, and every night thereafter, from the going
away of daylight in the evening, till the return of
daylight in the morning.

*The following is a Specification of the Lighthouse,
and the Appearance of the Light, by the
Engineer to the Commissioners.*

The Lighthouse is in N. Lat. 58° 11' 28", and
W. Long. 6° 22' 10". By Compass, the Light-
house bears from Chicken Head N.W. distant
about 3 nautic miles.

The Stornoway Light will be known to Mariners
as a Revolving Light which shows a bright White
Light once every half minute. The Light is
elevated 56 feet above the level of high-water of
ordinary spring tides, and may be seen at the
distance of about 10 miles, and at lesser distances
according to the state of the atmosphere; to a
near observer, in favourable circumstances, the
Light will not wholly disappear between the
intervals of greatest brightness. It illuminates
an arc from about N.N.E. to about N.W. by N.
 $\frac{1}{4}$ N. facing the entrance to Stornoway, and an
arc from about S.W. $\frac{3}{4}$ S. to about E.S.E. facing
up the Harbour, the intervening arcs being
masked.

The Commissioners further give notice, that a
Beacon has been erected on a reef running out
from Arnish Point, placed about 200 yards from
the Lighthouse, on which a Light will be thrown
from the Lighthouse Tower; and from the top of
the Beacon an apparent or Reflected Light of low
power will, in favourable states of the weather, be
visible to Vessels entering the Bay.
