PARIS UNIVERSAL EXHIBITION OF
1855.

At the Council Chamber, Whitehall, the 12th day of September, 1854.

By the Right Honourable the Lords of the Committee of Privy Council appointed for the consideration of all matters relating to Trade and Foreign Plantations.

MY Lords have had under consideration the best means of apportioning the space placed at their disposal by the French Imperial Commission among the various intending exhibitors, in such a way as to secure the most complete representation of our national industry which that space admits of.

In compliance with Art. 9, of the Regulations of the Imperial Commission, my Lords forwarded, on the 15th August (the day appointed), a return of the applications received up to that date, representing 2,130 exhibitors, who had applied for 348,625 square feet of horizontal space, including the necessary addition for passages.

The Imperial Commission have announced their intention of allotting 15,000 square metres (162,000 square feet), including passages, to this country, a quantity exceeding by 62,000 square feet the amount allotted to France in 1851, and must therefore be considered as a liberal allowance. It is, however, obvious that the demands of the United Kingdom must be materially reduced, in order to bring them within the prescribed limits.

Up to this time no judgment has been passed upon the character of the applications, although it must be evident that one part of them is more likely than another to reflect credit upon our national industry; and that though there are probably few applications which do not include
