

SUPPLEMENT TO The London Gazette

Of TUESDAY the 20th of SEPTEMBER.

Published by Authority.

WEDNESDAY, SEPTEMBER 21, 1853.

DIRECTIONS AND REGULATIONS OF THE GENERAL BOARD OF HEALTH,
Issued under Authority of the Nuisances Removal and Diseases Prevention Act, 1848, Section X.

To Local Boards of Health acting under the Public Health Act, 1848 ;

To Town Councils or other Bodies acting under the Authority of Local Acts of Parliament in which the Provisions of the Public Health Act are included ;

To the Guardians of the Poor of the several Unions in England and Wales, named in the First Schedule hereunto annexed ;

To the Guardians of the Poor of the several Parishes in England and Wales, named in the Second Schedule hereunto annexed ;

To the Overseers of the Poor of all Parishes, Townships, and Places not comprised in the Unions and Parishes mentioned in the First and Second Schedules hereunto annexed ;

To the Mayor, Aldermen, and Burgesses of Cities and Boroughs, Commissioners under Local Acts, the Surveyors of Highways, their Deputies and Assistants, Road Trustees, Commissioners, County Surveyors, and other Persons by Law intrusted with the Care and Management of all Streets, public Ways and Places in any Parish or Place in England and Wales ;

To the Owners and Occupiers of Houses, Dwellings, Churches, Buildings, and places of Assembly within the said Unions and Parishes, and others having the Care and Ordering thereof ;

And to all whom it may concern ;—

WHEREAS by the provisions of "The Nuisances Removal and Diseases Prevention Act, 1848," for the prevention of epidemic, endemic, and contagious diseases, We, the General Board of Health, are authorized to issue such Directions and Regulations as We shall think fit for the prevention (as far as pos-

sible) or mitigation of epidemic, endemic, or contagious disease : And whereas by the said Act it is provided that the Directions and Regulations to be issued as aforesaid shall extend to all parts or places in which the said provisions of the said Act shall for the time being be in force, under the Order of Her Majesty's Privy Council, unless such Directions or Regulations shall be expressly confined to some of such parts or places, and then to such parts or places as in such Directions and Regulations shall be specified :

And whereas by an Order of Her Majesty's Most Honourable Privy Council, bearing date the 15th day of September, 1853, the said provisions of the said Act were directed to be put in force throughout the whole of Great Britain for a period of six calendar months thence next ensuing :

Now, in exercise of the authority vested in us as aforesaid, We, the General Board of Health, do issue the Directions and Regulations hereinafter contained, to extend to all parts and places within the several unions, parishes, and places throughout England and Wales ; that is to say :—

I. We direct that all the local authorities charged by the Common Lodging Houses Act, 1851, with the execution of that Act, shall see that the provisions of the said Act, and any Act amending the same, are enforced forthwith.

II. We direct the Guardians, Overseers, and persons as aforesaid, to order the clerk to the Guardians of any such union or parish, forthwith upon the publication of these Directions, to make out, from the Medical Officer's books, or other sources of information readily obtainable by him, a list of the places within his union or parish where cases of cholera, diarrhoea, typhus fever, or epidemic or any endemic disease, may have lately been frequent ; and to give the list or portions of the list relating to particular districts to the Medical Officer of each district to which it shall relate. And the Medical Officer of every union or parish shall visit the places within his district named in such list, and any other places within.

it, and examine the houses situate in such places, as to their present condition in respect to cleanliness, or as to any existing predisposing and removeable causes of disease likely to affect the inmates thereof.

III. We direct the Guardians, Overseers, or persons to whom these Regulations may apply to order the said Medical Officer to inquire into the state of the health of the inhabitants of all such places, and into the state of health of the children in schools, of the workpeople in places of work, and of the inmates of common lodging houses, and where he shall ascertain that any case of diarrhoea or of any premonitory stages of an epidemic disease exists to treat or direct the treatment of the same at once.

IV. And such Medical Officer, where it may be necessary, shall certify in writing to the Guardians of his union or parish all such places as are in a state dangerous to health, or as need frequent and effectual cleansing by way of preservation against disease, and such dwelling-houses as are in a filthy and unwholesome condition, and all such nuisances and matters injurious to health as ought to be abated, cleansed, and removed under these Regulations.

V. We direct that all Town Councils, and other governing bodies of cities and boroughs, Commissioners under Local Acts, Local Boards of Health, Surveyors and District or Assistant Surveyors of Highways, Road Trustees or Commissioners, County Surveyors, and others now by law intrusted with the care and management of the streets and public ways and places within the parishes and places to which these Directions and Regulations extend,—

Shall see to the effectual and continued cleansing of all such of the streets, rows, lanes, mews, courts, alleys, and passages, and public ways and places, under their respective care and management, as by the Medical Officer of the Guardians or others authorized to superintend the execution of these Directions and Regulations shall be certified in writing to be in a state dangerous to health, or to require frequent and effectual cleansing by way of precaution against disease,—

And shall cause all filth, ordure, and nuisances to be removed therefrom.

VI. We direct that where any such streets, rows, lanes, mews, courts, alleys, and any passages, public ways, or places to which any houses or tenements adjoin, which have not been intrusted by law to the care or management of any Town Council, Local Board of Health, Commissioners, Surveyors, Trustees, or others, have been certified in writing by such Medical Officer as aforesaid to be in a state dangerous to health, or to require such frequent and effectual cleansing, every occupier of a house or tenement so adjoining shall keep or cause to be kept sufficiently cleansed every part of the street, row, lane, mews, court, alley or passage, way or place, which adjoins the house or tenement occupied by him, which works of cleansing and removal of filth, ordure, and nuisances required by these Directions and Regulations shall be done by effectual washing or otherwise, and with the use of fluids or substances for preventing the escape of noxious effluvia during the operation, when the Medical Officer of the Guardians or others authorized to superintend the execution of these Directions and Regulations shall direct and prescribe the same.

VII. We do hereby require the said Guardians and Overseers, and all other persons to whom these present Regulations are addressed, by them-

selves or by their officers or persons, already employed by them, or to be specially appointed by them in this behalf, to superintend and see to the execution of the foregoing Directions and Regulations within their respective unions, parishes, or places over or in which they may legally have jurisdiction.

VIII. And where it shall appear that by want or neglect of the Town Council of any city or borough, Local Board of Health, Commissioners, Surveyors, Trustees, or others intrusted with the care and management of streets and public ways and places as aforesaid, or by reason of poverty of the occupiers or otherwise, there is any default or delay in the cleansing of or removing nuisances from any street, row, lane, mews, court, alley, passage, or public way or place certified as aforesaid, within any of the said unions, parishes, or places, we direct the Guardians of such union or parish, or the Overseers of such parish, and all other persons having legal authority within such parish or place, to cause such street, row, lane, mews, court, alley, passage, way, or place to be effectually cleansed, and all nuisances to be removed therefrom, and to do all acts, matters, and things necessary for that purpose.

IX. We also direct—
That

When and so often as any dwelling house in any part or place to which these Directions and Regulations extend is in such a filthy and unwholesome condition as to be a nuisance to or injurious to the health of any person ; or

Where, upon, adjoining to, or near any premises, or any part or place, as aforesaid, there is any foul and offensive drain, ditch, gutter, privy, cesspool, or ashpit, or any drain, ditch, gutter, privy, cesspool, or ashpit, kept or constructed so as to be a nuisance to or injurious to the health of any person ; or

Where, upon, adjoining to, or near any such premises, swine, or any accumulation of dung, manure, offal, filth, refuse, or other matter or thing is kept, so as to be a nuisance to or injurious to the health of any person ; or

Where, upon, adjoining to, or near any such premises, being a building used wholly or in part as a dwelling house, or being premises underneath any such building, any animal is kept so as to be a nuisance to or injurious to the health of any person.

In each of the above-recited cases the owner or occupier, and persons having the care or ordering of such dwelling-house, or of the premises where the nuisance or matter injurious to health may be or where they by reason of poverty or otherwise are unable, then the Town Council, Local Board of Health, Guardians Commissioners, or Overseers, shall cleanse, whitewash, or otherwise purify, as the case may require, such dwelling-house or building, or abate or remove the nuisance or matter injurious to health as aforesaid, with all reasonable speed after the publication of these our Directions and Regulations, or after the nuisance or matter injurious to health shall have arisen.

X. Wherever there shall not be a Town Council, Local Board of Health, or other governing body of a city or borough, or Commissioners having jurisdiction for the removal of nuisances, or where such Council, Local Board of Health, governing body, or Commissioners shall not cause to be effectually executed such Directions, We direct the said Guardians and Overseers, as the case may be,—

To visit, from time to time, or cause to be

visited, the several dwellings and places where there may be ground for believing that necessity will arise for executing such Directions

And where, from the poverty of occupiers or otherwise, there may be default or delay in the cleansing or purifying of any such dwelling-house, or the abatement or removal of any such nuisance or matter injurious to health, and the Medical Officer, or other person duly authorized as aforesaid, shall have certified that the same requires immediate attention, and where, from want of co-operation of the owners or occupiers, there is any default or delay in cleansing any foul and offensive drain, ditch, watercourse, or gutter into which several dwellings or tenements may drain,—

To cause such dwelling-houses to be cleansed and purified, and such drain, ditch, watercourse, or gutter to be frequently and effectually cleansed, and such nuisance or matter injurious to health to be abated and removed respectively, and to do all acts and provide all matters and things necessary for that purpose.

XI. Every Medical Officer shall forthwith upon any unusual amount of diarrhoea, or any case of cholera, or of typhus, or other epidemic, endemic, or contagious disease, becoming known to him within his district, report the same to the Board of Guardians of his union or parish.

XII. On the occurrence of any unusual prevalence of diarrhoea, or of severe premonitory symptoms of the disease of cholera, or any severe epidemic disease, in any school, or place of work, or among the inmates of any establishment, which shall appear to be overcrowded, the Medical Officer shall, so soon as he shall be informed thereof, and if he deem it necessary, order the separation of the inmates of such school, place of work, or establishment, and direct such measures to be taken as shall appear to him to be expedient to prevent the spread of the disease.

XIII. And where it shall sufficiently appear to such Guardians, Overseers, or others to whom these Regulations apply, by certificate of their Medical Officer, or of the Medical Superintending Inspector of the General Board of Health, or otherwise, that cholera, or any other severe epidemic, endemic, or contagious disease, is present or imminent in any union, parish, or place, and that extraordinary medical aid is required for persons resident within such union, parish, or place attacked or threatened to be attacked by cholera, or other severe epidemic, endemic, or contagious disease, or for the discovery and treatment of persons so attacked or threatened, we direct such Guardians, Overseers, or persons as aforesaid, to provide, as soon as may be practicable, sufficient medical aid for examination, by house-to-house visitation, of the state of the inhabitants of the union, parish, or place, and for medical treatment of persons found to be threatened or affected with cholera, or such epidemic disease, or symptoms premonitory thereof, and for warning and instruction of such persons, and for the provision in suitable places of such medicines as may be required within their respective unions or parishes for necessitous persons attacked by cholera or by premonitory symptoms, and to make arrangements for the distribution of notices stating the places where such aid and medicines shall have been provided.

XIV. To ensure proper treatment in their own houses to many of the poorer class, We require the said Guardians, where it shall appear to their Medical Officer, or to the Medical Superintending Inspector of the General Board of Health, that

such extraordinary aid is requisite, to provide suitable rooms or places capable of accommodating necessitous cases, to which persons attacked by cholera, who cannot be properly treated in their own homes, may be conveyed.

XV. We direct the said Guardians, where it shall appear to their Medical Officer, or to the Medical Superintending Inspector of the General Board of Health, requisite, to provide rooms or places of refuge to which may be removed the families of such necessitous persons as have been attacked with cholera, and also such necessitous persons living under the same roof with or in the vicinity of persons attacked, as the Medical Officers, acting under the authority of the said Guardians, may deem it necessary to remove, and to cause the houses, rooms, or dwellings from which persons may have been so removed to the houses of refuge to be cleansed and purified by the owners or persons having the care or ordering thereof, or, in their default, by the said Guardians.

XVI. On the occurrence of any case of cholera, or other epidemic, endemic, or contagious disease, in any room occupied by one family or more, the Medical Officer of the union or parish attending the case shall cause to be removed either the patient or so many of the occupants of such room as he shall consider would, unless removed, tend to prevent the recovery of the patient, or endanger the spreading of the disease.

XVII. In case of death by cholera, or any other severe epidemic, endemic, or contagious disease, the last Medical Attendant upon the person of the deceased, or, in case of there having been no Medical Attendant, the housekeeper or person present at the death, or who shall be in charge of the body, shall forthwith notify the fact of the death to the Medical Officer of the district charged with the execution of these Orders, for the prevention of the spread of such disease, and the Medical Officer shall give such directions as may appear to him needful in respect to the care, removal, and the time of interment of the body, for preventing the communication or spread of disease.

And We hereby authorize and require all persons to give such information or such assistance to such Medical Officer, and to be otherwise aiding him, as he may need in the execution of these Orders.

XVIII. In the event of the fatal termination of any case of cholera, or of severe epidemic, endemic, or contagious disease, in any room occupied as a living or sleeping room by one family or more, or by numerous persons, the Medical Officer of the district, so soon as he shall be informed of the death, shall cause to be removed, as speedily as may be, the corpse from the same premises, or, if this be not convenient, shall cause the persons occupying such rooms to be removed therefrom until the corpse can be conveniently removed and properly interred.

XIX. And We direct the said Guardians to make arrangements for obtaining daily lists of persons attacked by cholera or other epidemic disease within their respective unions or parishes, with the particulars of their cases and treatment, and for communicating the same daily to the General Board of Health.

XX. And We direct the said Guardians, where it may appear needful, to appoint such additional Medical Officers, and also to appoint such other officers as may be necessary to execute and superintend the execution of these Regulations, and to publish and circulate, by private handbills or other means, notices of the provisions of the said Act

for the Prevention of Nuisances, and of our Directions, Regulations, and Instructions, or of such part of any of them as it may appear to them expedient to make publicly known.

XXI. And We direct that in these Directions and Regulations the words "Guardians of the Poor" shall mean the Guardians, Directors, Wardens, Governors, or other like officers having the management of the poor of any union, parish, or place where the matter requiring the cognizance of any such officers arises; and the word "parish" shall include every place where the relief of the poor is administered by a Board of Guardians for such place.

Given under our Hands and under the Seal of the General Board of Health, this Twentieth day of September, One thousand eight hundred and fifty-three.

(Signed) *Edwin Chadwick.*
T. Southwood Smith.
