

said county; including the requisite measures for raising and enrolling a sufficient number of Volunteers to complete the above corps, in pursuance of the statute 15th and 16th Victoria, chapter 50, and the Order of the Queen in Council dated the 28th day of December, 1852.

By order of Sir John Walsh, Bart., Her Majesty's Lieutenant of the said county.

*William Stephens*, Clerk to the Lieutenancy.  
Presteign, February 4th, 1853.

**N**OTICE is hereby given, that in pursuance of the Act of Parliament, 7 and 8 William IV., and 1 Vict., cap. 73, entitled "An Act for better enabling Her Majesty to confer certain powers and immunities on trading and other Companies," an application has been made to Her Majesty to grant a charter of incorporation to the London Bank of Australia and India, formed for the purpose of establishing, under the regulation and control of a head office in London, Banks of Issue and Deposit, and branches or agencies of such Banks in Australia and New Zealand, and other cities, towns, and places within the several colonies or settlements of Australia, and to carry on the business of bankers in such cities, towns, and places, and for that purpose to make and issue bank notes and bills, payable on demand or otherwise, and generally to transact all business connected with Banking, Exchange, Deposit and Remittance, or dealing in money or bullion, or in notes, bills, or other securities for money, and that such application has been referred by Her Majesty to the Committee of Privy Council for Trade and Plantations.—Dated this 8th day of February, 1853.

*Tatham, Upton, Upton, and Johnson*, 20,  
Austin Friars, Solicitors.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

**N**OTICE is hereby given, that—

53. Thomas Browne Dalziel, of Glasgow, in the county of Lanark, North Britain, Manager, has given notice at the office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in the treatment or manufacture of textile fabrics or materials."
56. And John Finlay, of Glasgow, in the county of Lanark, North Britain, Ironmonger, has given the like notice in respect of the invention of "improvements in grates and fire-places, or apparatus for the generation of heat."
90. And John Aspinall, of King William-street, in the city of London, Engineer, has given the like notice in respect of the invention of "improvements in evaporating cane-juice and other liquids, and in apparatus for that purpose."
- As set forth in their respective petitions, all recorded in the said office on the 1st day of October, 1852.
171. And William James Lewis, of London, but now residing at Turin, in the Kingdom of Sardinia, Civil Engineer, but now at Paris, has given the like notice in respect of the invention of "a slideless stadia sight, applicable to rifles and other fire arms."
181. And William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "im-

provements in governors or regulators for regulating the pressure of gas as it passes from the main or other pipes to the burners."—A communication.

As set forth in their respective petitions, both recorded in the said office on the 2nd day of October, 1852.

231. And George Walker Nicholson, of Pendleton, in the county of Lancaster, Tool and Engine Fitter, has given the like notice in respect of the invention of "improvements in screw-bolts, nuts and washers, and in the machinery or apparatus for making the same."

234. And John Balmforth, William Balmforth, and Thomas Balmforth, all of Clayton, in the county of Lancaster, Iron Masters, have given the like notice in respect of the invention of "improvements in steam-boilers, and in fixing the same."

236. And Robert Brown, of Salford, in the county of Lancaster, Manager, has given the like notice in respect of the invention of "an improved taking-up motion applicable to looms and other similar purposes."

As set forth in their respective petitions, all recorded in the said office on the 5th day of October, 1852.

252. And Jacob Tilton Slade, of Pall Mall, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "an improved mode of driving certain machines and an improved driving band or chain to be used therewith."

259. And George Walker Nicholson, of Pendleton, in the county of Lancaster, Tool and Engine Fitter, has given the like notice in respect of the invention of "improvements in vices and in the means or method used for fixing the same."

262. And Robert Mortimer Glover, of Newcastle-on-Tyne, Doctor of Medicine, and John Cail, of the same place, Mathematical Instrument Maker, have given the like notice in respect of the invention of "improvements in miners' or safety lamps."

As set forth in their respective petitions, all recorded in the said office on the 6th day of October, 1852.

305. And John Talbot Tyler, of Mount-street, Grosvenor-square, in the county of Middlesex, Hatter, has given the like notice in respect of the invention of "improvements in hats, and in the preparation of plush or other covering used in the manufacture of hats."

As set forth in his petition, recorded in the said office on the 8th day of October, 1852.

341. And Edward Simons, of Birmingham, in the county of Warwick, Tallow Chandler, has given the like notice in respect of the invention of "improvements in lamps."

As set forth in his petition, recorded in the said office on the 12th day of October, 1852.

361. And Joseph Pimlott Oates, of Lichfield, in the county of Stafford, Surgeon, has given the like notice in respect of the invention of "an improved spring or improved springs for carriages."

362. And William Tatham, of Rochdale, in the county of Lancaster, Machine Maker, has given the like notice in respect of the invention of "an improved mode or improved modes of preventing accidents on railways."

As set forth in their respective petitions, both recorded in the said office on the 13th day of October, 1852.
